June 1, 2017

TO: Lynda Hikichi, Senior Regional Planning Assistant  
Land Divisions
FROM: Gina M. Natoli, Hearing Officer

REQUEST FOR INFORMATION FOR AGENDA ITEM 8, PROJECT 99239-(5), OTP RPPL 2017005567

Oak Tree Permit RPPL 2017005567 is scheduled for hearing on June 6, 2017. After reviewing the Hearing Officer Package I have the following questions concerning the proposed project. Please be prepared at the hearing to answer the questions. In addition, I ask that you forward these questions to the applicant/owner and ensure this memo is posted on the public website for the item. It is possible that information presented at the hearing may prompt additional questions.

1. Text in various places of the Hearing Officer packet states 22 oak trees have already been removed, but the Staff Analysis and Carlberg Associates letter of 10 January 2017 state 55 oak trees have been removed. Please confirm the actual number of oaks already removed.

2. Does the current oak tree permit (OTP 2016003378) ("2016 permit") or EIR mitigation measures require protective fencing be installed around all remaining trees, including trees to be encroached upon, prior to work beginning?

3. Does the 2016 permit or EIR mitigation measures require an onsite monitor be present during all oak tree removal or site preparation activities?

4. Would the Mountains Recreation and Conservation Authority be open to accepting additional mitigation trees for Browns Canyon?

Thank you for looking into these questions.
