**\* SUPPLEMENTAL INFORMATION \***

The above referenced project is a proposal for an alternating current (AC) photovoltaic (PV) generating facility located on approximately 4,782 acres in Kern and Los Angeles Counties near the intersection of 115th Street West Avenue B. The proposed facility is anticipated to generate approximately 650 megawatts (MW) of power.

At this time the County agencies have had insufficient time for necessary reviews. Therefore, staff recommends continuing this matter to a date certain to allow for thorough review and drafting of conditions.

**Suggested motion:**

I move that the Regional Planning Commission continue Project No. R2010-00808-(5) to a date certain.
