

BCA Notes and Recommendations

The planner and the biologist should use this section to explain why any items might be missing, why the BCA may be deemed complete despite these data gaps, and any recommendations or notes.

Planner Notes and Recommendations:

- The Project Planner visited the site on February 25, 2014 and agrees with the County Biologist recommendations.
- There is uncertainty regarding the location of the public right-of-way (outside of any biologically sensitive areas) and whether certain structures on the project site encroach within the ROW. A site plan based on a survey shall be provided by the applicant showing structure locations in relation to the property lines.

Biologist Notes and Recommendations:

- The County Biologist visited the site on February 25, 2014 and agrees with the findings of the biological report and with the mitigation measures proposed by the applicant's biologist.
- Proposed mitigation measures provided by Envicom Corp. in its letter to the applicant, dated July 3, 2014, are recommended for inclusion as mitigation measures for the project MND.
