**SUBJECT: VESTING TENTATIVE TRACT MAP NO. 063296
GENERAL PLAN AMENDMENT CASE NO. 2005-00009-(2)
ZONE CHANGE CASE NO. 2005-00014-(2)
CONDITIONAL USE PERMIT CASE NO. 2005-00152-(2)**

The subject project is scheduled for a public hearing before the Regional Planning Commission of Los Angeles County on November 7, 2007.

Please have the materials listed below available to the public through November 24, 2007.

If you have any questions regarding this matter, please contact Mr. Jodie Sackett of the Land Divisions Section of the Department of Regional Planning at (213) 974-6433.

Thank you.

VESTING TENTATIVE TRACT MAP NO. 063296-(2)
GENERAL PLAN AMENDMENT NO. 2005-00009-(2)
ZONE CHANGE NO. 2005-00014-(2)
CONDITIONAL USE PERMIT NO. 2005-00152-(2)**

Notice is hereby given that the Los Angeles County Regional Planning Commission will conduct a public hearing concerning this proposed land development on Wednesday, November 7, 2007, at 9:00 a.m., in Room 150, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. Room 150 will open to the public at 8:50 a.m. Interested persons will be given an opportunity to testify.

Project Location: The property is located at the intersection of 223rd Street and Normandie Avenue, within the unincorporated community of West Carson and in the Carson Zoned District of Los Angeles County.

Project Description: The tract map proposes to create one multi-family lot with 58 attached condominium units in seven buildings on 3.13 gross acres. The associated general plan amendment is a request to change the existing Industrial ("I") and Category 1 (Low Density Residential- One to Six Dwelling Units Per Acre) plan categories to Category 3 (Medium Density Residential- 12-22 Dwelling Units Per Acre). The associated zone change is a request to change the existing M-1 (Light Manufacturing) and A-1 (Light Agricultural- 5,000 Square Foot Minimum Required Lot Area) zoning to R-3-DP (Limited Multiple Residence-Development Program). The associated conditional use permit is for the Development Program zone. The site currently has an existing automobile sales lot, storage areas, and four single-family residences to be demolished/removed.

Environmental Determination: A Mitigated Negative Declaration has been prepared for this project. The draft environmental document concludes that the project design and/or suggested conditions will adequately mitigate these impacts to a level of less than significant/no impact. Notice is hereby given that the County of Los Angeles will consider a recommendation to adopt a Mitigated Negative Declaration.

This project does not affect the zoning of surrounding properties. If you are unable to attend the public hearing but wish to send written comments, please write to the Department of Regional Planning at the address given below, Attention: Mr. Jodie Sackett. You may also obtain additional information concerning this case by phoning Mr. Jodie Sackett at (213) 974-6433. Callers from North County areas may dial (661) 272-0964 (Antelope Valley) or (661) 253-0111 (Santa Clarita) and then ask to be connected to (213) 974-6433. Public service hours: 7:30 a.m. to 6:00 p.m., Monday through Thursday. Our office is closed on Fridays.

If the final decision on this proposal is challenged in court, testimony may be limited to issues raised at the public hearing or by written correspondence delivered to the Regional Planning Commission at or prior to the public hearing.

Case materials are available for inspection during regular working hours at the Department of Regional Planning, Land Divisions Section, Room 1382, Hall of Records, 320 West Temple Street, Los Angeles, California 90012; Telephone (213) 974-6433. Public service hours: 7:00 a.m. to 5:30 p.m., Monday through Thursday. **Our office is closed on Fridays.** These materials will also be available for review beginning October 6, 2007 at the Carson Regional Library located at 151 E. Carson Street, Carson, CA 90745-2797, (310) 830-0901. Selected materials are also available on the Department of Regional Planning website at <http://planning.lacounty.gov>.

ENVIRONMENTAL STATUS
Mitigated Negative Declaration – Impacts reduced to less than significant with project mitigation include: noise, water quality, traffic, fire/sheriff services and environmental safety.

DESCRIPTION OF SITE PLAN
 The proposed Vesting Tentative Tract Map, dated April 24, 2007, proposes to create one multi-family lot with 58 attached condominium units in seven buildings on 3.13 gross acres. The project site is in an "L"-shaped configuration, with seven multi-family buildings dispersed throughout the site. The buildings will be two and three stories in height, and covered resident parking will be provided on the first floor of the buildings. Access to the development will be gated and single-means via 223rd Street. A 26-foot wide private driveway and fire lane system is proposed, with a total of 15 uncovered guest parking spaces adjacent to the private driveways. There is a large circular fire vehicle turnaround at the easterly end of the project site with a radius of 42 feet. A common open space/recreation area is proposed in the middle of the development, totaling approximately 2,828 square feet. The project is proposed to be surrounded by block walls with a height of six feet. The site, currently a total of four residential and two industrial lots, has an existing automobile sales lot, commercial storage areas, four single-family residences and a townhome, all existing structures/uses to be demolished/removed.

- KEY ISSUES**
- The proposed General Plan Amendment, from "Major Industrial"/"Category 1" to Medium Density Residential, will allow a maximum density of 68 dwelling units ("DU"), or 22 DU per acre. The project proposes 58 DU or 18.5 DU per acre.
 - The proposed Zone Change, from A-1/M-1 to R-3-DP, will allow the construction of multi-family buildings/units in an area with existing single and multi-family units/residences.
 - The Conditional Use Permit ("CUP") is for the Development Program ("DP") overlay zone, which is associated with the Zone Change request. Although no setback modifications are proposed with the DP CUP, the CUP will allow the construction of buildings to a maximum height of 44 feet, which is nine feet higher than the 35 feet permitted in the R-3 zone.

(continued on reverse)

COMMITTEE RECOMMENDATION (Subject to revision based on public hearing)

APPROVAL DENIAL

Sewer

Park Dedication "In-Lieu Fee"

ISSUES AND ANALYSIS

- A Homeowner's Association will be created to maintain the common/open space areas.
- Approximately 7,000 cubic yards of grading is proposed, with 5,000 cubic yards to be imported to the project site.
- Public sewer and water is proposed.
- No Oak trees are present on the subject site.
- To date, staff has not received any correspondence regarding the proposed project.

ZONING HISTORY

Ordinance No. 2006-0030Z established the Carson Zoned District on May 2, 2006.

Prepared by Mr. Jodie Sackett

DRAFT CONDITIONS:

1. Conform to the applicable requirements of Title 21 and 22 of the Los Angeles County Code ("County Code"), including the requirements of the R-3-DP (Limited Multiple Residence – Development Program) zone. Also, conform to the requirements of Conditional Use Permit Case No. 2005-00152-(2) and the Mitigation Monitoring Program ("MMP").
2. Recordation of the final map is contingent upon approval of General Plan Amendment Case No. 2005-00009-(2) by the Los Angeles County Board of Supervisors ("Board") and the effectuation of an ordinance changing the zoning of the subject property from A-1 (Light Agricultural- 5,000 Square Foot Minimum Required Lot Area) and M-1 (Light Industrial) to R-3-DP.
3. Label the interior driveway as "Private Driveway and Fire Lane" on the final map.
4. Construct or bond with the Los Angeles County Department of Public Works ("Public Works") for driveway paving in widths as shown on the approved Exhibit Map, dated April 24, 2007, to the satisfaction of the Los Angeles County Department of Regional Planning ("Regional Planning") and the Los Angeles County Fire Department.
5. Submit a copy of the project Covenants, Conditions and Restrictions ("CC&Rs") to Regional Planning for review prior to final map approval.
6. Provide in the CC&Rs a method for the continuous maintenance of the common areas, including the driveway and the lighting system along all walkways, to the satisfaction of Regional Planning.
7. Reserve in the CC&Rs the right for all residents within the condominium project to use the driveway for access and the guest parking spaces throughout the subdivision.
8. The subject property shall be developed and maintained in substantial compliance with the approved Exhibit Map, dated April 24, 2007.
9. Place a note or notes on the final map, to the satisfaction of Regional Planning and Public Works, that this subdivision is approved as a condominium project for a total of 58 residential units whereby the owners of the units of air space will hold an undivided interest in the common areas, which will in turn provide the necessary access, and utility easements for the units.

