**PROJECT DESCRIPTION**

The project is a request for a Conditional Use Permit to authorize the operation and maintenance of an existing motel with six (6) rental units and one (1) manager's unit in the C-3 (Unlimited Commercial) Zone

**REQUIRED ENTITLEMENTS**

Per Section 22.28.210 of the County Code a conditional use permit is required to operate a motel in C-3 (Unlimited Commercial) Zone. The applicant is requesting a conditional use permit to authorize the continued operation and maintenance of an existing motel with six (6) rental units and one (1) manager's unit in the C-3 (Unlimited Commercial) Zone.

**LOCATION**

6051 East Olympic Boulevard, Unincorporated East Los Angeles

**SITE PLAN DESCRIPTION**

The site plan depicts a 0.14 acre rectangular-shaped parcel developed with a 2,133 square foot, six (6) unit motel. The site plan also depicts nine on-site parking spaces and a five foot landscaping buffer along on the eastern property boundary.

**ENVIRONMENTAL DETERMINATION**

The Department of Regional Planning has determined that a Categorical Exemption, Class 1 – Existing Facilities, is the appropriate environmental documentation under California Environmental Quality Act (CEQA) reporting requirements because no construction or expansion of use is proposed beyond that which is currently in existence.

**LEGAL NOTIFICATION AND PUBLIC OUTREACH**

Pursuant to the provisions of Sections 22.60.174 and 22.60.175 of the County Code, the community was appropriately notified of the public hearing by mail, newspaper, property posting, library posting and DRP website posting.

**PREVIOUS CASES/ZONING HISTORY**

- CP98-159 - A conditional use permit to approve a motel with six (6) rental units and one (1) manager's unit in the C-3 (Unlimited Commercial) Zone. The permit was approved on May 12, 1999 and expired on May 12, 2009.

**STAFF EVALUATION**

**General Plan Consistency**

The project is site within the East Los Angeles Community Plan Area and is designated as CC-Community Commercial, which is described as areas with mostly small

businesses in centers or along strips. These businesses are basically oriented to serving the needs of surrounding neighborhoods and have little regional attraction. The motel use is consistent with the intent of the land use category as the Motel is a small business located on a commercial corridor.

### **Zoning Ordinance and Development Standards Compliance**

The project site is zoned C-3 (Unlimited Commercial) and within the East Los Angeles Community Standards District, below are the applicable development standards:

#### **Landscaping and Buffering.**

Per Section 22.44.118.D, whenever adjacent to a property line, parking areas shall provide a landscaped buffer strip of at least five feet in width. Landscaping shall be provided and maintained in a neat and orderly manner. A 15-gallon tree shall be provided for every 50 square feet of landscaped area, to be equally spaced along the buffer strip. The landscaping materials shall be approved by the director. Permanent irrigation systems shall be required and maintained in good working order. A solid masonry wall not less than five feet high nor more than six feet in height shall be provided along the side and rear property lines.

A two foot landscape buffer is provided between the parking area and the eastern property boundary. The property was developed in 1948 with necessary building permits and at that time, there was not a requirement for a five-foot landscape buffer. The motel has remained as built since 1948 and therefore would not need to provide additional landscaping.

A five foot masonry wall is provided along the Eastern property boundary. This standard has been met.

#### **Height**

Per Section 22.44.118.D, the maximum height permitted in Zone C-3 is 40 feet. The building is 14 feet in height and therefore meets the development standard.

#### **Parking**

Per Section 22.52.1170, Every motel shall provide one parking space for each guest room; and one and one-half covered parking spaces for the one-bedroom managers unit. Based on this standard, a total of 8 parking spaces are required, two of which should be covered.

At the time the original structure was built in 1948, the parking standard was one parking space per unit or per dwelling apartment or other structure designed or intended to be used as a dwelling. According to this standard 7 parking spaces would have been required

The motel was constructed with necessary building permits in 1948, however as there was no Planning Department review of the project prior to construction, it is reasonable to believe that the project was legally built with appropriate parking under then-applicable standards. There are currently nine parking spaces provided for the motel use, but none are covered, therefore the project would be nonconforming due to parking standards. As no new construction or expansion of use is proposed, the applicant would not be required to provide any additional parking on the project site for the motel.

