

THE DEPARTMENT OF REGIONAL PLANNING
COUNTY OF LOS ANGELES

NOTICE OF PUBLIC HEARING
NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION

PROJECT NO. R2007-01999-(5)
CONDITIONAL USE PERMIT 200700143

Notice is hereby given that the Hearing Officer will conduct a public hearing concerning this land use proposal on **Tuesday, August 4, 2009 at 9:00 a.m.** in Room 150, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. Interested persons will be given an opportunity to testify. The hearing room will open at 8:50 a.m.

REQUEST: Conditional Use Permit to authorize a wireless telecommunications facility.

Section 704 of Title 7 of the Federal Telecommunications Act of 1996 (effective February 8, 1996), contains the following language:

"IV. No State or local government or instrumentality thereof may regulate the placement, construction, and modification of personal wireless service facilities on the basis of the environmental effects of radio frequency emissions to the extent that such facilities comply with the Commission's regulations concerning such emissions."

Any concerns regarding health risks from this proposed facility should be directed to the Federal Communications Commission – Office of Engineering and Technology – 445 12th Street S. W., Washington DC 20554, or by phone (202) 418-2464; toll free (888) CALL-FCC; www.fcc.gov/oet/rfsafety; e-mail rfsafety@fcc.gov.

LOCATION OF SUBJECT PROPERTY: The subject property is located at 4002 West Avenue N3 in the unincorporated area of Antelope Valley, in the Quartz Hill Zoned District.

This case does not affect the zoning of surrounding property. If you are unable to attend the public hearing but wish to send written comments, please write to the Hearing Officer, 320 West Temple Street, Los Angeles, California 90012.

If the final decision on this proposal is challenged in court, testimony may be limited to issues raised at the public hearing or by written correspondence delivered to the Hearing Officer at or prior to the public hearing.

A Draft Negative Declaration has been prepared for this project. The draft environmental document concludes that the project design and/or suggested conditions will adequately mitigate these impacts to a level of no significance. Notice is hereby given that the County of Los Angeles will consider a recommendation to adopt a Negative Declaration.