10. Three copies of a landscape plan which may be incorporated into a revised site plan, shall be submitted and approved by the Planning Director as required by Conditional Use Permit No. 2005-00009-(2).
11. The subdivider or successor in interest shall plant at least 27 trees of a non-invasive species within the multi-family residential lot. The location and the species of said trees shall be incorporated into a site plan or landscape plan. Prior to final map approval, the site/landscaping plan shall be approved by Regional Planning, and a bond shall be posted with Public Works or other verification shall be submitted to the satisfaction of Regional Planning to ensure the planting of the required trees.
12. The period to appeal this project and its environmental determination lasts 10 calendar days beginning on the day after vesting tentative map approval. Within five days of the approval date, remit processing fees of \$1,850.00 payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the California Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested or operative until the fee is paid.
13. Pursuant to Chapter 22.72 of the County Code, the subdivider or his successor in interest shall pay a fee to the Los Angeles County Librarian prior to issuance of any building permit in the amount of \$37,387 and provide proof of payment to Regional Planning.
14. The mitigation measures set forth in the "Project Mitigation Measures Due to Environmental Evaluation" section of the Mitigated Negative Declaration for the project are incorporated by this reference and made conditions of this project. Comply with all such mitigation measures in accordance with the attached MMP. Record a covenant and agreement, and submit a copy to Regional Planning for approval, agreeing to the mitigation measures imposed by the Mitigated Negative Declaration for this project.
15. As a means of ensuring the effectiveness of the mitigation measures, the subdivider shall submit annual mitigation monitoring reports to Regional Planning. The reports shall describe the status of the subdivider's compliance with the required mitigation measures.
16. Within 30 days of the vesting tentative map approval, as provided in the MMP, deposit the sum of \$3,000.00 with Regional Planning in order to defray the cost of reviewing the subdivider's reports and verifying compliance with the information contained in the reports required by the MMP.
17. No grading permit may be issued prior to final map recordation unless otherwise

authorized by the Director of Planning.

18. The subdivider shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this tentative map approval, or related discretionary project approvals, whether legislative or quasi-judicial, which action is brought within the applicable time period of Government Code Section 65499.37 or any applicable limitation period. The County shall promptly notify the subdivider of any claim, action, or proceeding and the County shall cooperate fully in the defense. If the County fails to promptly notify the subdivider of any claim action or proceeding, or if the County fails to cooperate fully in the defense, the subdivider shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
19. In the event that any claim, action, or proceeding as described above is filed against the County, the subdivider shall within 10 days of the filing pay Regional Planning an initial deposit of \$5,000.00, from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the subdivider or the subdivider's counsel. The subdivider shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
 - a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the subdivider shall deposit additional funds to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation;
 - b. At the sole discretion of the subdivider, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the subdivider according to the County Code Section 2.170.010.

Except as expressly modified hereinabove, this approval is subject to all those conditions set forth in the attached MMP and the attached reports recommended by the Los Angeles County Subdivision Committee, consisting of the Departments of Public Works, Fire, Parks and Recreation, and Public Health.

**DEPARTMENT OF REGIONAL PLANNING
CONDITIONAL USE PERMIT CASE NO. 2005-00152-(2)**

Exhibit Map Date: April 24, 2007

DRAFT CONDITIONS:

1. This grant authorizes the use of the subject property for 58 new single-family attached condominium units, as depicted on the approved exhibit map marked Exhibit "A" (dated April 24, 2007) or an approved revised Exhibit "A", subject to all of the following conditions of approval.
2. This grant shall not be effective for any purpose until the permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Department of Regional Planning ("Regional Planning") their affidavit stating that they are aware of, and agree to accept, all the conditions of this grant and that the conditions have been recorded as required by Condition No. 6, and until all required monies have been paid pursuant to Condition Nos. 7 and 43.
3. Unless otherwise apparent from the context, the term "permittee" shall include the applicant and any other person, corporation, or entity making use of this grant.
4. If any provision of this grant is held or declared to be invalid, the permit shall be void and the privileges granted hereunder shall lapse.
5. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission or Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if it finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public health or safety or so as to be a nuisance.
6. Prior to the use of this grant, the terms and conditions of the grant shall be recorded in the office of the Los Angeles County Recorder. In addition, upon any transfer or lease of the subject property during the term of this grant, the permittee shall promptly provide a copy of the grant and its terms and conditions to the transferee or lessee of the subject property.
7. Within five days from the approval date, the permittee shall remit a \$1,850.00 processing fee payable to the County of Los Angeles ("County") in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested or operative until the fee is paid.

8. The subject property shall be developed and maintained in full compliance with the conditions of this grant, and any law, statute, ordinance or other regulation applicable to any development or activity on the subject property. Failure of the permittee to cease any development or activity not in full compliance shall be a violation of these conditions.
9. If inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the property is being used in violation of any condition of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all inspections and for any enforcement efforts necessary to bring the subject property into compliance. Inspections shall be made to ensure compliance with the conditions of this grant as well as adherence to development in accordance with the approved site plan on file. The amount charged for inspections shall be the amount equal to the recovery cost at the time of payment (currently \$150.00 per inspection).
10. The permittee shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this permit approval, which action is brought within the applicable time period of Government Code Section 65009 or any other applicable limitation period. The County shall notify the permittee of any claim, action or proceeding and the County shall reasonably cooperate in the defense.
11. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within ten days of the filing pay Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the permittee or permittee's counsel. The permittee shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:
 - a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation; and
 - b. At the sole discretion of the permittee, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the permittee in accordance with Los Angeles County Code ("County Code") Section 2.170.010.

12. This grant shall expire unless used within two years after the recordation of a final map for Vesting Tentative Tract Map No. 063296. In the event that Vesting Tentative Tract Map No. 063296 should expire without the recordation of a final map, this grant shall terminate upon the expiration of the tentative map. Entitlement to the use of the property thereafter shall be subject to the regulations then in effect.
13. The subject property shall be graded, developed and maintained in substantial compliance with the approved tentative tract map and the approved exhibit map marked Exhibit "A" (dated April 24, 2007) or an approved revised Exhibit "A".
14. The development of the subject property shall conform to the conditions approved for Vesting Tentative Tract Map No. 063296.
15. All development shall comply with the requirements of the Zoning Ordinance and of the specific zoning of the subject property, except as specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Planning.
16. Pursuant to Section 22.44.137 D.6. of the County Code, no development, grading, construction, or improvements including any walls and/or fences shall be allowed within a 25-foot radius from every point on the crest of the secondary ridgeline located along the southern half of the western property boundary.
17. This grant modifies the heights for the residential structures as shown on the approved Exhibit "A" from the provisions set forth in Section 22.20.300 of the County Code.
 - a. A maximum building height of 44 feet for each of the seven buildings proposed for the development.
18. No grading permit shall be issued prior to the recordation of a final map except as authorized by the Director of Planning.
19. No structure shall exceed a height of 44 feet above grade, except for chimneys and rooftop antennas.
20. A minimum of 131 automobile parking spaces, as depicted on the approved Exhibit "A" (dated April 24, 2007) or on an approved revised Exhibit "A", shall be provided and continuously maintained on the subject property, developed to the specifications listed in Section 22.52.1060 of the County Code. There shall be at least two covered parking spaces designated for each dwelling unit. There shall be at least 15 guest parking spaces distributed throughout the project site as depicted on the approved Exhibit "A" (dated April 24, 2007) or an approved revised Exhibit "A". The required parking spaces shall be continuously available for vehicular parking only and shall not be used for storage, automobile repair, or any other unauthorized use. The permittee shall submit a parking management

plan and provide for continual enforcement of the parking management plan in the Covenants, Conditions, and Restrictions ("CC&Rs") to the satisfaction of Regional Planning.

21. Pursuant to Section 1129B of the State Building Code, one of the 15 guest parking spaces must be an accessible parking space for the disabled. Prior to the issuance of any building permit, the permittee shall submit to the Director of Planning for review and approval three copies of a revised Exhibit "A" showing the required accessible parking space.
22. The permittee shall submit a copy of the project CC&Rs to the Director of Planning for review and approval.
23. All utilities shall be placed underground.
24. All structures shall comply with the requirements of the Division of Building and Safety of the Los Angeles County Department of Public Works ("Building and Safety").
25. Detonation of explosives or any other blasting devices or material shall be prohibited unless all required permits have been obtained and adjacent property owners have been notified.
26. All grading and construction on the subject property and appurtenant activities, including engine warm-up, shall be restricted to Monday through Friday, between 7:00 a.m. and 6:00 p.m., and Saturday, between 8:00 a.m. and 5:00 p.m. No Sunday or holiday operations are permitted.
27. The permittee shall implement a dust control program during grading and construction to the satisfaction of the Director of Planning and the Director of Public Works.
28. The permittee shall, upon commencement of any grading activity allowed by this permit, diligently pursue all grading to completion.
29. No construction equipment or vehicles shall be parked or stored on any existing public or private streets.
30. The permittee shall obtain all necessary permits from the Los Angeles County Department of Public Works ("Public Works") and shall maintain all such permits in full force and effect throughout the life of this permit.
31. All construction and development within the subject property shall comply with the applicable provisions of the Uniform Building Code and the various related mechanical, electrical, plumbing, fire, grading and excavation codes as currently adopted by the County.

