NOTE:

These Zoned Districts are derived from the Los Angeles County Code, Title 22 Planning and Zoning, Section 22.16.230. Zoned districts were established many years ago when zoning was created for Los Angeles County, providing a way to break the county up into smaller, distinct areas for easier record keeping and organization. Zoned districts are still used to identify and keep track of those early ordinances and for running queries against permits and ordinances.

This map was produced in whole or in part from THOMAS BROS. MAPS digital database and reproduced with permission from THOMAS BROS. MAPS.