**Neighborhood Impact/Land Use Compatibility**

The surrounding land uses consist of single and multi-family residential to the North, which is separated from the project site by an alley. There are commercial and multi-family residential uses to the East, commercial and single-family homes to the south and commercial uses to the West. The motel has existed at its present location since 1948 and is being well maintained. The motel is compatible with the community as it is located on a commercial corridor and appropriately buffered from residential uses to the North by an alley.

**Burden of Proof**

The applicant is required to substantiate all facts identified by Section 22.56.040 of the Los Angeles County Code. The Burden of Proof with applicant's responses is attached. Staff is of the opinion that the applicant has met the burden of proof

**COUNTY DEPARTMENT COMMENTS AND RECOMMENDATIONS**

**FIRE DEPARTMENT** - In a letter dated April 21, 2011, the Fire Department cleared this project for public hearing. Letter attached.

**SHERIFF'S DEPARTMENT** – In a letter dated July 15, 2011 the Sheriff's Department indicated they had no issues with the continued use of the Motel at this time. The letter noted that there has only been one call for service to this location in the last five years and that the site is clean and well kept. Letter attached.

**PUBLIC COMMENTS**

No comments have been received.

**FEES/DEPOSITS**

If approved, fees identified in the attached project conditions will apply unless modified by the Regional Planning Commission.

**STAFF RECOMMENDATION**

The following recommendation is made prior to the public hearing and is subject to change based upon testimony and/or documentary evidence presented at the public hearing:

The motel has not had any zoning violations in the last ten years and the owner/operator has continued to maintain the property in good condition. The Motel is located in a commercial area and is compatible with its surrounding uses. Staff recommends Approval of project number 98-159 with associated Conditional Use Permit Number 201000139 subject to the attached conditions.

**SUGGESTED APPROVAL MOTION:**

I move that the Regional Planning Commission close the public hearing, find that the project is categorically exempt from the California Environmental Quality Act pursuant to a Class 1 categorical exemption, and approve Conditional Use Permit Number 201000139 with attached findings and conditions of approval

# **FINDINGS AND ORDER OF THE REGIONAL PLANNING COMMISSION COUNTY OF LOS ANGELES**

**PROJECT NUMBER 98-159-(1)  
CONDITIONAL USE PERMIT NUMBER 201000139**

## **REQUEST**

The applicant is requesting a Conditional Use Permit to authorize the operation and maintenance of an existing motel with six (6) rental units and one (1) manager's unit in the C-3 (Unlimited Commercial) Zone.

**REGIONAL PLANNING COMMISSION HEARING DATE: August 10, 2011**

## **FINDINGS**

1. The project is located at 6051 East Olympic Boulevard, Unincorporated East Los Angeles.
2. The project is a Conditional Use Permit to authorize the operation and maintenance of an existing motel with six (6) rental units and one (1) manager's unit in the C-3 (Unlimited Commercial) Zone
3. The project is site within the East Los Angeles Community Plan Area and is designated as CC-Community Commercial, which is described as areas with mostly small businesses in centers or along strips. These businesses are basically oriented to serving the needs of surrounding neighborhoods and have little regional attraction. The motel use is consistent with the adopted community plan for the area, as the Motel is a small business located on a commercial corridor serving a public convenience to the surrounding neighborhood.
4. The project site is zoned C-3 (Unlimited Commercial) and within the East Los Angeles Community Standards District. Landscaping and Buffering: Per Section 22.44.118.D, whenever adjacent to a property line, parking areas shall provide a landscaped buffer strip of at least five feet in width. Landscaping shall be provided and maintained in a neat and orderly manner. A 15-gallon tree shall be provided for every 50 square feet of landscaped area, to be equally spaced along the buffer strip. The landscaping materials shall be approved by the director. Permanent irrigation systems shall be required and maintained in good working order. A solid masonry wall not less than five feet high nor more than six feet in height shall be provided along the side and rear property lines.
5. A two foot landscape buffer is provided between the parking area and the eastern property boundary. The was property was developed in 1948 with necessary building permits and at that time, there was not a requirement for a five-foot landscape buffer. The motel has remained as built since 1948 and therefore would

not need to provide additional landscaping. A five foot masonry wall is provided along the Eastern property boundary. This standard has been met.