32. All structures, walls and fences open to public view shall remain free of extraneous markings, drawings, or signage. These shall include any of the above that do not directly relate to the use of the premises or that do not provide pertinent information about said premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.
33. In the event such extraneous markings occur, the permittee shall remove or cover said markings, drawings, or signage within 24 hours of such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible, the color of the adjacent surfaces.
34. The permittee shall utilize water-saving devices and technology in the construction of this project consistent with Los Angeles County Building and Plumbing Codes.
35. The property shall be developed and maintained in compliance with all applicable requirements of the Los Angeles County Department of Public Health ("Public Health"). Adequate water and sewage facilities shall be provided to the satisfaction of said department.
36. Upon approval of this grant, the permittee shall contact the Fire Prevention Bureau of the Los Angeles County Forester and Fire Warden ("Forester") to determine what facilities may be necessary to protect the property from fire hazard. Any necessary facilities including, but not limited to water mains, fire hydrants, and fire flow facilities, shall be provided to the satisfaction of and within the time periods established by said Department.
37. Prior to the issuance of any grading and/or building permit, a site plan shall be submitted to and approved by the Director of Planning indicating that the proposed construction and/or associated grading complies with the conditions of this grant and the provisions of the County Code.
38. Prior to the issuance of any grading and/or building permit, the permittee shall submit to the Director of Planning for review and approval three copies of a landscape plan. The landscape plan shall show size, type, and location of all plants, trees, and watering facilities. All landscaping shall be maintained in a neat, clean, and healthful condition, including proper pruning, weeding, removal of litter, fertilizing and replacement of plants when necessary. To the maximum extent feasible, drip irrigation systems shall be employed. Also, pursuant to Section 22.44.137 D.5.d. of the County Code, terraced slopes resulting from grading shall be landscaped with locally indigenous vegetation listed on the Castaic Area List of Indigenous Plants (attached).

In addition to the review and approval by the Director of Planning, the landscaping plans will be reviewed by the staff biologist of Regional Planning and by the Los Angeles County Fire Department ("Fire Department"). Their

review will include an evaluation of the balance of structural diversity (e.g. trees, shrubs and groundcover) that could be expected 18 months after planting in compliance with fire safety requirements. The landscaping plan shall be maintained in compliance with the approved landscaping plans.

The landscaping plan must show that at least 50 percent of the area covered by landscaping will be locally indigenous species, including not only trees, but shrubs and ground cover as well. However, if the applicant can prove to the satisfaction of staff that a 50 percent or more locally indigenous species is not possible due to County fire safety requirements, then staff may determine that a lower percentage of such planting is required. In those areas where staff approves a reduction to less than 50 percent locally indigenous vegetation, the amount of such planting required shall be at least 30 percent. The landscaping shall include trees, shrubs and/or ground cover at a mixture and density determined by staff and the fire department. Fire retardant plants shall be given first consideration.

Permitted Plantings. Trees, shrubs and/or ground cover indigenous to the local region shall be used for the required 50 percent landscaping. Fire retardant and locally indigenous plants that may also be used for the required 50 percent such landscaping can be found on a list compiled by the Fire Department. This list may be amended as approved by staff.

Timing of Planting. Prior to the issuance of building permits for any construction the applicant shall submit a landscaping and phasing plan for the landscaping associated with that construction to be approved by the Director of Planning. This phasing plan shall establish the timing and sequencing of the required landscaping, including required plantings within six months and expected growth during the subsequent 18 months.

The planting shall begin at the time of occupancy of each building. The required planting of new trees, shrubs and/or ground cover shall be completed within six months following occupancy.

The approved phasing plan shall set forth goals for the growth of the new plants in order to achieve established landscaping within eighteen months following completion of the required planting. The applicant shall supply information for staff review of the completed landscaping at such time to confirm completion in accordance with the approved landscaping plan. In the event that some plants have not flourished, at the time of review, staff may require replacement planting as necessary to assure completion in accordance with such plan.

39. Pursuant to Section 22.44.137 D.5.c. of the County Code, terraced drains required in cut-and-fill slopes shall be paved with colored concrete to blend with the natural soil or shall be concealed with berms. Prior to grading permit issuance, the permittee shall submit to the Director of Planning for review and approval three copies of a revised Exhibit "A" depicting compliance.

40. The following development program conditions shall apply:
- a. No building or structure of any kind except a temporary structure used only in the developing of the property according to the development program shall be built, erected, or moved onto any part of the property.
 - b. No existing building or structure which under the program is to be demolished shall be used.
 - c. No existing building or structure which, under the program, is to be altered shall be used until such building or structure has been so altered.
 - d. All improvements shall be completed prior to the occupancy of any structures within each phase of development to the satisfaction of the Director of Planning.
 - e. Where one or more buildings in the projected development are designated as primary buildings, building permits for structures other than those so designated shall not be issued until the foundations have been constructed for such primary building or buildings.
41. The mitigation measures set forth in the "Project Mitigation Measures Due to Environmental Evaluation" section of the Mitigated Negative Declaration for the project are incorporated herein by this reference and made conditions of this grant. The permittee shall comply with all mitigation measures in accordance with the attached Mitigation Monitoring Program ("MMP"). After completion of the appeal period, record a covenant and agreement, and submit a copy to Regional Planning for approval, agreeing to the mitigation measures imposed by the Mitigated Negative Declaration for this project. As a means of ensuring the effectiveness of the mitigation measures, the permittee shall submit annual mitigation monitoring reports to Regional Planning for approval. The reports shall describe the status of the permittee's compliance with the required mitigation measures.
42. Deposit the sum of \$3,000.00 with Regional Planning in order to defray the cost of reviewing the subdivider's reports and verifying compliance with the information contained in the reports required by the MMP. The permittee shall retain the services of a qualified Environmental/Mitigation Monitoring Consultant, subject to the approval of the Director of Planning, to ensure that all applicable mitigation measures are implemented and reported in the required Mitigations Monitoring Reports.

COUNTY OF LOS ANGELES

LAND DEVELOPMENT DIVISION – SUBDIVISION
TRACT NO. 063296 (Rev.)

Page 1/3

TENTATIVE MAP DATED 04-24-2007
EXHIBIT MAP DATED 04-24-2007

The following reports consisting of 14 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

6. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.
7. Prior to final approval of the tract map submit a notarized affidavit to the Director of Public Works, signed by all owners of record at the time of filing of the map with the Registrar-Recorder/County Clerk's Office, stating that any proposed condominium building has not been constructed or that all buildings have not been occupied or rented and that said building will not be occupied or rented until after the filing of the map with the Registrar-Recorder/County Clerk's Office.
8. Place standard condominium notes on the final map to the satisfaction of Public Works.
9. Label driveways and multiple access strips as "Private Driveway and Fire Lane" and delineate on the final map to the satisfaction of Public Works.
10. Reserve reciprocal easements for drainage, ingress/egress, sewer, water, utilities, and maintenance purposes, etc., in documents over the private driveways to the satisfaction of Public Works.
11. Quitclaim or relocate easements running through proposed structures.
12. Remove existing structures prior to final map approval. Demolition permits are required from the Building and Safety office.
13. A final tract map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office.
14. Prior to submitting the tract map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.
15. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office.

