SUBDIVISION COMMITTEE REPORT

OWNER / APPLICANT
Prime Enterprise, LLC/ Steelwave Acquisitions, LLC
(Dennis Cavallari)

MAP/EXHIBIT DATE: 02/28/18
SCM REPORT DATE: 03/28/18
SCM DATE: 04/05/18

PROJECT OVERVIEW
The project, Arcadia Commons, (previously known as Santa Anita Village) was approved in 2012 to create six multi-family lots for the development of 318 condominium units, 75 which are designated as senior housing (55 yrs. and above). 170 units in 23 townhouse-style buildings, 75 senior units and 73 units in condominium towers, and two units for recreational uses. The project also included a CUP to authorize on-site grading of excess of 100,000 cy and to ensure compliance with the development program associated with a request for a zone change to R-3 Zone, a plan amendment from Low-Density Residential to Medium-Density Residential, parking permit for shared/reciprocal parking by all six lots and a housing permit to provide 75 units set aside for senior housing on-site.

The following items are amended:

- Lot line modifications
- Reduce the unit count
- Modify unit count housed in townhouse-style units and condominium units.
- Reduce building count
- Proposing reduced parking (CUP Condition Modification)
- Reduce subterranean parking levels and entrance
- Widen main project entrance
- Modify median on Mayflower entrance
- Fire lane reduction
- Setback differences
- Reduction in grading quantities
- Change in floor plan design
- Reduction in recreation
- Elimination of tot lot
- Elimination of community center

**REGIONAL PLANNING ADDITIONAL COMMENTS AND HOLDS**

**Tentative Map:**

1. Include “Amended” to the title.
2. The plans are not to scale. Please revise.
3. Include a lot summary table illustrating the gross and net areas for each parcel (Lots 1-6). Include a column showing the sq. ft. of the easements that are deducted from the gross area.
4. Remove the APN on Lot 1 and place in the Project Data section.
5. Include location, height and dimension of all existing walls, fences and call-out whether the walls/fences will be removed/remain.
6. Remove notes on lot 6 that states existing and proposed zoning/land use designation. Relocate to Project Data section notes.
7. Include locations, names, widths and improvements of all adjoining highways, streets or ways;
8. Show driveway locations and widths
9. Show grading contours lines, drainage, benchmarks and building pad elevations
10. Label all private driveways on-site as "private driveway and fire lane".
11. A cross-section or sections shown to scale with dimensions for all existing and proposed highways, parkways, streets, drives, fire lanes, and alleys, within and adjoining the subdivision.
12. Include a note that at least 75 dwelling units reserved for occupancy by persons aged 55 years and older shall be contained on lot 6.
Exhibit Map:

1. Include a table that shows the building count, use, number of units in each building, type and size. Include recreational buildings.
2. There appears to be more than 21 buildings. It looks like there are multiple detached buildings in the "B" area (Building 8, 9, 10) and buildings within the "C" area. Correct building count.
3. Include building lot coverage and open space calculation under Project Data section.
4. Define what A, A1, A2, B, B1, C1, C2 means. Does it relate to floor plans or building type?
5. Include floor plans and elevations as part of the Exhibit 'A' submittal.
6. The associated site plan have letters that do not match the Exhibit 'A' lettering and is confusing.
7. Submit floor plan typical for each floor plan type including dimensions and label the bedrooms, bathroom kitchen, main access and garage.
8. Clearly show building setbacks for each lot to show compliance with the development program setback limitations.
9. Call-out each symbol on the plans in the legend section.
10. Clearly label all parking spaces that are designated for guest parking.
11. Call-out proposed all proposed walls and fence location, dimensions and height.
12. There are no elevation for B3. Include elevations for all building types, especially the buildings located at the perimeter adjacent to single-family residential.
13. Show compliance with Condition No. 23.B, "All modifications required by Public Works and the Fire Department so that the Project's proposed exit-only passageway onto Live Oak Avenue becomes a combines entrance/exit passageway".
14. Illustrate compliance with Condition No. 23.C, "A modification showing a new private walkway along Building 24 (Building 20 on the amended exhibit "A" map) which connects to the public sidewalk on Live Oak Avenue".
15. The tot lot has been removed and replaced with a yoga deck. The tot lot is a vital area where families may take their children for physical activity. There is a yoga studio in the club house. Consider including a children's play area.
16. Parking calculation provided is deficient by 7 spaces. Based on the parking calculation pursuant to Part 11, 22.52, the total required parking count for the project is 529. The accessible required parking space count may increase based on Building and Safety's calculation for units with parking in the subterranean garage.

