ENTITLEMENTS REQUESTED

- Project was continued from the January 15, 2013 Regional Planning Commission agenda to allow the applicant additional time to meet the 30 day posting requirement.
- Conditional Use Permit (CUP) for the continued operation and maintenance of a co-located roof mounted wireless telecommunications facility (WTF) in the Marina Del Rey, Specific Plan Zone, Visitor-Serving/Convenience Commercial. A wireless telecommunications facility is not a specified use in the Zoning code, however they are deemed similar to radio and television towers and therefore are subject to a conditional use permit.

PROJECT DESCRIPTION

The applicant, Sprint PCS, requests approval of a CUP for the continued operation and maintenance of an existing unmanned WTF, consisting of six façade mounted panel antennas and two equipment cabinets within a 270 square foot lease area. Changes to the existing facility include removing six panel antennas and replacing with three new panel antennas. One additional equipment cabinet and panel antennas exist within the lease area, permitted under separate permit (Clearwire).

EXISTING ZONING

The subject property is zoned Specific Plan, Visitor-Serving/Convenience Commercial, in the Playa del Rey Zoned District.

Surrounding properties are zoned as follows:

North: City of Los Angeles
South: Parking
East: Office
West: Parking

EXISTING LAND USES

The subject property is developed with an urgent care medical facility.

Surrounding properties are developed as follows:

North: Commercial shopping center (City of Los Angeles)
South: Public parking lot
East: Commercial shopping center
West: Public parking lot

PREVIOUS CASES/ZONING HISTORY

- PP16520 - Request to establish two office buildings totaling 14,837 square feet of floor area was approved in 1968. An addition of 18,680 for medical offices was subsequently approved in 1972.
- CUP 00-125 - Allowed for the construction, operation and maintenance of an unmanned wireless telecommunications facility mounted on the rooftop of an

existing medical office building (Sprint). Approved on May 15, 2001 and expired on May 15, 2011.

- RCUP200400024 - Allowed for the installation, operation and maintenance of a co-located wireless telecommunications facility (Cingular now known as Clearwire).

ENVIRONMENTAL DETERMINATION

Los Angeles County ("County") Staff recommends that this project qualifies for a Categorical Exemption (Class 1 Exemption, Existing Facilities) under the California Environmental Quality Act (CEQA) and the County environmental guidelines. The project is only providing a minor alteration to the existing facility and does not expand the use. Therefore, staff recommends that the Hearing Officer determine that the project is categorically exempt from CEQA.

STAFF EVALUATION

General Plan/Community Plan Consistency

The project site is located within the Marina del Rey Local Coastal Program. The project site is designated as Visitor-Serving/Convenience Commercial, which is intended as a service-oriented category providing dining facilities, retail sales, and personal services for visitors, residents and employees of Marina del Rey. The existing medical office building is consistent with a convenience commercial use and is therefore consistent with the permitted uses of the underlying land use category.

The project is not considered "development in the coastal zone, as it is proposed on the roof of an existing building and would not affect public access or recreation and therefore there are no relevant policies in the LCP that apply to the project.

Zoning Ordinance and Development Standards Compliance

Pursuant to Section of the County Code, establishments in the Visitor-Serving/Convenience Commercial Zone are subject to the following development standards:

- Building height is limited to a maximum of 45 feet;
- Front, rear and side yard setbacks shall be a minimum of 10 feet in addition to the required highway setback. View corridors, public open space areas and/or accessways or emergency accessways required in this Specific Plan may be designed and integrated with the required front, side and rear yard setbacks or located elsewhere on the property if such design will enhance visual and physical access to the shoreline;
- Visitor-Serving/Convenience Commercial uses shall not reduce the amount of land area devoted to existing visitor-serving, boating, or coastal-dependent marine commercial uses, and visitor-serving uses may be integrated vertically with recreational boating uses where possible:

The development standards for this zone are not applicable as the WTF is located on the rooftop of an existing building.

Neighborhood Impact/Land Use Compatibility

The project site is surrounded by a mixture of commercial uses. The proposed project should not have an adverse visual impact on the surrounding neighborhood because all of the telecommunications equipment will be concealed within existing equipment cabinets painted to match existing structure.

The minor modification to the rooftop wireless facility does not constitute "development" in the coastal zone; therefore, a Coastal Development Permit is not required.

Burden of Proof

The applicant is required to substantiate all facts identified by Section(s) 22.56.040 of the County Code. The Burden of Proof with applicant's responses is attached. Staff is of the opinion that the applicant has met the burden of proof.

COUNTY DEPARTMENT COMMENTS AND RECOMMENDATIONS

Staff has not received any comments at this time

LEGAL NOTIFICATION AND PUBLIC OUTREACH

Pursuant to the provisions of Sections 22.60.174 and 22.60.175 of the County Code, the community was appropriately notified of the public hearing by mail, newspaper, property posting, library posting and DRP website posting.

PUBLIC COMMENTS

Staff has not received any comments at this time.
