

Los Angeles County
Department of Regional Planning

Planning for the Challenges Ahead

Richard J. Bruckner
Director

May 5, 2015

**REGARDING: PROJECT NO. R2014-00867-(5)
CONDITIONAL USE PERMIT NO. 201400036
444 RAMONA AVENUE, LA VERNE (APN: 8391-013-048)**

Hearing Officer Bruce Durbin, by his action of May 05, 2015, has **APPROVED** the above-referenced project. Enclosed are the Hearing Officer's Findings and Conditions of Approval. Please carefully review each condition. This approval is not effective until the appeal period has ended and the required documents and applicable fees are submitted to the Regional Planning Department (see enclosed Affidavit of Acceptance Instructions).

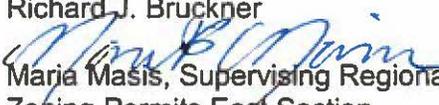

The applicant or any other interested persons may appeal the Hearing Officer's decision. The appeal period for this project will end at 5:00 p.m. on **May 19, 2015. Appeals must be delivered in person.**

Appeals: To file an appeal, please contact:
Regional Planning Commission, Attn: Commission Secretary
Room 1350, Hall of Records
320 West Temple Street, Los Angeles, CA 90012
(213) 974-6409

Upon completion of the appeal period, the notarized Affidavit of Acceptance and any applicable fees must be submitted to the planner assigned to your case. In addition, any applicable CEQA fees for the Department of Fish and Wildlife shall be paid, and a Notice of Determination, if applicable, must be filed with the County Clerk according to the instructions with the enclosed Affidavit of Acceptance. Please make an appointment to ensure that processing will be completed in a timely manner. Failure to submit these documents and applicable fees within 60 days will result in a referral to Zoning Enforcement for further action.

For questions or for additional information, please contact Jeantine Nazar of the Zoning Permits East Section at (213) 974-6435, or by email at jnazar@planning.lacounty.gov. Our office hours are Monday through Thursday, 7:30 a.m. to 5:30 p.m. We are closed on Fridays.

Sincerely,
DEPARTMENT OF REGIONAL PLANNING
Richard J. Bruckner

Maria Masis, Supervising Regional Planner
Zoning Permits East Section

**FINAL FINDINGS OF THE HEARING OFFICER
AND ORDER
COUNTY OF LOS ANGELES
PROJECT NO. R2014-000867 -(5)
CONDITIONAL USE PERMIT NO. 201400036**

1. The Los Angeles County ("County") Hearing Officer conducted a duly-noticed public hearing in the matter of Conditional Use Permit No. 201400036 ("CUP") on May 5, 2015.
2. The permittee, Verizon Wireless ("permittee"), requests the Project Permit to authorize the construction, operation, and maintenance of a 45-foot wireless telecommunications facility disguised as a monopine with the associated equipment ("Project") on a property located at 444 Ramona Avenue within the unincorporated community of La Verne ("Project Site") in the R-A-7,500 (Residential Agricultural – Minimum Lot Size 7,500 Square Feet) Zone pursuant to Los Angeles County Code ("County Code") Section 22.20.420.
3. The Project Site consists of two separate lease areas of 400 square feet and 480 square feet totaling 880 square feet located on the north and east sides of a single legal lot of 2.5 acres. The Project Site is irregular in shape with flat topography and is developed with a church and two preschools.
4. The Project Site is located in the San Dimas Zoned District and is currently zoned R-A-7,500.
5. The Project Site is located within the Low Density Residential land use category of the Countywide General Plan Land Use Policy Map.
6. Surrounding Zoning within a 500-foot radius include:
 - North: R-A-7,500
 - South: City of La Verne
 - East: R-A-7,500
 - West: R-A-7,500
7. Surrounding land uses within a 500-foot radius include:
 - North: Single-Family Residences
 - South: Single-Family Residences
 - East: Single-Family Residences
 - West: Single-Family Residences
8. Previous Cases/Zoning History
CUP 62 established a church use at this location and expired on April 11, 1982.
CUP 94-081 authorized the continued operation of an existing church and two pre-school facilities and expired on September 18, 2007.

CUP201200027 authorized the continued operation of an existing church and two preschool facilities and will expire on October 16, 2042.

9. The site plan for the Project depicts two separate lease areas: The monopine 45 feet in height is located within a 400-square-foot (20'x20') lease area on the east side and includes twelve panel antennas, twelve tower mounted amplifiers (TMAs) mounted behind the antennas painted to match branches, and six remote radio units (RRU), GPS antennas, microwave dish and RAYCAPS. The equipment cabinets are located in a 480-square-foot (20'x24') lease area on a concrete pad enclosed within an 8'-8" CMU wall. The equipment shelter includes equipment cabinets and a generator.
10. The Project Site is accessible via Juanita Avenue to the south through two separate driveways for ingress and egress.
11. Section 22.52.1220 of the County Code determines parking requirements for uses that are not specified and requires that parking shall be provided in an amount which the director finds adequate to prevent traffic congestion and excessive on-street parking. The proposed WTF will be unmanned and will require periodic maintenance visits, typically once a month. The existing church/preschool parking will accommodate the required parking space for maintenance vehicles.
12. The County Department of Public Health ("Public Health") recommends approval of the Project with recommended conditions pertaining to construction and operational noise impacts of the generator, conditions that are included in the Project's conditions.
13. Prior to the Hearing Officer's public hearing on the Project, Regional Planning staff determined that the Project qualified for a Class 3 Exemption,- New Construction or Conversion of Small Structures, under the California Environmental Quality Act (Public Resources Code Section 21000, et seq.) ("CEQA"), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines for the County, because the Project involved the construction, operation, and maintenance a WTF disguised as a monopine, which would include heavy branching and antenna socks to screen the facility from public view. The project will not have a substantial impact on the surrounding environment. The proposed monopine is similar to other pine trees of similar height on the subject property and in the neighborhood and is compatible with the surrounding area and essentially be unnoticeable to casual observer. Staff requested that the monopine trunk be colored brown to be similar to other tree trunks in the vicinity and that the applicant provides antenna pine sucks to minimize visual impacts. The equipment lease area is enclosed within a CMU wall and does not have a negative impact.
14. The Federal Communications Commission (FCC) sets standards for safe human exposure to non-ionizing electromagnetic radiation. The conditions of approval require written verification that the proposed facility's radio-frequency radiation and electromagnetic field emissions will fall within the adopted FCC standards for safe human exposure to such forms of non-ionizing electromagnetic radiation when

operating at full strength and capacity for the lifetime of this conditional use permit. The applicant has provided a statement of compliance with FCC/FAA.

15. Pursuant to the 1996 Telecommunications Act, local jurisdictions are preempted from considering radio frequency emissions, when regulating WTFs, as long as such facilities comply with FCC regulations.
16. Prior to the Commission's public hearing, the Department of Regional Planning ("Regional Planning") staff not received any comments in favor or against this project.
17. A duly noticed public hearing was held on May 5, 2015 before the Hearing Officer. The applicant's representative, Ross Miletich, presented testimony in favor of the request and stated that the subject site was the most suitable site in the area. The applicant also confirmed FCC compliance, and camouflaging the monopine. The opposition brought concerns regarding the aesthetics, health concerns, and property values. The Hearing Officer brought concerns about the maintenance of the monopine, and indicated that the applicant shall comply with Condition Number 17 and maintain the monopine throughout the life of this permit. The Hearing Officer requested to include a condition requesting to remove all banners on the property as well as a PVC frame structure, which may be used to display banners on the site. There being no further testimony, the Hearing Officer closed the public hearing and requested to include the recommended changes agreed by the applicant and recommended approval.
18. The Hearing Officer finds that the existing wireless facility will improve communication network for the residents and the church staff in the area by providing enhanced service networks. Therefore, the Project is consistent with the permitted uses of the underlying land use category.
19. The Hearing Officer finds that the project is compliant with the department WTF standards for height, which requires that the ground mounted facility not to exceed a maximum height of 75 feet. The proposed monopine is 45 feet high.
20. The Hearing Officer finds that the project is compliant with the department WTF standards for design. Wireless facilities are required to camouflage the antennas to minimize visual impacts and to provide appropriate screening. The proposed WTF is on an monopine structure and the antennas will be camouflaged with pine fronds. The lease area is enclosed by a 8'-8" high CMU wall.
21. The Hearing Officer finds that the existing church/preschool parking lot will satisfy the parking requirement for the wireless telecommunications facility.
22. The Hearing Officer finds that the subject property displays banners.
23. The proposed WTF is consistent with the General Plan policy by providing high quality emergency response service and assist the local residents, church and school staff in emergency situations. Therefore, the Hearing Officer finds that the

proposed use with the attached conditions will be consistent with the adopted Countywide General Plan.

24. The project provides important telecommunications infrastructure to the community, and uses camouflage techniques to minimize visual impacts to the site. Therefore, the Hearing Officer finds that the proposed use at the site will not have a substantial impact on the surrounding environment and will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, will not be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, and will not jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare.
25. The Hearing Officer finds that the Project is compliant with the Department's development guidelines for wireless facilities related to height and design. Therefore, the Hearing Officer finds that the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.
26. The access to the site is from Juanita Avenue, a major thoroughfare, 60 feet wide. The WTF does not generate traffic expect for monthly maintenance or repair visits. Therefore, the Hearing Officer finds that the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.
27. The Hearing Officer finds that to ensure continued compatibility between the Project and the surrounding land uses, it is necessary to limit the conditional use permit to 15 years.
28. The Hearing Officer finds that pursuant to sections 22.60.174 and 22.60.175 of the County Code, the community was properly notified of the public hearing by mail, newspaper, and property posting. Additionally, the Project was noticed and case materials were available on Regional Planning's website and at libraries located in the vicinity of La Verne community. On March 19, 2015 a total of 143 Notices of Public Hearing were mailed to all property owners as identified on the County Assessor's record within a 1,000-foot radius from the Project Site, as well as five notices to those on the courtesy mailing list for the San Dimas Zoned District and to any additional interested parties.
29. The location of the documents and other materials constituting the record of proceedings upon which the Hearing Officer's decision is based in this matter is at the Los Angeles County Department of Regional Planning, 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Section Head of the Zoning Permits East Section, Department of Regional Planning.

BASED ON THE FOREGOING, THE HEARING OFFICER CONCLUDES THAT:

- A. The proposed use with the attached conditions will be consistent with the adopted General Plan.
- B. The proposed use at the site will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, will not be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, and will not jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare.
- C. The proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in this Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.
- D. The proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.

THEREFORE, THE HEARING OFFICER:

- 1. Finds that the Project is exempt from the California Environmental Quality Act pursuant to section 15301 of the State CEQA Guidelines (Class 3, New Construction or Conversion of Small Structures categorical exemption); and
- 2. Approves Conditional Use Permit Number 201400036, subject to the attached conditions.

**FINAL CONDITIONS OF APPROVAL
COUNTY OF LOS ANGELES
PROJECT NO. R2014-00867-(5)
CONDITIONAL USE PERMIT NO. 200600233
PARKING PERMIT CASE NO. 201400001**

PROJECT DESCRIPTION

The project is a request for a conditional use permit to authorize the construction, operation and maintenance of a wireless telecommunications facility (WTF) in the R-A-7,500 (Residential Agricultural – 7,500 square feet minimum lot size) subject to the following conditions of approval:

GENERAL CONDITIONS

1. Unless otherwise apparent from the context, the term "permittee" shall include the applicant, owner of the property, and any other person, corporation, or other entity making use of this grant.
2. This grant shall not be effective for any purpose until the permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Los Angeles County ("County") Department of Regional Planning ("Regional Planning") their affidavit stating that they are aware of and agree to accept all of the conditions of this grant, and that the conditions of the grant have been recorded as required by Condition No. 7, and until all required monies have been paid pursuant to Condition No. 10. Notwithstanding the foregoing, this Condition No. 2 and Condition Nos. 4, 5, and 9 and shall be effective immediately upon the date of final approval of this grant by the County.
3. Unless otherwise apparent from the context, the term "date of final approval" shall mean the date the County's action becomes effective pursuant to Section 22.60.260 of the County Code.
4. The permittee shall defend, indemnify, and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void, or annul this permit approval, which action is brought within the applicable time period of Government Code Section 65009 or any other applicable limitations period. The County shall promptly notify the permittee of any claim, action, or proceeding and the County shall reasonably cooperate in the defense. If the County fails to promptly notify the permittee of any claim, action, or proceeding, or if the County fails to cooperate reasonably in the defense, the permittee shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
5. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within ten days of the filing make an initial deposit with Regional Planning in the amount of up to \$5,000.00, from which actual costs and expenses shall be billed and deducted for the purpose of defraying the costs or expenses involved in Regional Planning's cooperation in the defense,

including but not limited to, depositions, testimony, and other assistance provided to permittee or permittee's counsel.

If during the litigation process, actual costs or expenses incurred reach 80 percent of the amount on deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of \$5,000.00. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.

At the sole discretion of the permittee, the amount of an initial or any supplemental deposit may exceed the minimum amounts defined herein. Additionally, the cost for collection and duplication of records and other related documents shall be paid by the permittee according to County Code Section 2.170.010.

6. If any material provision of this grant is held or declared to be invalid by a court of competent jurisdiction, the permit shall be void and the privileges granted hereunder shall lapse.
7. Prior to the use of this grant, the permittee, or the owner of the subject property if other than the permittee, shall **record the terms and conditions** of the grant in the office of the County Registrar-Recorder/County Clerk ("Recorder"). In addition, upon any transfer or lease of the property during the term of this grant, the permittee, or the owner of the subject property if other than the permittee, shall promptly provide a copy of the grant and its conditions to the transferee or lessee of the subject property.
8. **This grant shall terminate on May 5, 2030.** Entitlement to use of the property thereafter shall be subject to the regulations then in effect. If the permittee intends to continue operations after such date, whether or not the permittee proposes any modifications to the use at that time, the permittee shall file a new Conditional Use Permit application with Regional Planning, or shall otherwise comply with the applicable requirements at that time. Such application shall be filed at least six (6) months prior to the expiration date of this grant and shall be accompanied by the required fee. In the event that the permittee seeks to discontinue or otherwise change the use, notice is hereby given that the use of such property may require additional or different permits and would be subject to the then-applicable regulations.
9. This grant shall expire unless used within two (2) years from the date of final approval of the grant. A single one-year time extension may be requested in writing and with the payment of the applicable fee prior to such expiration date.
10. The subject property shall be maintained and operated in full compliance with the conditions of this grant and any law, statute, ordinance, or other regulation applicable to any development or activity on the subject property. Failure of the permittee to cease any development or activity not in full compliance shall be a violation of these conditions. Inspections shall be made to ensure compliance with the conditions of this grant as well as to ensure that any development undertaken on the subject property is in accordance with the approved site plan on file. The

permittee shall deposit with the County the sum of \$1,600.00. The deposit shall be placed in a performance fund, which shall be used exclusively to compensate Regional Planning for all expenses incurred while inspecting the premises to determine the permittee's compliance with the conditions of approval. The fund provides for Eight (8) biennial (one every other year) inspections. Inspections shall be unannounced.

If additional inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the subject property is being used in violation of any one of the conditions of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all additional enforcement efforts necessary to bring the subject property into compliance. The amount charged for additional inspections shall be \$200.00 per inspection, or the current recovery cost at the time any additional inspections are required, whichever is greater.

11. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission ("Commission") or a Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if the Commission or Hearing Officer finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public's health or safety or so as to be a nuisance, or as otherwise authorized pursuant to Chapter 22.56, Part 13 of the County Code.
12. All development pursuant to this grant must be kept in full compliance with the County Fire Code to the satisfaction of said department.
13. All development pursuant to this grant shall conform with the requirements of the County Department of Public Works to the satisfaction of said department.
14. All development pursuant to this grant shall comply with the requirements of Title 22 of the County Code and of the specific zoning of the subject property, unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Regional Planning ("Director").
15. The permittee shall maintain the subject property in a neat and orderly fashion. The permittee shall maintain free of litter all areas of the premises over which the permittee has control.
16. All structures, walls and fences open to public view shall remain free of graffiti or other extraneous markings, drawings, or signage that was not approved by Regional Planning. These shall include any of the above that do not directly relate to the business being operated on the premises or that do not provide pertinent information about said premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.

In the event of graffiti or other extraneous markings occurring, the permittee shall remove or cover said markings, drawings, or signage within 24 hours of notification of such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible, the color of the adjacent surfaces.

17. The subject property shall be developed and maintained in substantial conformance with the plans marked Exhibit "A." If changes to any of the plans marked Exhibit "A" are required as a result of instruction given at the public hearing, **Three Copies (3) copies** of a modified Exhibit "A" shall be submitted to Regional Planning by **July 5, 2015**.
18. In the event that subsequent revisions to the approved Exhibit "A" are submitted, the permittee shall submit **Three Copies (3) copies** of the proposed plans to the Director for review and approval. All revised plans must substantially conform to the originally approved Exhibit "A". All revised plans must be accompanied by the written authorization of the property owner(s) and applicable fee for such revision.

PERMIT SPECIFIC CONDITIONS

19. The facility shall be operated in accordance with regulations of the State Public Utilities Commission.
20. Upon completion of construction of the facility, the permittee shall provide upon request to the Zoning Enforcement Section of Regional Planning written certification that the radio frequency electromagnetic emissions levels comply with adopted Federal Communications Commission (FCC) limitations for general population/uncontrolled exposure to such emissions when operating at full strength and capacity. If other WTFs are located on the subject property or on adjacent parcels, the aforementioned report shall include the radio frequency electromagnetic emissions of said WTFs.
21. Insofar as is feasible, the permittee shall cooperate with any subsequent applicants for wireless communications facilities in the vicinity with regard to possible co-location. Such subsequent applicants will be subject to the regulations in effect at that time.
22. Any proposed WTF that will be co-locating on the proposed facility will be required to provide upon request the same written verification of emissions and include the cumulative radiation and emissions of all such facilities to the Zoning Enforcement Section of Regional Planning.
23. All structures shall conform to the requirements of the Division of Building and Safety of Public Works or other appropriate agency and obtain an encroachment permit if deemed necessary.
24. If any external lighting is proposed, including security lighting, it shall be on motion sensors, be of low intensity, fully shielded and directed away from any adjacent

residences. Pole mounted lighting is prohibited on the leasehold unless the facility is disguised as a light pole. Antenna lighting is prohibited. Beacon lights are prohibited unless required by the FAA.

25. If the subject property is adjacent to residences, construction and maintenance of the facility shall be limited to the hours of 9:00 AM to 5:00 PM, Monday through Friday. Emergency repairs of the facility may occur at any time.
26. Placement and height of all pole mounted equipment shall be in substantial conformance with that shown on said Exhibit "A". The facility shall be built as depicted in the photo simulations presented at the public hearing.
27. One parking space for maintenance vehicles shall be provided. The space does not have to be dedicated solely to maintenance vehicles. Maintenance vehicles shall not block access to driveways or garages.
28. The maximum height of the facility shall not exceed 45 feet above finished grade line.
29. The permittee shall maintain current contact information with the Zoning Enforcement Section of Regional Planning.
30. The finished surface of the facility shall not be glossy or reflective in nature unless such finish is necessary to blend into existing design features.
31. The facility shall be maintained in good condition and repair, and shall remain free of: general dirt and grease; chipped, faded, peeling or cracked paint; trash, debris, litter, graffiti and other forms of vandalism; cracks, dents, blemishes and discolorations; visible rust or corrosion on any unpainted metal areas. Any damage from any cause shall be repaired by the permittee within 30 days of notice. Weathered, faded or missing parts/materials used to disguise/camouflage the facility shall be maintained and/or replaced by the permittee within 30 days of notice. Provided landscaping shall be maintained at all times and shall be promptly replaced if needed.
32. Upon request, the permittee shall submit annual reports to the Zoning Enforcement Section of Regional Planning to show compliance with the maintenance and removal conditions.
33. The project number, conditional use permit number and lease holder contact information shall be prominently displayed on the facility where it can be easily viewed at or near eye level.
34. The facility shall be secured by fencing, gates and/or locks. All fencing or walls used for screening or securing the facility shall be composed of wood, vinyl, stone, concrete, stucco or wrought iron. Chain links, chain link with slats, barbed and other types of wire fencing are prohibited. If the facility's fences or walls are visible from

- the public right-of-way, landscaping, in a minimum planter width of five feet, shall be provided to screen the fence or wall from the street.
35. Upon termination of this grant or after the construction of this facility, if the facility has ceased to operate; the permittee shall remove such facility and clear the site of all equipment within six months of the cease of operation date. The permittee shall restore the site as nearly as practicable to the condition prior to the installation of the subject facility.
 36. Antennas shall be painted or covered to match their background (branches or trunk). The antennas shall not extend beyond the monotree branches or fronds. There shall be ample branch coverage to hide the antennas from view as effectively as possible. Faux bark cladding shall be provided from the ground to five feet beyond where the faux branches begin; above the faux bark shall be flat non-reflective brown paint to match the bark.
 37. Appurtenant equipment boxes shall be screened or camouflaged.
 38. The name, address and telephone number of the service provider shall be displayed on the subject property.

PROJECT SITE SPECIFIC CONDITIONS

19. This grant shall authorize the construction, operation, and maintenance of a 45-foot WTF disguised as a monopine in the R-A-7,500 Zone:
20. The proposed monopine pole shall be colored brown to match the adjacent trees;
21. The WTF shall match the photo simulations Exhibits and shall include pine socks;
22. The permittee shall obtain clearances from the Fire and Public Health Departments;
23. The noise from the proposed diesel powered emergency generator shall not exceed 60 dBA at the nearest residential property line during non-emergency operations (i.e. generator maintenance run test for less than 15 min).
24. The generator shall not exceed the day time exterior noise standard;
25. The applicant shall remove all banners including the PVC frames. No banners shall be displayed on the subject property at any time;
26. The emergency generator maintenance test run should be restricted to the hours between 9 am- 9pm. The test shall run during the day Monday through Saturdays only. No test shall be run on Sundays;
27. Construction activities shall be limited to the hours of 7am to 7pm. Monday through Saturday. No construction work on Sundays and Holidays shall be done. The

applicant shall adhere to the construction noise requirements contained in the Los Angeles County Noise Control Ordinance, Title 12, Section 12.08 Part 3;

28. The applicant shall adhere to the requirements of the Los Angeles County Noise Control Ordinance, as contained in Chapter 12.08 of the Los Angeles County Code, Title 12.

Public Health Department Letter dated September 19, 2014