General Project Concerns

- Address the removal of the previously approved amenities such as the tot lot and community center for the set-aside senior units.
- VTTM Finding No. 23 states that the subdivider responded to privacy concerns from the adjacent single-family residences by reducing the building heights from multi-story to one-story where the building is adjacent to a single family residence, eliminate windows facing the outer perimeter of the site and install additional landscape screening along the site's perimeter. How will this project address those concerns? The elevations show windows on each side of the buildings A2, B1, B2, and B3.
- The Community Development Commission (CDC) has updated the period of time that the senior units are required to be set aside for 55 years and older from 30 to 55 years.
- The project was approved as a condominium project with senior condominium units. A condominium plan is required to be recorded concurrently with the final map. The owner of each lot or unit may rent out the units after the condominium plans is approved and recorded.
- Although each lot will be recorded individually, the parking and improvements affect the project as a whole. Include a Project Phasing table that describes each phase including Lot No(s), Net acres, building (unit) count and use, open space acres/percentage, parking, guest parking, accessible parking, total parking, improvements and the sequence.

Administrative

- Submit revised application for a new SCM including a description of revisions to the maps to address all agency comments.
- Conduct outreach to the adjacent single-family residence
- Consult with the Monrovia Arcadia Duarte Town Council
RESUBMITTAL INSTRUCTIONS

- A completed and signed Land Division application,
- A signed and dated cover letter describing all changes made to the map,
- Five (5) folded and collated copies of Tract/Parcel Map and Exhibit Map/Exhibit “A,” (if filed in-person),
- A digital (CD or Flash drive) copy of the map/exhibit in PDF format (if filed in person),
- Other materials requested by the case planner.
- Upload one digital copy of applicable materials to eReviews via CSS online portal.
- Revision fee payment (for the 3rd revision and thereafter).

NOTE: An appointment is required for resubmittal. You must call the Land Divisions Section at 213-974-5433 to schedule the appointment. Prior to scheduling, you are encouraged to contact the case planner for a preview of your next SCM submittal.
It is recommended that this tentative map not be approved at this time. This recommendation is based upon information or lack of information that is available concerning the subject property. The removal of this recommendation is contingent upon the submission and satisfactory review of the following:

1. Provide a release from the previous engineer in record.

2. An approved sewer area study is required. Please see attached Sewer review sheet (Comment No. 1) for requirements. Note that the updated sewer area study PC 12053 is current under review.

3. A “Will Serve Letter” from the local water purveyor is required. Please see attached Water review sheet (Comment No. 1) for requirements.

4. A revised tentative map is required to address the following items:
   a. Include the word "AMENDED" in front of the word "MAJOR" within the title block.
   b. Although there is a note on the map stating that, “All streets in the project site are to be private driveway and firelane”, clearly delineate and label them on the tentative map.
   c. Show the proposed buildings’ pad and finished elevations on the tentative map.
   d. The earthwork quantities shown on the tentative map must match those shown on Section 9 of the application.
   e. Verify and correct the disposition of all easements shown on the tentative map. The information shown on the tentative map must match that shown on Exhibit A.
   f. Please see attached Grading review sheet (Comment Nos. 1 and 3) for requirements.
   g. Please see attached Road review sheet (Comment Nos. 1 through 4) for requirements.
h. Please see attached Sewer review sheet (Comment No. 2) for requirements.

i. Please see attached Water review sheet (Comment No. 2) for requirements.