6. Height: Per Section 22.44.118.D, the maximum height permitted in Zone C-3 is 40 feet. The building is 14 feet in height and therefore meets the development standard.
7. Parking: Per Section 22.52.1170, every motel shall provide one parking space for each guest room; and one and one-half covered parking spaces for the one-bedroom managers unit. Based on this standard, a total of 8 parking spaces are required, two of which should be covered. At the time the original structure was built in 1948, the parking standard was one parking space per unit or per dwelling apartment or other structure designed or intended to be used as a dwelling. According to this standard 7 parking spaces would have been required.
8. The motel was constructed with necessary building permits in 1948, however as there was no Planning Department review of the project prior to construction, it is reasonable to believe that the project was legally built with appropriate parking under then-applicable standards. There are currently nine parking spaces provided for the motel use, but none are covered, therefore the project would be nonconforming due to parking standards. As no new construction or expansion of use is proposed, the applicant would not be required to provide any additional parking on the project site for the motel.
9. The surrounding land uses consist of single and multi-family residential to the North, which is separated from the project site by an alley. There are commercial and multi-family residential uses to the East, commercial and single-family homes to the south and commercial uses to the West. The motel has existed at its present location since 1948 and is being well maintained. The motel is compatible with the community as it is located on a commercial corridor and appropriately buffered from residential uses to the North by an alley.
10. The proposed motel will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, as the use is sufficiently buffered from residential uses and the motel has operated without any zoning violations for the past ten (10) years.
11. The proposed site is adequate in size and shape to accommodate the necessary parking and landscaping and is located along a commercial corridor amongst other commercial uses.
12. The proposed is located in an urbanized area and takes access from a developed public street, therefore the site is adequately served by highways or streets of sufficient width to support the traffic generated by the use.

13. Pursuant to the provisions of Sections 22.60.174 and 22.60.175 of the County Code, the community was appropriately notified of the public hearing by mail, newspaper and property posting.
14. To assure continued compatibility between the use of the subject property allowed by this grant and surrounding land uses, the Regional Planning Commission determines that it is necessary to limit the term of the grant to ten (10) years.
15. The Project is categorically exempt Class 1 – Existing Facilities, pursuant to the California Environmental Quality Act (CEQA) and the Los Angeles County environmental reporting guidelines. The motel is requesting to continue the use on an existing commercially zoned parcel of land, where the use has been located since 1948. The applicant is not proposing any new construction or other intensification of use. Therefore, the project qualifies for a Class 1 categorical exemption from the California Environmental Quality Act for existing facilities.
16. The location of the documents and other materials constituting the record of proceedings upon which the Commission's decision is based in this matter is at the Los Angeles County Department of Regional Planning, 13<sup>th</sup> Floor, Hall of Records, 320 West Temple Street, Los Angeles, CA 90012. The custodian of such documents and materials shall be the Section Head of the Zoning Permits East Section, Los Angeles County Department of Regional Planning.

**BASED ON THE FOREGOING, THE REGIONAL PLANNING COMMISSION CONCLUDES:**

- A. That the proposed use will be consistent with the adopted general plan for the area;
- B. That the requested use at the location proposed will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, or be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, or jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare; and
- C. That the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in this title, or as is otherwise required in order to integrate said use with the uses in the surrounding area; and
- D. That the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.

**REGIONAL PLANNING COMMISSION ACTION**

1. In view of the findings of fact and conclusions presented above, the Regional Planning Commission determines that the project is categorically exempt from CEQA pursuant to a Class 1 categorical exemption, and Conditional Use Permit 201000139 is approved subject to the attached conditions.

Dear Ms. Gutierrez:

We have checked calls for service at this location and found there to be minimal problems and arrests. During the last five years, there has only been one call for service for a stolen license plate. My deputies from my Special Problem Team have told me the location is clean, well kept, and properly managed at this current time. At this time, I have no issues with them continuing business at this location as long as they continue to follows all laws.
