Subject: Re: Baldwin Hills CSD - Health Assessment

Timothy, we will not be performing a health assessment in the same manner as was done in the past. We will take a look at secondary data since the last assessment, including any available updated morbidity & mortality data, and other potential data sources. A meeting with the community won't be necessary at this time. We will provide a report by June 2019 as designated.

To be in compliance with this term, a health assessment must be completed between June 2017 and June 2019. Does DPH have a plan as to when this second assessment will be finalized?