16. Within 30 days of the approval date of this land use entitlement or at the time of first plan check submittal, the applicant shall deposit the sum of \$2,000 (Minor Land Divisions) or \$5,000 (Major Land Divisions) with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances. This deposit will cover the actual cost of reviewing conditions of approval for Conditional Use Permits, Tentative Tract and Parcel Maps, Vesting Tentative Tract and Parcel Maps, Oak Tree Permits, Specific Plans, General Plan Amendments, Zone Changes, CEQA Mitigation Monitoring Programs and Regulatory Permits from State and Federal Agencies (Fish and Game, USF&W, Army Corps, RWQCB, etc.) as they relate to the various plan check activities and improvement plan designs. In addition, this deposit will be used to conduct site field reviews and attend meetings requested by the applicant and/or his agents for the purpose of resolving technical issues on condition compliance as they relate to improvement plan design, engineering studies, highway alignment studies and tract/parcel map boundary, title and easement issues. When 80% of the deposit is expended, the applicant will be required to provide additional funds to restore the initial deposit. Remaining balances in the deposit account will be refunded upon final map recordation

DRAINAGE AND GRADING UNIT

TRACT NO. 063296

REVISED TENTATIVE MAP DATED 04/24/07
EXHIBIT MAP DATED 04/24/07

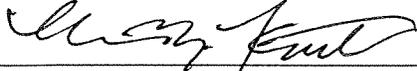

DRAINAGE CONDITIONS

1. Approval of this map pertaining to drainage is recommended.

=====

GRADING CONDITIONS:

1. Comply with the requirements of the drainage concept / Standard Urban Stormwater Mitigation Plan (SUSMP) plan which was conceptually approved on 04/24/06 to the satisfaction of Public Works.
2. A grading plan and soil and geology report must be submitted and approved prior to approval of the final map. The grading plans must show and call out the construction of at least all the drainage devices and details, the paved driveways, the elevation and drainage of all pads, and the SUSMP devices. The applicant is required to show and call out all existing easements on the grading plans and obtain the easement holder approvals prior to the grading plans approval.

P:\Yosh\63296TentTa

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Dedicate the right to restrict vehicular access on Normandie Avenue and 223rd Street. The proposed driveway on Normandie Avenue shall be restricted to "For Emergency Vehicles Only" and the proposed gated entrance shall remain closed at all times except during an emergency.
2. Provide property line return radii of 27 feet plus additional right of way for corner cut off to meet current guidelines of the Americans with Disabilities Act (ADA) at the intersection of Normandie Avenue and 223rd Street to the satisfaction of Public Works.
3. Close any unused driveway with standard curb, gutter, and sidewalk along the property frontage on Normandie Avenue and 223rd Street.
4. Repair any displaced, broken, or damaged curb, gutter, sidewalk, and pavement along the property frontage on Normandie Avenue and 223rd Street.
5. Construct parkway improvements (sidewalk, driveway, landings, etc.) that either serve or form a part of a Pedestrian Access Route to meet current Americans with Disabilities Act (ADA) requirements to the satisfaction of Public Works.
6. If required, re-construct the existing curb return at a radius of 35 feet at the intersection of Normandie Avenue and 223rd Street to provide full-width sidewalk, curb ramp, and standard curb return to the satisfaction of Public Works. Relocate the existing traffic signals as a result of the curb return modification to the satisfaction of Public Works. Prepare detailed 1" = 20' scaled traffic signal plans on Normandie Avenue and 223rd Street to show the relocation of the traffic signals as a result of the curb return modification to the satisfaction of Public Works.
7. Remove or relocate any existing fences/walls along the property frontage that are located within the road right of way on Normandie Avenue and 223rd Street to outside of the right of way to the satisfaction of Public Works.
8. Prior to final map approval, enter into an agreement with the County franchised cable TV operator (if an area is served) to permit the installation of cable in a common utility trench to the satisfaction of Public Works; or provide documentation that steps to provide cable TV to the proposed subdivision have been initiated to the satisfaction of Public Works.

9. Underground all existing service lines and distribution lines that are less than 50 KV and new utility lines to the satisfaction of Public Works and Southern California Edison. Please contact Construction Division at (626) 458-3129 for new location of any above ground utility structure in the parkway.
10. A portion of Normandie Avenue is in the City of Los Angeles jurisdiction. If needed, construct improvements along the property frontage on Normandie Avenue to the satisfaction of the City of Los Angeles.
11. If needed, obtain a construction/encroachment permit for any improvements/works constructed on Normandie Avenue to the satisfaction of the City of Los Angeles.
12. Plant street trees along the property frontage on Normandie Avenue and 223rd Street to the satisfaction of Public Works.
13. Comply with following street lighting requirements:
 - a. Provide street lights on concrete poles with underground wiring along the property frontage on Normandie Avenue and 223rd Street to the satisfaction of Public Works. Submit street lighting plans as soon as possible for review and approval to the Street Lighting Section of the Traffic and Lighting Division. For additional information, please contact the Street Lighting Section at (626) 300-4726.
 - b. The proposed development is within an existing Lighting District. For acceptance of street light transfer of billing, all street lights in the development, or the current phase of the development, must be constructed according to Public Works approved plans. The contractor shall submit one complete set of "as-built" plans. Provided the above conditions are met, all street lights in the development, or the current phase of the development, have been energized, and the developer has requested a transfer of billing at least by January 1 of the previous year, the Lighting District can assume responsibility for the operation and maintenance of the street lights by July 1 of any given year. The transfer of billing could be delayed one or more years if the above conditions are not met.

14. Locate the entry gate or key pad/call box (if one is provided) a minimum of 50 feet beyond the right of way of 223rd Street and construct a turnaround with a minimum turnaround radius of 32 feet in the private driveway and firelane/on Private Drive "A" preceding the gated entrance to the satisfaction of Public Works. Setback the raised median nose in the private driveway/on 223rd Street a minimum of 20 feet from 223rd Street right of way to the satisfaction Public Works. The details of the gated access as shown on the tentative map are not necessary approved.
15. Prepare detailed 1" = 40' scaled signing and striping plans on 223rd Street and Normandie Avenue in the vicinity of this project and at the intersection of Vermont Avenue and 223rd Street to the satisfaction of Public Works.
16. Comply with the mitigation measures identified in the attached January 25, 2007 and February 13, 2006 letters from our Traffic and Lighting Division to the satisfaction of Public Works.

Date 05-29-2007

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. The subdivider shall install and dedicate main line sewers and serve each building with a separate house lateral or have approved and bonded sewer plans on file with Public Works.
2. A sewer area study for the proposed subdivision (PC11894AS, dated 11-16-2005) was reviewed and approved. No additional mitigation measures are required. The approved sewer area study shall remain valid for two years after initial approval of the tentative map. After this period of time, an update of the area study shall be submitted by the applicant if determined to be warranted by Public Works.
3. The subdivider shall send a print of the land division map to the County Sanitation District with a request for annexation. The request for annexation must be approved prior to final map approval.
4. Easements are required, subject to review by Public Works to determine the final locations and requirements.

Phone (626) 458-4921

Date 06-04-2007

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. A water system maintained by the water purveyor, with appurtenant facilities to serve all buildings in the land division, must be provided. The system shall include fire hydrants of the type and location (both on-site and off-site) as determined by the Fire Department. The water mains shall be sized to accommodate the total domestic and fire flows.
2. There shall be filed with Public Works a statement from the water purveyor indicating that the water system will be operated by the purveyor, and that under normal conditions, the system will meet the requirements for the land division, and that water service will be provided to each building.
3. Easements shall be granted to the County, appropriate agency or entity for the purpose of ingress, egress, construction and maintenance of all infrastructures constructed for this land division to the satisfaction of Public Works.
4. Submit landscape and irrigation plans for each lot in the land division, with landscape area greater than 2,500 square feet, in accordance with the Water Efficient Landscape Ordinance.

Ms. Francesca S. Bravo
Linscott, Law & Greenspan, Engineers
234 East Colorado Boulevard, Suite 400
Pasadena, CA 91101

Dear Ms. Bravo:

**TENTATIVE TRACT NO. 63296
REVISED TRAFFIC IMPACT STUDY (DECEMBER 1, 2005)
HARBOR GATEWAY AREA**

As requested, we have reviewed the above-mentioned documents. The project is located at the southeast corner of the intersection of Normandie Avenue and West 223rd Street in the unincorporated County of Los Angeles area of Harbor Gateway.

The proposed project includes the construction of 59 single-family residential homes. The project is estimated to generate approximately 398 vehicle trips daily, with approximately 26 and 36 vehicle trips during the a.m. and p.m. peak hours, respectively.

We generally agree with the study that the traffic generated by the project alone will not have a significant impact to any County or County/City roadways or intersections. However, the cumulative traffic generated by the project and other related projects will significantly impact the following County intersection. The project shall contribute its proportionate share of the cost for the following mitigation measure:

FILE COPY

Ms. Francesca S. Bravo
February 13, 2006
Page 2

Vermont Avenue at 223rd Street

South approach: One left-turn lane, two through lanes, and one exclusive right-turn lane instead of one left-turn lane, one through lane, and one shared through-right lane (restripe the existing roadway).

The project's pro-rata share is 11.8 percent.

A detailed signing and striping plan for this improvement shall be prepared and submitted to Traffic and Lighting Division for review and approval.

We also agree with the study that the project will not have a significant impact on any Congestion Management Program monitored intersections, arterial, or freeway segment in the area.

We recommend the City of Los Angeles review this document to determine whether they concur with the study's findings of the potential California Environmental Quality Act impacts within their jurisdictions.

Please submit a 40-foot-scale site plan of the project showing access locations in relationship to adjacent intersections and driveways to Traffic and Lighting Division for review and approval. Please submit the site plan to Mr. Sam Richards of our Land Development Review Section. He may be contacted for questions regarding the site plan submittal at (626) 300-4842.

If you have any further questions regarding the review of this document, please contact Ms. Amanda Ta of our Traffic Studies Section at (626) 300-4766.

Very truly yours,

DONALD L. WOLFE
Director of Public Works

WILLIAM J. WINTER

COUNTY OF LOS ANGELES
FIRE DEPARTMENT

5823 Rickenbacker Road
Commerce, California 90040

RP - Jodie

CONDITIONS OF APPROVAL FOR SUBDIVISION - UNINCORPORATED

Subdivision: TR 63296 Map Date April 24, 2007 - Ex. A

C.U.P. _____ Map Grid 0743C

- FIRE DEPARTMENT HOLD on the tentative map shall remain until verification from the Los Angeles County Fire Dept. Planning Section is received, stating adequacy of service. Contact (323) 881-2404.
- Access shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 902 of the Fire Code, which requires all weather access. All weather access may require paving.
- Fire Department access shall be extended to within 150 feet distance of any exterior portion of all structures.
- Where driveways extend further than 150 feet and are of single access design, turnarounds suitable for fire protection equipment use shall be provided and shown on the final map. Turnarounds shall be designed, constructed and maintained to insure their integrity for Fire Department use. Where topography dictates, turnarounds shall be provided for driveways that extend over 150 feet in length.
- The private driveways shall be indicated on the final map as "Private Driveway and Firelane" with the widths clearly depicted. Driveways shall be maintained in accordance with the Fire Code.
- Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants. All required fire hydrants shall be installed, tested and accepted prior to construction.
- This property is located within the area described by the Fire Department as "Very High Fire Hazard Severity Zone" (formerly Fire Zone 4). A "Fuel Modification Plan" shall be submitted and approved prior to final map clearance. (Contact: Fuel Modification Unit, Fire Station #32, 605 North Angeleno Avenue, Azusa, CA 91702-2904, Phone (626) 969-5205 for details).
- Provide Fire Department or City approved street signs and building access numbers prior to occupancy.
- Additional fire protection systems shall be installed in lieu of suitable access and/or fire protection water.
- The final concept map, which has been submitted to this department for review, has fulfilled the conditions of approval recommended by this department for access only.
- These conditions must be secured by a C.U.P. and/or Covenant and Agreement approved by the County of Los Angeles Fire Department prior to final map clearance.
- The Fire Department has no additional requirements for this division of land.

Comments: Access as shown on the Exhibit Map is adequate. Maintain a minimum vertical clearance of 13'6" under all landscape trees for the required Fire Department access. This map is cleared for Public Hearing.

City Inspector: Juan C. Padilla Date June 1, 2007

COUNTY OF LOS ANGELES
FIRE DEPARTMENT

5823 Rickenbacker Road
Commerce, California 90040

WATER SYSTEM REQUIREMENTS - UNINCORPORATED

Subdivision No. TR 63296 Tentative Map Date April 24, 2007 - Ex. A

Revised Report Yes

The County Forester and Fire Warden is prohibited from setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted. However, water requirements may be necessary at the time of building permit issuance.

The required fire flow for public fire hydrants at this location is 5000 gallons per minute at 20 psi for a duration of 5 hours, over and above maximum daily domestic demand. 3 Hydrant(s) flowing simultaneously may be used to achieve the required fire flow.

The required fire flow for private on-site hydrants is gallons per minute at 20 psi. Each private on-site hydrant must be capable of flowing gallons per minute at 20 psi with two hydrants flowing simultaneously, one of which must be the furthest from the public water source.

Fire hydrant requirements are as follows:

Install 2 public fire hydrant(s). Verify / Upgrade existing public fire hydrant(s).

Install private on-site fire hydrant(s).

All hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, conforming to current AWWA standard C503 or approved equal. All on-site hydrants shall be installed a minimum of 25' feet from a structure or protected by a two (2) hour rated firewall.

Location: As per map on file with the office.

Other location:

All required fire hydrants shall be installed, tested and accepted or bonded for prior to Final Map approval. Vehicular access shall be provided and maintained serviceable throughout construction.

The County of Los Angeles Fire Department is not setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted.

Additional water system requirements will be required when this land is further subdivided and/or during the building permit process.

Hydrants and fire flows are adequate to meet current Fire Department requirements.

Upgrade not necessary, if existing hydrant(s) meet(s) fire flow requirements. Submit original water availability form to our office.

Comments: The required fire flow of 5000 gallons per minute, may be reduced by Fire Prevention Engineering during the architectural plan review process for building permit clearance.

All hydrants shall be installed in conformance with Title 20, County of Los Angeles Government Code and County of Los Angeles Fire Code, or appropriate city regulations. This shall include minimum six-inch diameter mains. Arrangements to meet these requirements must be made with the water purveyor serving the area.

PARK OBLIGATION WORKSHEET

Tentative Map #	63296	DRP Map Date: 04/24/2007	SMC Date: / /	Report Date: 05/30/2007
Park Planning Area #	21	WEST CARSON		Map Type: REV. (REV RECD)

The formula for calculating the acreage obligation and or In-lieu fee is as follows:

(P)people x (0.003) Goal x (U)nits = (X) acres obligation

(X) acres obligation x RLV/Acre = In-Lieu Base Fee

- Where: P = Estimate of number of People per dwelling unit according to the type of dwelling unit as determined by the 2000 U.S. Census*. Assume * people for detached single-family residences; Assume * people for attached single-family (townhouse) residences, two-family residences, and apartment houses containing fewer than five dwelling units; Assume * people for apartment houses containing five or more dwelling units; Assume * people for mobile homes.
- Goal = The subdivision ordinance allows for the goal of 3.0 acres of park land for each 1,000 people generated by the development. This goal is calculated as "0.0030" in the formula.
- U = Total approved number of Dwelling Units.
- X = Local park space obligation expressed in terms of acres.
- RLV/Acre = Representative Land Value per Acre by Park Planning Area.

Total Units = Proposed Units + Exempt Units

	People*	Goal 3.0 Acres / 1000 People	Number of Units	Acre Obligation
Detached S.F. Units	3.23	0.0030	0	0.00
M.F. < 5 Units	2.70	0.0030	4	0.03
M.F. >= 5 Units	2.17	0.0030	54	0.35
Mobile Units	2.00	0.0030	0	0.00
Exempt Units			0	
Total Acre Obligation =				0.38

Park Planning Area = 21 WEST CARSON

Goal	Acre Obligation	RLV / Acre	In-Lieu Base Fee

Tract Map No. 063296

Vicinity: Los Angeles

Tentative Tract Map Date: April 24, 2007 (3rd Revision)

The County of Los Angeles Department of Public Health's approval for **Vesting Tentative Tract Map 063296** is contingent upon the following conditions:

1. Potable water will be supplied by the **California Water Service Company**, a public water system, which guarantees water connection and service to all lots. **Prior to Tentative Map Approval**, a current "will serve" letter from the indicated water company shall be provided to this Department.
2. Sewage disposal will be provided through the public sewer and wastewater treatment facility as proposed.
3. Existing septic systems shall be emptied of effluent and removed or filled with approved materials.

If you have any questions or need additional information, please contact me at (626) 430-5380.

Respectfully,

A handwritten signature in black ink, appearing to read "Becky Valenti". The signature is written over a horizontal line.

MITIGATED NEGATIVE DECLARATION

PROJECT NUMBER: TR063296 / RENVT200500152 / RPAT200500009/ RZCT200500014/
RCUPT200500152

1. DESCRIPTION:

Application for a tentative tract map to construct 58 attached townhomes that will be for sale; a CUP to authorize proposed improvements in Development Program zone; a zone change from M-1 and A-1 to R-3-DP; and a general plan amendment from low density residential and industrial to medium density residential. The proposed townhomes will be two and four-story units (maximum of 44 ft. high) with 131 parking spaces (111 attached garage parking, 5 covered, and 15 guest parking) and a 10,531 s.f. common open space area. Access will be off of 223rd St. into a gated entry and private driveways. There is a secondary access off of Normandie Ave. for emergency vehicles only. Decorative walls and landscaping will be provided along all property street frontages. Approximately 1,000 c.y. of cut, 6,000 c.y. of fill, and 5,000 c.y. of imported material is proposed which will generate approximately 350 truck trips.

2. LOCATION:

1238, 1244, 1248 W. 223rd St. and 22310, 22318, 22320, 22322 Normandie Ave., Torrance

3. PROPONENT:

*Nancy Bush
24248 Crenshaw blvd., Suite 207
Torrance, CA 90505*

4. FINDINGS OF NO SIGNIFICANT EFFECT:

BASED ON THE ATTACHED INITIAL STUDY, IT HAS BEEN DETERMINED THAT THE PROJECT WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT WITH MODIFICATION AS IDENTIFIED ON THE PROJECT CHANGES/CONDITIONS FORM INCLUDED AS PART OF THE INITIAL STUDY.

5. LOCATION AND CUSTODIAN OF RECORD OF PROCEEDINGS:

THE LOCATION AND CUSTODIAN OF THE RECORD OF PROCEEDINGS ON WHICH ADOPTION OF THIS MITAGATED NEGATIVE DECLARATION IS BASED IS: DEPARTMENT OF REGIONAL PLANNING, 320 WEST TEMPLE STREET, LOS ANGELES, CA 90012

Planning for the Challenges Ahead

**PROJECT MITIGATION MEASURES
DUE TO ENVIRONMENTAL EVALUATION**

Bruce W. McClendon FAICP
Director of Planning

Project: TR063296/RENV200500152/RPAT200500009/RZCT200500014/RCUPT200500152

The Department of Regional Planning (DRP) staff has determined that the following mitigation measures for the project are necessary in order to assure that the proposed project will not cause significant impacts on the environment.

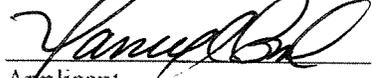

The permittee shall deposit the sum of \$3000.00 with the Department of Regional Planning within 30 days of permit approval in order to defray the cost of reviewing and verifying the information contained in the reports required by the Mitigation Monitoring Program.

1. Haul trucks shall be staged on-site whenever feasible and shall not block the public right of way. Trucks shall use a dispatch system.
2. Haul truck routes shall be limited to commercial streets and shall avoid use of residential streets to the extent feasible.
3. If soil contamination is suspected during construction, construction in the area shall stop and appropriate health and safety procedures shall be implemented and remediation shall be conducted to the complete satisfaction of agencies with oversight, including the California Regional Water Quality Control Board, the Environmental Programs Division of the Department of Public Works, and the Department of Toxic Substances Control.
4. Prior to any construction activity, applicant shall submit a construction work site traffic control plan to the City of Los Angeles, Department of Transportation (LADOT) for their review. The plan shall show the location of any roadway or sidewalk closures, traffic detours, haul routes, hours of operation, protective devices, warning signs and access to abutting properties.
5. All construction related truck traffic shall be restricted to off-peak hours.
6. Prior to issuance of grading permit, the project shall contribute its proportionate share (11.8%) of the cost for improvements on Vermont Avenue at 223rd Street, south approach: one left-turn, two through lanes, and one exclusive right-turn lane instead of one left-turn lane, one through lane, and one shared through-right lane (restripe the existing roadway). In addition, applicant shall submit a detailed signing and striping plan for this improvement to the Traffic and Lighting Division for their review and approval.
7. Prior to issuance of grading permit, applicant shall submit a 40-foot-scale site plan showing access locations in relationship to adjacent intersections and driveways to the Traffic and Lighting Division for their review and approval.
8. Prior to issuance of grading permit, applicant shall notify the Los Angeles Unified School District (LAUSD) Transportation Branch of the expected start and ending dates of all construction activities that may affect traffic within nearby school areas. Project truck traffic and construction vehicles shall not cause traffic delays for school buses.

9. Applicant shall maintain safe and convenient pedestrian routes to all nearby schools throughout the project construction period. Prior to issuance of grading permit, applicant shall obtain a School Pedestrian Route Maps from LAUSD. In addition, applicant shall maintain ongoing communication with LAUSD school administrators to provide sufficient notice to forewarn children and parents when existing pedestrian and vehicle routes to school may be impacted.
10. Construction truck haul routes shall not pass by any school except when school is not in session.
11. Staging or parking of construction-related vehicles, including worker-transport vehicles, shall be prohibited on or adjacent to a school property.
12. Applicant shall install and maintain appropriate traffic controls (signs and signals) to ensure pedestrian and vehicular safety to the satisfaction of LAUSD. If the safety of children at impacted school crossings may be compromised by construction-related activities as determined by LAUSD, applicant shall provide funding for crossing guards. Prior to the issuance of a grading permit, applicant shall submit a determination letter from the LAUSD with respect to whether traffic controls are warranted and whether funding for crossing guards is required.
13. Barriers and/or fencing shall be installed to secure construction equipment and to minimize trespassing, vandalism, short-cut attractions, and attractive nuisances. In addition, applicant shall provide security patrols to minimize trespassing, vandalism, and short-cut attractions.
14. The project shall utilize a restricted radio frequency access gate opener. Applicant shall submit verification of device prior to issuance of Certificate of Occupancy.
15. Applicant shall comply with the NPDES requirements of the California Regional Water Quality Control Board and the Los Angeles County Department of Public works.
16. All construction activities shall be limited to the daytime hours of 7:00 a.m. to 5:30 p.m. on weekdays and Saturdays. Construction activity shall be prohibited on Sundays and holidays.
17. All construction equipment and activities at the project site shall be required to comply with the provisions and restrictions in the County Noise Control Ordinance Chapter 12.12.
18. Building setbacks along 223rd Street and Normandie Avenue shall be 15 feet from the property line. Said requirement shall be included in the notes of an approved building plan.
19. All air-conditioning units shall be shielded and properly installed according to manufacturer's requirements.
20. Trash pickup shall not be permitted before 7:00 a.m. and after 6:00 p.m.
21. Applicant shall post signs with the speed limit of 15 mph for project driveways and 10 mph for parking areas.
22. Prior to issuance of building permit, applicant shall contact the Los Angeles County Fire Department to determine if the project must pay a fair share contribution for new fire facilities or expansion of existing facilities and equipment. If required, applicant shall pay the appropriate fees to the LACFD at the time of building permit issuance.

23. As a means of ensuring compliance of the above mitigation measures, the applicant and subsequent owner(s) are responsible for submitting annual mitigation compliance report to the DRP for review commencing with the issuance of grading permit, and for replenishing the mitigation monitoring account if necessary until such time as all mitigation measures have been implemented and completed.

As the applicant, I agree to incorporate these mitigation measures into the project, and understand that the public hearing and consideration by the Planning Commission will be on the project as mitigation measures.

Applicant

***** INITIAL STUDY *****

**COUNTY OF LOS ANGELES
DEPARTMENT OF REGIONAL PLANNING**

GENERAL INFORMATION

I.A. Map Date: September 11, 2006 Staff Member: Christina D. Tran
Thomas Guide: 764 A-7 USGS Quad: Torrance
Location: 1238, 1244, 1248 W. 223rd St. and 22310, 22318, 22320, 22322 Normandie Ave., Torrance

Description of Project: Application for a tentative tract map to construct 58 attached townhomes that will be for sale; a CUP to authorize proposed improvements in Development Program zone; a zone change from M-1 and A-1 to R-3-DP; and a general plan amendment from low density residential and industrial to medium density residential. The proposed townhomes will be two and four-story units (maximum of 44 ft. high) with 131 parking spaces (111 attached garage parking, 5 covered, and 15 guest parking) and a 10,531 s.f. common open space area. Access will be off of 223rd St. into a gated entry and private driveways. There is a secondary access off of Normandie Ave. for emergency vehicles only. Decorative walls and landscaping will be provided along all property street frontages. Approximately 1,000 c.y. of cut, 6,000 c.y. of fill, and 5,000 c.y. of imported material is proposed which will generate approximately 350 truck trips.

Gross Acres: 2.5 acres

Environmental Setting: Project site is located in an urbanized area with no significant natural resources. Project site is currently developed with residences on five parcels and a used car lot and ancillary sales office on the remaining two parcels. Surrounding land uses consist of Normandale Recreation Center; Meyler Street Elementary School; condominiums; single family residences; a mobile home park; light industrial parks; and commercial establishments.

Zoning: M-1 (Light Manufacturing) and A-1 (Light Agriculture)

General Plan: Low Density Residential and Industrial

Community/Area wide Plan: N/A

Major projects in area:

<u>PROJECT NUMBER</u>	<u>DESCRIPTION & STATUS</u>
<i>PM060001/03-199</i>	<i>4 condominium units (2-8-05 approved)</i>
<i>PM060843/04-119</i>	<i>4 SF (pending)</i>
<i>CP03048</i>	<i>Self storage facility with 3,955 s.f. of office (3-10-04 approved)</i>
<i>CP87541</i>	<i>12 townhomes (11-16-1988 approved)</i>

NOTE: For EIRs, above projects are not sufficient for cumulative analysis.

DEVELOPMENT MONITORING SYSTEM (DMS)

As required by the Los Angeles County General Plan, DMS* shall be employed in the Initial Study phase of the environmental review procedure as prescribed by state law.

- Development Policy Map Designation: Conservation / Maintenance
- Yes No Is the project located in the Antelope Valley, East San Gabriel Valley, Malibu/Santa Monica Mountains or Santa Clarita Valley planning area?
- Yes No Is the project at urban density and located within, or proposes a plan amendment to, an urban expansion designation?

If both of the above questions are answered "yes", the project is subject to a County DMS analysis.

Check if DMS printout generated (attached)

Date of printout: _____

Check if DMS overview worksheet completed (attached)

EIRs and/or staff reports shall utilize the most current DMS information available.

Environmental Finding:

FINAL DETERMINATION: On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

MITIGATED NEGATIVE DECLARATION, in as much as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

ENVIRONMENTAL IMPACT REPORT*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant".

At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The Addendum EIR is required to analyze only the factors changed or not previously addressed.

Reviewed by: Christina Cron Date: 12-6-06

Approved by: Dayl Kottink Date: 6 DECEMBER 2006

This proposed project is exempt from Fish and Game CEQA filing fees. There is no substantial evidence that the proposed project will have potential for an adverse effect on wildlife or the habitat upon which the wildlife depends. (Fish & Game Code 753.5).

Determination appealed – see attached sheet.

*NOTE: Findings for Environmental Impact Reports will be prepared as a separate document following the public hearing on the project.

HAZARDS - 2. Flood

SETTING/IMPACTS

- | | Yes | No | Maybe | |
|----|--------------------------|-------------------------------------|--------------------------|--|
| a. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Is the major drainage course, as identified on USGS quad sheets by a dashed line, located on the project site? |
| b. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Is the project site located within or does it contain a floodway, floodplain, or designated flood hazard zone? |
| c. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Is the project site located in or subject to high mudflow conditions? |

OTHER CONSIDERATIONS

Lot Size Project Design

Drainage concept/SUSMP report was approved on 4/24/06. Applicant shall comply with all requirements of the Subdivision Committee and of said approval.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **flood (hydrological)** factors?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

HAZARDS - 3. Fire

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in a Very High Fire Hazard Severity Zone (Fire Zone 4)?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in a high fire hazard area and served by inadequate access due to lengths, width, surface materials, turnarounds or grade?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site have more than 75 dwelling units on a single access in a high fire hazard area?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having inadequate water and pressure to meet fire flow standards?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project located in close proximity to potential dangerous fire hazard conditions/uses (such as refineries, flammables, explosives manufacturing)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the proposed use constitute a potentially dangerous fire hazard?
g.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

- Water Ordinance No. 7834 Fire Ordinance No. 2947 Fire Regulation No. 8
 Fuel Modification / Landscape Plan

MITIGATION MEASURES

OTHER CONSIDERATIONS

- Project Design Compatible Use

Applicant shall comply with all requirements of the Subdivision Committee. LACFD letter of 8/21/06 did not identify any significant impact. Applicant shall comply with all requirements of said letter.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **fire hazard** factors?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 4. Noise

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the project site located near a high noise source (airports, railroads, freeways, industry)? <i>Normandie Avenue and 223rd St. are heavily traveled streets</i>
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Is the proposed use considered sensitive (school, hospital, senior citizen facility) or are there other sensitive uses in close proximity? <i>Meyler Street Elementary School within 500' of project site</i>
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project substantially increase ambient noise levels including those associated with special equipment (such as amplified sound systems) or parking areas associated with the project?
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Would the project result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project? <i>Construction noise</i>
e.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

Noise Control (Title 12 – Chapter 8) Uniform Building Code (Title 26 - Chapter 35)

MITIGATION MEASURES **OTHER CONSIDERATIONS**

Lot Size Project Design Compatible Use

DHS letter of 8/30/06 did not identify any significant impacts. Applicant shall comply with all noise mitigation measures.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by **noise**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 1. Water Quality

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an area having known water quality problems and proposing the use of individual water wells?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the proposed project require the use of a private sewage disposal system?
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	If the answer is yes, is the project site located in an area having known septic tank limitations due to high groundwater or other geotechnical limitations <i>or</i> is the project proposing on-site systems located in close proximity to a drainage course?
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project's associated construction activities significantly impact the quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies?
				<i>10-99 home subdivisions are subject to NPDES requirements</i>
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Could the project's post-development activities potentially degrade the quality of storm water runoff and/or could post-development non-storm water discharges contribute potential pollutants to the storm water conveyance system and/or receiving bodies?
				<i>10-99 home subdivisions are subject to NPDES requirements</i>
e.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

- Industrial Waste Permit
- Plumbing Code – Ordinance No.2269
- Health Code – Ordinance No.7583, Chapter 5
- NPDES Permit Compliance (DPW)

MITIGATION MEASURES

- Lot Size
- Project Design
- Compatible Use

OTHER CONSIDERATIONS

Consultation with RWQCB. Applicant shall comply with all requirements of the Subdivision Committee

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **water quality** problems?

- Potentially significant
- Less than significant with project mitigation
- Less than significant/No impact

RESOURCES - 2. Air Quality

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the proposed project exceed the State's criteria for regional significance (generally (a) 500 dwelling units for residential users or (b) 40 gross acres, 650,000 square feet of floor area or 1,000 employees for non-residential uses)?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposal considered a sensitive use (schools, hospitals, parks) and located near a freeway or heavy industrial use?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project increase local emissions to a significant extent due to increased traffic congestion or use of a parking structure or exceed AQMD thresholds of potential significance?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will the project generate or is the site in close proximity to sources that create obnoxious odors, dust, and/or hazardous emissions?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with or obstruct implementation of the applicable air quality plan?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project violate any air quality standard or contribute substantially to an existing or projected air quality violation?
g.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under applicable federal or state ambient air quality standard (including releasing emission which exceed quantitative thresholds for ozone precursors)?
h.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

Health and Safety Code – Section 40506

MITIGATION MEASURES

Project Design Air Quality Report

OTHER CONSIDERATIONS

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by, **air quality**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 3. Biota

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located within Significant Ecological Area (SEA), SEA Buffer, or coastal Sensitive Environmental Resource (ESHA, etc.), or is the site relatively undisturbed and natural?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Will grading, fire clearance, or flood related improvements remove substantial natural habitat areas?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is a major drainage course, as identified on USGS quad sheets by a blue dashed line, located on the project site?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain a major riparian or other sensitive habitat (e.g. coastal sage scrub, oak woodland, sycamore riparian, woodland, wetland, etc.)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain oak or other unique native trees (specify kinds of trees)?
f.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site habitat for any known sensitive species (federal or state listed endangered, etc.)?
g.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., wildlife corridor, adjacent open space linkage)?

MITIGATION MEASURES

Lot Size Project Design

OTHER CONSIDERATIONS

ERB/SEATAC Review Oak Tree Permit

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, **biotic** resources?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

RESOURCES - 4. Archaeological/Historical/Paleontological

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in or near an area containing known archaeological resources or containing features (drainage course, spring, knoll, rock outcroppings, or oak trees) that indicate potential archaeological sensitivity?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain rock formations indicating potential paleontological resources?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project site contain known historic structures or sites?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project cause a substantial adverse change in the significance of a historical or archaeological resource as defined in 15064.5?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
f.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Lot Size

Project Design

Phase 1 Archaeology Report

The existing residences to be removed are not listed as an historical property on the state and national registry

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **archaeological, historical, or paleontological** resources?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

RESOURCES - 5. Mineral Resources

SETTING/IMPACTS

Yes No Maybe

a. Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

b. Would the project result in the loss of availability of a locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan?

c. Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Lot Size

Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **mineral** resources?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

RESOURCES - 6. Agriculture Resources

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency to non-agricultural use?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project involve other changes in the existing environment that due to their location or nature, could result in conversion of Farmland, to non-agricultural use?
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Lot Size

Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **agriculture** resources?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

RESOURCES - 7. Visual Qualities

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site substantially visible from or will it obstruct views along a scenic highway (as shown on the Scenic Highway Element), or is it located within a scenic corridor or will it otherwise impact the viewshed?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project substantially visible from or will it obstruct views from a regional riding or hiking trail?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site located in an undeveloped or undisturbed area that contains unique aesthetic features?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the proposed use out-of-character in comparison to adjacent uses because of height, bulk, or other features?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project likely to create substantial sun shadow, light or glare problems?
f.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors (e.g., grading or landform alteration)?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Lot Size

Project Design

Visual Report

Compatible Use

Applicant shall comply with all requirements of the Subdivision Committee

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **scenic** qualities?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

SERVICES - 2. Sewage Disposal

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	If served by a community sewage system, could the project create capacity problems at the treatment plant?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems in the sewer lines serving the project site?
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

- Sanitary Sewers and Industrial Waste – Ordinance No. 6130
- Plumbing Code – Ordinance No. 2269

MITIGATION MEASURES

OTHER CONSIDERATIONS

DPW approved Sewer Area Study on 11/16/05. Applicant shall comply with all requirements of the Subdivision Committee. Applicant shall pay appropriate connection fee before a permit to connect to the sewer is issued.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **sewage disposal** facilities?

- Potentially significant
- Less than significant with project mitigation
- Less than significant/No impact

SERVICES - 3. Education

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems at the district level? <i>Los Angeles Unified School District</i>
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create capacity problems at individual schools that will serve the project site?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create student transportation problems?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create substantial library impacts due to increased population and demand?
e.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Site Dedication Government Code Section 65995 Library Facilities Mitigation Fee

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **educational** facilities/services?

Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 4. Fire/Sheriff Services

SETTING/IMPACTS

Yes No Maybe

- a. Yes No Maybe
Could the project create staffing or response time problems at the fire station or sheriff's substation serving the project site?
Fire Station No. 36 located at 127 W. 223rd St. is approximately 1.3 miles from site; Carson Sheriff Station located at 21356 Avalon Blvd.
- b. Yes No Maybe
Are there any special fire or law enforcement problems associated with the project or the general area?
Access gate may delay response time
- c. Yes No Maybe
Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Fire Mitigation Fee

Applicant shall comply with all requirements of Sheriff Department in their letter of 6/30/06.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **fire/sheriff** services?

Potentially significant

Less than significant with project mitigation Less than significant/No impact

SERVICES - 5. Utilities/Other Services

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in an area known to have an inadequate public water supply to meet domestic needs or to have an inadequate ground water supply and proposes water wells?
b.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Is the project site in an area known to have an inadequate water supply and/or pressure to meet fire fighting needs?
c.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Could the project create problems with providing utility services, such as electricity, gas, or propane?
d.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Are there any other known service problem areas (e.g., solid waste)? <i>Limited landfill capacity</i> Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services or facilities (e.g., fire protection, police protection, schools, parks, roads)?
e.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
f.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

STANDARD CODE REQUIREMENTS

Plumbing Code – Ordinance No. 2269 Water Code – Ordinance No. 7834

MITIGATION MEASURES

Lot Size Project Design

OTHER CONSIDERATIONS

DPW had no comments with respect to solid waste disposal in their letter of 1/9/06. Applicant shall comply with all applicable County codes with respect to solid waste disposal including diversion of construction waste.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **utilities** services?

Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 1. General

SETTING/IMPACTS

- | | Yes | No | Maybe | |
|----|--------------------------|-------------------------------------|--------------------------|--|
| a. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Will the project result in an inefficient use of energy resources? |

STANDARD CODE REQUIREMENTS

State Administrative Code, Title 24, Part 5, T-20 (Energy Conservation)

MITIGATION MEASURES

OTHER CONSIDERATIONS

Lot Size

Project Design

Compatible Use

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to any of the above factors?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

OTHER FACTORS - 2. Environmental Safety

SETTING/IMPACTS

- | | Yes | No | Maybe | |
|----|-------------------------------------|-------------------------------------|--------------------------|---|
| a. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Are any hazardous materials used, transported, produced, handled, or stored on-site? |
| b. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Are any pressurized tanks to be used or any hazardous wastes stored on-site? |
| c. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Are any residential units, schools, or hospitals located within 500 feet and potentially adversely affected? |
| d. | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | Have there been previous uses that indicate residual soil toxicity of the site or is the site located within two miles downstream of a known groundwater contamination source within the same watershed?
<i>Used car sales lot. One previously existing 550 gallon underground storage tank (UST) had been removed (no documentation for Tank Removal Permit and No Further Action Order).</i> |
| e. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project create a significant hazard to the public or the environment involving the accidental release of hazardous materials into the environment? |
| f. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project emit hazardous emissions or handle hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? |
| g. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would create a significant hazard to the public or environment? |
| h. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project result in a safety hazard for people in a project area located within an airport land use plan, within two miles of a public or public use airport, or within the vicinity of a private airstrip? |
| i. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? |
| j. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | Other factors? |

MITIGATION MEASURES

Toxic Clean-up Plan

OTHER CONSIDERATIONS

DPW issued No Further Action Order on 8/17/06. Stop work condition.

CONCLUSION

Considering the above information, could the project have a significant impact relative to **public safety**?

Potentially significant

Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 3. Land Use

SETTING/IMPACTS

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Can the project be found to be inconsistent with the plan designation(s) of the subject property? <i>Request for plan amendment from Industrial and Low Density Residential designation to Medium Density Residential</i>
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Can the project be found to be inconsistent with the zoning designation of the subject property? <i>Request for zone change from M-1 and A-1 to R-3-DP</i>
c.				Can the project be found to be inconsistent with the following applicable land use criteria:
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Hillside Management Criteria?
	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	SEA Conformance Criteria?
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other?
d.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Would the project physically divide an established community?
e.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other factors?

MITIGATION MEASURES

OTHER CONSIDERATIONS

Approval of zone change and plan amendment would allow proposed development

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **land use** factors?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

OTHER FACTORS - 4. Population/Housing/Employment/Recreation

SETTING/IMPACTS

- | | Yes | No | Maybe | |
|----|--------------------------|-------------------------------------|-------------------------------------|---|
| a. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Could the project cumulatively exceed official regional or local population projections? |
| b. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Could the project induce substantial direct or indirect growth in an area (e.g., through projects in an undeveloped area or extension of major infrastructure)? |
| c. | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Could the project displace existing housing, especially affordable housing?
<i>The five existing residential units will be removed</i> |
| d. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Could the project result in substantial job/housing imbalance or substantial increase in Vehicle Miles Traveled (VMT)? |
| e. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Could the project require new or expanded recreational facilities for future residents? |
| f. | <input type="checkbox"/> | <input checked="" type="checkbox"/> | <input type="checkbox"/> | Would the project displace substantial numbers of people, necessitating the construction of replacement housing elsewhere? |
| g. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | Other factors? |

MITIGATION MEASURES

OTHER CONSIDERATIONS

This is a housing project with net increase of 53 units

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **population, housing, employment, or recreational** factors?

Potentially significant

Less than significant with project mitigation

Less than significant/No impact

MANDATORY FINDINGS OF SIGNIFICANCE

Based on this Initial Study, the following findings are made:

	Yes	No	Maybe	
a.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
b.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Does the project have possible environmental effects that are individually limited but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
c.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<i>Traffic</i> Will the environmental effects of the project cause substantial adverse effects on human beings, either directly or indirectly? <i>Water quality, noise, environmental safety, sheriff</i>

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the environment?

- Potentially significant
 Less than significant with project mitigation
 Less than significant/No impact
