INFORMATION

LOS ANGELES COUNTY LOBBYIST ORDINANCE

The intent of the Los Angeles County Lobbyist Ordinance is to make lobbying more open and visible to the general public. In this way the public can be better informed of activities designed to influence official action.

County lobbyists are defined in the ordinance as "...any individual who is employed, contracts or otherwise receives compensation, other than reimbursement for reasonable travel expenses, to communicate directly, or through agents, employees or subcontractors, with any county official for the purpose of influencing official action, if a substantial or regular portion of the activities for which he or she receives such compensation is for the purpose of influencing official action". Lobbyists are required to register, pay a registration fee and disclose their lobbying activities on designated forms with the Executive Office of the Board of Supervisors (address below).

The ordinance also requires anyone who applies for a County permit to sign a certification. This is to state that they are aware of the lobbyist ordinance and if they are represented by a lobbyist, that the lobbyist is complying with the ordinance. To implement the provisions of this ordinance and to make compliance simpler for those who are not lobbyists, the Department of Regional Planning has prepared the certification form on the other side of this sheet.

If you would like to obtain a copy of the ordinance you may contact:
