Project No. R2014-00881– Conditional Use Permit No. 201400037 - RPC Meeting: April 6, 2016 - Agenda Item: 6

The above-mentioned item is a request to construct a commercial center in the C-RU-DP (Rural Commercial- Development Program) zone consisting of a 6,000-square-foot retail building, a 3,300-square-foot restaurant with drive-through services, and a 1,600-square-foot accessory storage building.

A revised set of form letters were received subsequent to the hearing package submittal to the Regional Planning Commission. Please find an enclosed example of the form letters that were provided by the applicant's agent in support of the project for the above referenced item. These letters will be posted on the website at: http://planning.lacounty.gov/case/view/r2014-00881/ and a hardcopy is available at: Los Angeles County Department of Regional Planning, Room 1348, Hall of Records, 320 West Temple Street, Los Angeles, California 90012 for review upon request.

Also, please find the following enclosures for your review: a letter from Mr. Paul Zerounian, a response from the Department of Parks and Recreation regarding the trail in question, emails from Ms. Ayer, and a revised recommendation letter from the Acton Town Council.

If you need further information, please contact Kristina Kulczycki at (213) 974-6443 or kkulczycki@planning.lacounty.gov. Department office hours are Monday through Thursday from 7:00 a.m. to 6:00 p.m. The Department is closed on Fridays.

Subject: Primo Burger/Acton Retail Development Proposal

Reference: Project Number Project No. R2014-00881-(5) / CUP # 201400037

Dear Commissioners, Supervisor Antonovich, and Ms. Kulczycki;

The Acton Town Council appreciates the recommendation made by staff from the Department of Regional Planning ("DRP") that the "drive-through" portion of the referenced project not be approved. Nonetheless, and for reasons set forth below, the Acton Town Council opposes the referenced project

THE APPLICANT HAS FAILED TO MEET THE FOLLOWING COMMITMENTS

The traffic study prepared for the project does not analyze or even consider traffic impacts on Antelope Woods adjacent to the High Desert Middle School. This violates the Acton Town Council's Stipulation #1 to which the applicant agreed in October, 2014.

The traffic study is also deficient because it assumes a "specialty retail" traffic profile for the retail portion of the project, even though DRP will not impose any limitations or conditions regarding the "specialty" uses to which the retail space will be put. This assumption significantly underestimates the traffic impacts that will be created by the proposed project and it fails to properly consider the safety of school-aged children walking from the High Desert Middle School to the Acton-Agua Dulce Library.

The traffic study is also deficient because it assumes peak traffic hours (i.e. 7-9 AM) without collecting any data to confirm whether these assumed "peak" traffic hours are indeed "peak" traffic hours.

The traffic study is also deficient because it does not comply with the County's Traffic Impact Analysis standards because it does not include the Traffic Signal Warrant Analysis that is ***required***.

The traffic study is also deficient because it does not consider the cumulative traffic impacts of nearby residential development authorized pursuant to ***recorded*** tract maps. According to the most recent Site Plan filed with DRP, the applicant proposes to construct freeway-oriented signage. This violates the Acton Town Council's Stipulation #2 to which the applicant agreed in October, 2014.

In addition, the signage is backlit, it is not demonstrably shown to be of earthtones, and it occurs on all 4 sides of both proposed buildings. Therefore, it violates the Acton CSD.

The applicant has never provided the name or contact information for the Primo Burger owner. This violates the Acton Town Council's Stipulation #5 to which the applicant agreed in October, 2014.

The project includes a "drive through", which violates stipulations expressed in the ATC letter dated October 22, 2014.

OTHER CONCERNS

Some years before an application was submitted for the proposed project, Supervisor Antonovich dedicated the Darrell Readmond Multi-Use Trail (which extends north from Vasquez Rocks along Agua Dulce Canyon Road, then turns east along Sierra Highway to Crown Valley Road in Acton, then turns south and proceeds to the Acton Park). Although the proposed project is located on the mapped Darrell Readmond trail, staff from the County's Department of Parks and Recreation ("DPR") have concluded (without substantive basis) that the Darrell Readmond Trail is located only on the north side of Sierra Highway, therefore, DRP is not conditioning the proposed project with a trail dedication. Notably, DPR's untoward conclusion does not account for the fact that there are no stop signs or cross walks anywhere on Sierra Highway between Agua Dulce Canyon Road and the proposed project, therefore, it is *impossible* for a pedestrian or equestrian to safely or legally cross to the north side of Sierra Highway to access the Darrell Readmond trail at the location where DPR claims it occurs. This renders the Darrell Readmond trail in the vicinity of the proposed project completely inaccessible. Moreover, the proposed project is conditioned to provide hitching posts, but such posts are useless without a trail to access them. DRP ***must*** condition the proposed project with a trail dedication.

The Acton Town Council is aware that the applicant recently provided DRP with 337 letters of support for the proposed project that were ostensibly signed by "Acton Area Residents". Notably, it appears that at least 110 of them identify addresses that are ***not*** Acton residences, and as such, they should be accorded less weight.

The Staff Report prepared by DRP does not address the configuration and conditional uses imposed on the project that are clearly shown on the "Exhibit A" (see attached) that was adopted when the zone change and –DP designation were approved in 2007. In fact, the approved conditional uses specifically excluded restaurants, cafes, and catering businesses. Section 22.40.030 of the County Code clearly states that any CUP issued pursuant to a DP zoning program must comply with the elements identified in the exhibits that were adopted when the zone change was approved if such exhibits were crucial in determining whether the zone change should be approved. There is no doubt that the "Exhibit A" adopted with the zone change was the ***KEY ELEMENT*** in approving the 2007 zone change, and it was based on "Exhibit A" that the Acton Town Council supported the applicant's zone change request in 2006. Therefore, the proposed project must be modified to be reasonably consistent with the "Exhibit A" adopted in 2007.

The applicant has told the community that the fast food business portion of the proposed project would operate between 6:00 AM and 10:00 PM, however this condition appears nowhere in the DRP staff report. The project must be conditioned to limit the hours of operation from 6:00 AM and 10:00 PM.

CONCLUSIONS

For all these reasons, the Acton Town Council opposes the referenced project. Furthermore, the Acton Town Council respectfully requests that the Regional Planning Commission not issue an approval for ***any portion*** of the proposed project until the concerns enumerated above are addressed and fully mitigated. This letter was authorized by a unanimous vote of the Acton Town Council.

Sincerely;

Subject: Acton Town Council's opposition to Project No. R2014-00881-(5) / CUP # 201400037
Attachments: Primo Burger Letter - all ATC members signatures FINAL.pdf

Categories: Red Category

Dear Commissioners, Supervisor Antonovich, and Ms. Kulczycki;

Attached please find the Acton Town Council's letter opposing the referenced project which sets forth the reasons for such opposition. Several Town Council members plan to attend the hearing tomorrow to re-iterate the community's concerns regarding the project in general, and the substantially deficient traffic study in particular. In the 6 weeks since DRP made the traffic study available to the public, Acton Town Council members have worked diligently to communicate with the Department of Public Works to resolve these traffic study concerns, but other than acknowledging receipt of such communications, DPW has ***NEVER*** responded. Therefore, the Acton Town Council's concerns remain entirely unaddressed. Since DRP's CEQA analysis and its conclusion that this proposed project poses no environmental impacts turns largely on the deficient traffic study, the Acton Town Council challenges DRP's CEQA analysis and conclusions. Additionally, the Acton Town Council challenges staff's conclusion that the project does not require a multi-use trail dedication and further points out that such a conclusion violates the Acton CSD. Therefore, the Acton Town Council respectfully requests that the Commission not approve any portion of the proposed project until the traffic study deficiencies, trail concerns, and other issues enumerated in the attached are addressed and fully mitigated.

Regards

Jacqueline Ayer
Correspondence Secretary for the Acton Town Council

Subject: Re: Traffic study done for the Primo Burger project in Acton

Dear Ms. Thompson and Ms. Kulczycki;

This email is being submitted on behalf of the Acton Town Council

It has been more than 5 weeks since you were notified regarding the errors in the Primo Burger traffic study and its fundamental inconsistency with DRP's analysis of the project. Yet, none of these concerns are reflected in the records compiled for this project, and they have certainly not been addressed by any county staff member. In case it was not clear, here are the issues:

DPW assumed a "specialty retail" traffic profile for the retail space (see page 10) apparently based on the assumption that a "feed store" would be operated in the retail space. HOWEVER, DRP REFUSES to condition the retail space accordingly. THEREFORE, the traffic impact analysis DOES NOT represent the actual project that is being approved.

IN ADDITION, DPW refuses to prepare a Traffic Signal Warrant Analysis that is REQUIRED by the County's own Traffic Impact Analysis Guidelines Document.

These concerns were publicly discussed at length at the Acton Town Council meeting on March 15, and the community was informed that these issues would be properly addressed by county staff. It is disappointing to see that they appear to have been entirely ignored.

Given that the hearing for this project is scheduled for Wednesday, I trust that these issues will be addressed ***forthwith*** and that the record will clearly articulate and properly reflect these concerns

Jacki,

We'll look into the concerns you expressed below regarding the traffic study for the proposed Primo Burger drive thru in Acton, and get back to you.

Thank you.

Subject: Traffic study done for the Primo Burger project in Acton

Dear Ms. Thompson;

I have reviewed portions of the traffic study conducted for the proposed Primo Burger drive thru project in Acton, and have some concerns. First, I noted that the traffic consultant uses a "Specialty Retail" trip generation factor even though the project application does not reflect any "specialty retail" uses. The "Specialty Retail" trip generation factor results in a daily trip projection of only 266, while the standard "Retail" trip generation factor results in a daily trip projection of nearly 1,100. This assumption substantially underpredicts the traffic profile and provides an inaccurate traffic impact assessment. As I understand it, DRP does not intend to condition the project for any "Special Retail" uses, therefore DPW cannot approve a traffic study that assumes a "Specialty Retail" trip generation factor. I spoke with the planner (Ms. Kulczycki) regarding this issue in early February; she was under the impression that the applicant planned to open a feed store. However, I pointed out that (while the original 2006 application was for a feed store) the current application now pending before the county does not include any specific retail businesses at all.

I am also concerned that the traffic study ignores the recorded tract map creating 120+ residential lots on Crown Valley just down the street from the Primo Burger project. I mentioned this to Ms. Kulczycki in early February as well, but do not know if she has raised this issue with you yet.

It also appears that the consultant simply "assumed" that peak AM traffic occurs between 7-9 and peak PM occurs between 4-6 and did not collect any data to confirm this assumption.

Additionally, the applicant made a commitment to the ATC in 2014 that the traffic study prepared for the proposed Primo Burger project would consider the intersection of Antelope Woods and Crown Valley (adjacent to the High Desert Middle School). However, the traffic study for the Primo Burger project that was approved by DPW omitted this crucial intersection.

For these reasons, I urge DPW to rescind its approval of the Primo Burger traffic study and direct the consultant to prepare a proper traffic study that relies on 1) accurate trip generation factors which actually represent the unlimited retail project being considered by the RPC; 2) accurate peak AM and PM traffic conditions that are confirmed by a complete dataset collected over a 24 hour period; 3) a cumulative traffic impact analysis of the 120+ residential lots created by the recorded Casden Tract Map; and 4) properly considers that Antelope Woods/Crown Valley intersection.

Thank you

Jacqueline Ayer
Acton resident

All,

According to the LA County Trails data, the subject adopted proposed trail alignment is on the northern side of the Sierra Hwy. DPR has no authority to require a trail easement on the south side of Sierra Hwy. For questions or concerns pertaining to roadway crossings, please contact Department of Public Works.

Please let me know if I can be of additional assistance.

Thank you,
Olga

Re: Primo Burger and drive-thru business

Dear Ms. Kulczycki,
Per our discussion we have pulled all the transactions from one of our stores for the months of December 2015, January, and February 2016 that has a drive through. The average daily count is 75 cars. This is far less than a national food chain, we do not have the traffic impact of these chains. However for a local business such as ours, 75 orders in a day means a great deal, and is a necessary component to help ensure our success.

Sincerely,

Paul Zerounian

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Restaurant with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Restaurant drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo will bring another high quality option for Acton residents and families.
- Primo is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Subject: New Local Acton Primo Restaurant with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo and lot owner Country Club Feed have designed the drive-through with a 18-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Restaurant will also cater to local Acton customers by NOT having any freeway or freeway-facing signage.
- The Primo Restaurant will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Restaurant with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.

- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.

- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Subject: New Local Acton Primo Burger with Drive-Through for Local Convenience

Reference: Project R2014-00881

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Tay Calvin

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Dear Supervisor Antonovich:

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.

Sincerely:

Tammy Delnero

I support a new Primo Restaurant with a Drive-Through in Acton, because this is the kind of local project that serves local Acton residents and not freeway commuters, and:

- In order to cater to Acton residents, local restaurant Primo Burger and lot owner Country Club Feed have designed the drive-through with a 15-foot wide clearance to accommodate trucks and large vehicles that are common to Acton residents.
- The new Primo Burger will also cater to local Acton customers by NOT having any freeway signage.
- The Primo Burger will also have hitching posts for Acton's vibrant equestrian community.
- The traffic study shows that the project will have NO significant impact on Sierra Highway or surrounding streets.
- Unlike previously proposed projects, the local Primo Burger with drive-through is consistent with the AV ("Town and Country") Plan.
- The project is consistent with the Acton Community Standards District and the County Zoning Code.
- The Primo Burger drive-through is a convenience to the Acton community, especially local Acton workers, parents of children with special needs, and residents with pets.
- Primo Burger will bring another high quality option for Acton residents and families.
- Primo Burger is a family-owned business, starting in 1992, with just five locations throughout the Antelope Valley—and soon a 6th in Acton!

For these and other reasons, I support the location of a new, local Primo Restaurant in Acton, and ask that you approve this project.