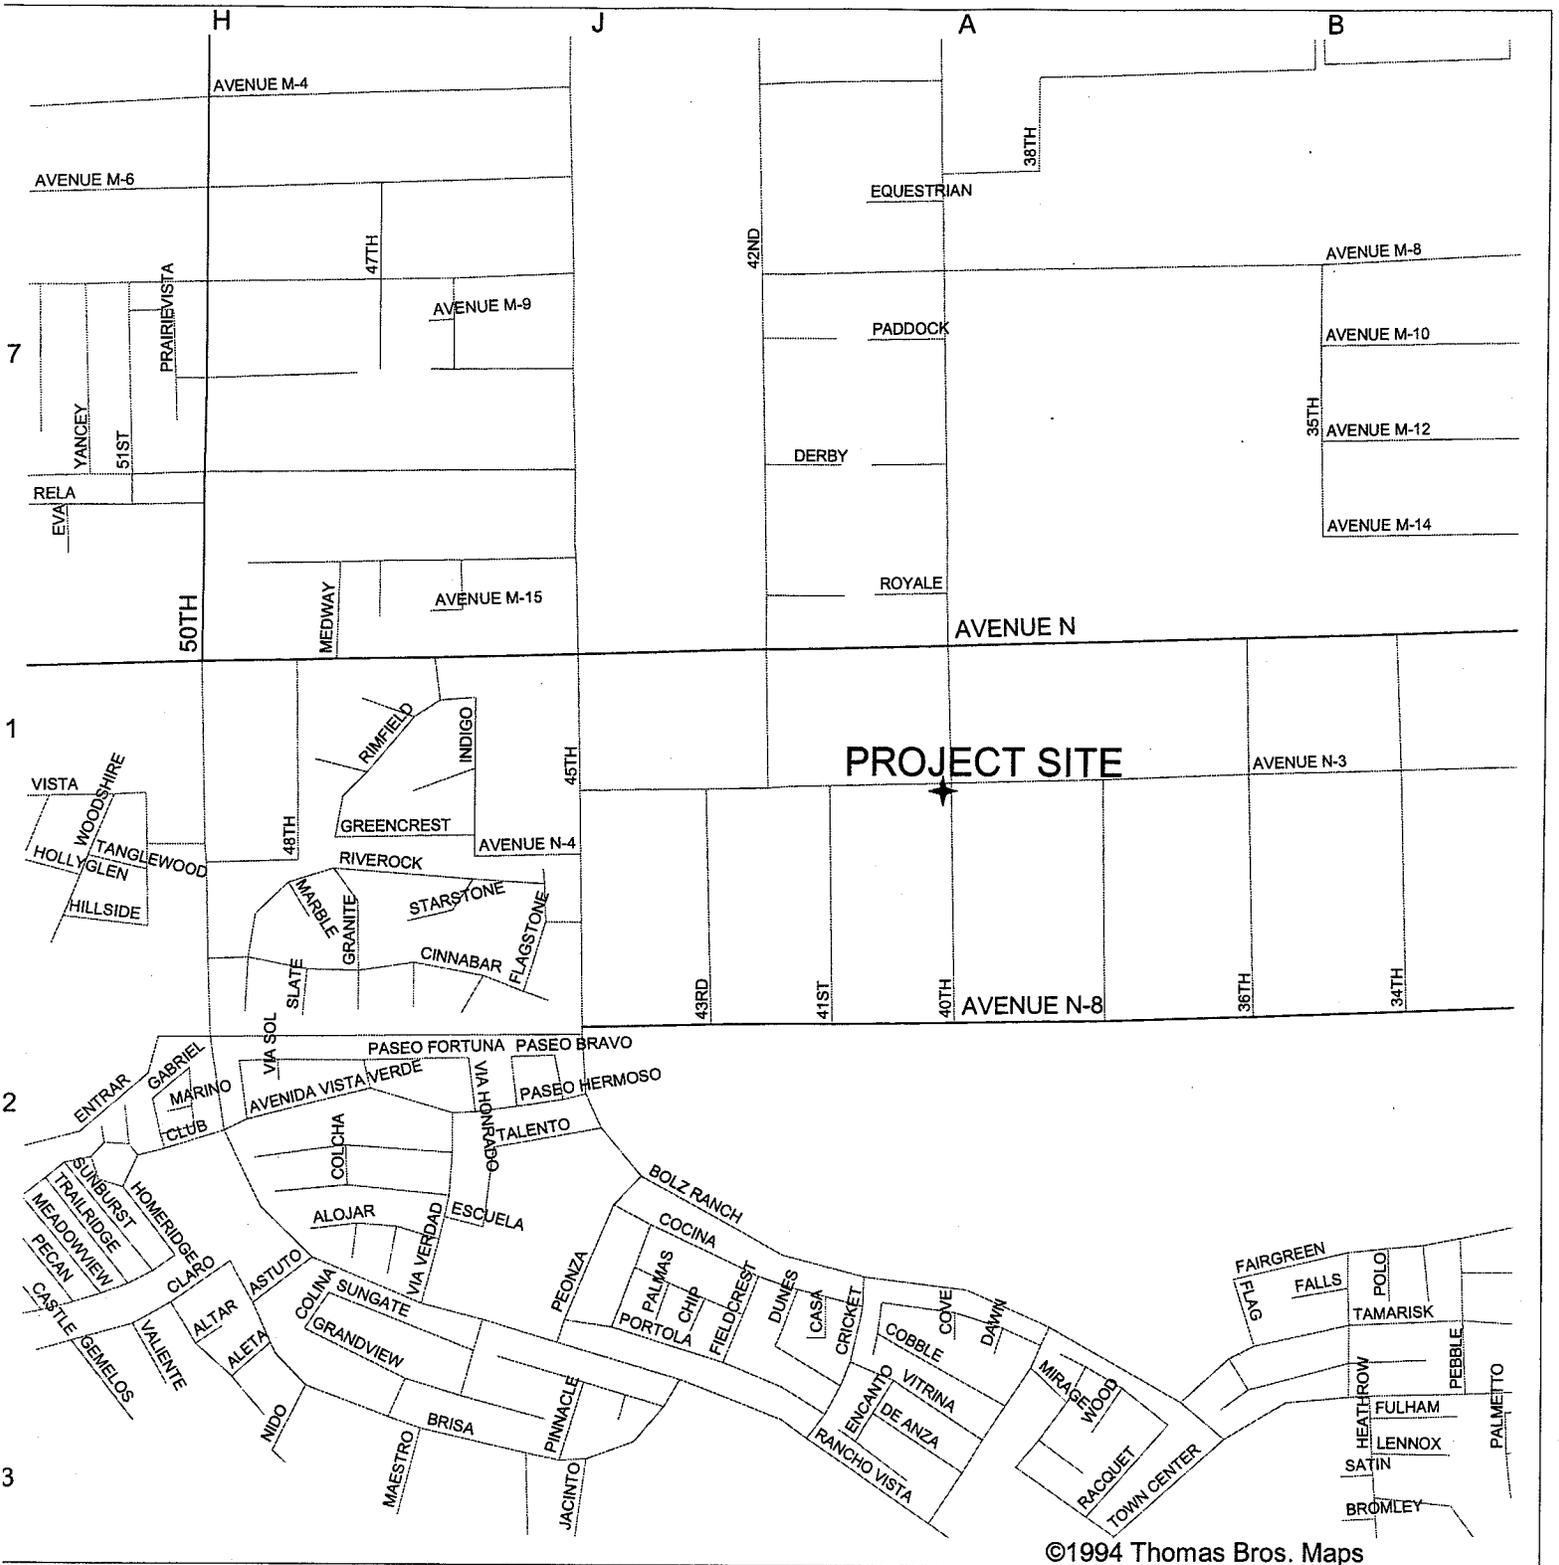

Case materials, including the environmental documentation, are available for review between 7:30 a.m. and 5:30 p.m., Monday through Thursday (**closed on Fridays**) in the offices of the Department of Regional Planning, Hall of Records, Room 1348, 320 West Temple Street, Los Angeles, California 90012. Selected materials are also available on the Regional Planning website at <http://planning.lacounty.gov/case.htm> and at the following location beginning July 3, 2009:

In addition to the information required in the application, the applicant shall substantiate to the satisfaction of the Zoning Board and/or Commission, the following facts:

- A. That the requested use at the location proposed will not:
 - 1. Adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, or
 - 2. Be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, or
 - 3. Jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare.

See attached Exhibit 1- Burden of Proof. _____

- B. That the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in this Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.

The proposed site is adequate in size and shape to accomodate this wireless facility. The monocypress adequately conceals proposed antennas, and the rear yard is sufficiently large to hold the equipment. No parking will be impacted. The equipment is being placed in an area which is unused/underutilized.

- C. That the proposed site is adequately served:
 - 1. By highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and
 - 2. By other public or private service facilities as are required

The Facility is unmanned and only requires periodic maintenance, which equates to approximately one trip per month by a technician. The traffic generated by the proposed use is minimal so will not impose an undue burden upon streets and highways. Existing parking will not be affected and there will be no undue burden upon streets and highways in the area.

Exhibit 1- Burden Of Proof- Sprint-Nextel

A. Health/Welfare/Property Values

- The facility will not endanger public safety or health. The facility will meet all federal guidelines for RF emissions. Cellular technology does not interfere with any other forms of electronic communication, public or private. The facility will thus should not interfere with existing public safety communications systems. To the contrary, many public safety agencies (police, fire etc) rely on their cellphones in the event of emergencies.
- The proposed design utilizes hidden antennas, and is architecturally integrated into the existing building. The facility is designed in the least obtrusive manner possible, and is separated from areas of public access. The proposed use matches the character and General Plan development guidelines for this zone and this area in that the monocypress blends in with the rural nature of the area and the equipment enclosure matches the aesthetic character of the area and are in keeping with the intended aesthetic goals for future development. The proposed use blends well with the existing architecture so the public will not be able to recognize the facility as a wireless site.
- No nuisances will be created by the proposed installation. The equipment associated with the Facility operates quietly. The equipment does not emit fumes, smoke, or odors that could be considered objectionable. The proposed site will in no way pose a menace to public health, safety or welfare.

ENVIRONMENTAL FINDING

FINAL DETERMINATION: On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

MITIGATED NEGATIVE DECLARATION, in as much as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

ENVIRONMENTAL IMPACT REPORT*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant".

At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The Addendum EIR is required to analyze only the factors changed or not previously addressed.

MANDATORY FINDINGS OF SIGNIFICANCE

Based on this Initial Study, the following findings are made:

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
<hr/>				
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project have possible environmental effects that are individually limited but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
<hr/>				
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the environmental effects of the project cause substantial adverse effects on human beings, either directly or indirectly?

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the environment?