5. A revised Exhibit A is required to show the following additional items:

a. Include the word “AMENDED” in front of the word “MAJOR” and “VESTING TENTATIVE TRACT NO. 68400” before “EXHIBIT A” the within the title block.

b. Although there is a note on the exhibit stating that, “All streets in the project site are to be private driveway and firelane”, clearly delineate and label them on the exhibit.

c. The earthwork quantities shown on the exhibit must match those shown on Section 9 of the application.

d. Verify and correct the disposition of all easements shown on Exhibit A. Clearly delineate and label them. The information shown on the tentative map must match that shown on Exhibit A.

e. Please see attached Grading review sheet (Comment Nos. 2 and 3) for requirements.

f. Please see attached Road review sheet (Comment Nos. 1 through 4) for requirements.

g. Please see attached Sewer review sheet (Comment No. 2) for requirements.

h. Please see attached Water review sheet (Comment No. 2) for requirements.

Prepared by Phoenix Khoury  Phone (626) 458-3133  Date 03-29-2018
It is recommended that this tentative map & exhibit A not be approved at this time. This recommendation is based upon information or lack of information that is available concerning the subject property. The removal of this recommendation is contingent upon the submission and satisfactory review of the following:

1. A revised tentative map is required to show the following additional items:
   a. Show updated benchmark information.
   b. Earthwork volume, including cut, fill, over-excavation, import, and export, as applicable, must match quantities shown on the subdivision application.
   c. All existing on-site public and private easements with names of the holders, document numbers and recorded dates. Label all easements as "to remain", "to be relocated", or "to be abandoned. If applicable, add a general note that no private easements exist on the site.

2. A revised exhibit A is required to show the following additional items:
   a. Show updated benchmark information.
   b. Retaining wall information. All retaining walls should be labeled and dimensioned with the height provided at the tallest point in the wall and any points where the height changes.
   d. Earthwork volume, including cut, fill, over-excavation, import, and export, as applicable, must match quantities shown on the subdivision application.
   e. All existing on-site public and private easements with names of the holders, document numbers and recorded dates. Label all easements as "to remain", "to be relocated", or "to be abandoned. If applicable, add a general note that no private easements exist on the site.
   f. Delineate the limits of the entire fire lane, including any turn around areas required by the fire department, limits of grading, longitudinal grades, pavement dimension, and centerline curve data.
   g. Indicate maintenance responsibilities for all drainage devices.
h. Show proposed landscaping.

i. Show the proposed building footprints, number of units per building, sidewalk location and width, and the location of an accessible path of travel, as required per LACBC Chapters 11A & 11B.

3. Additional Comments:

   a. See additional comments on the tentative map and the exhibit A.

Name  Erik Rodriguez  Date  03/28/2018  Phone (626) 458-4921
It is recommended that this tentative map not be approved at this time. This recommendation is based upon information or lack of information that is available concerning the subject property. The removal of this recommendation is contingent upon the submission and satisfactory review of the following:

Revised tentative and exhibit maps are required to show the following additional items:

1. Show the keypad for the entry gate at least 50 ft. from the right of way.
2. Terminate raised median nose 20 feet from the right of way.
3. Provide channelization at the A Driveway to ensure the right-turn only egress.
4. Label all interior drives “Private Driveway and Fire Lane”.

Prepared by Joseph Nguyen Phone (626) 458-4921 Date 03-27-2018
It is recommended that this tentative map not be approved at this time. This recommendation is based upon information or lack of information that is available concerning the subject property. The removal of this recommendation is contingent upon the submission and satisfactory review of the following:

1. Prior to tentative map approval the updated sewer area study PC 12053 as currently in plancheck with Public Works must be approved. If the system is found to have insufficient capacity, upgrade of the proposed and existing sewerage system is required to the satisfaction of Public Works.

2. A revised tentative map and a revised exhibit map are required to show the following items:
   a. Show and call out location of existing sewer main lines to serve the proposed development with the PC or CI number; and call out the proposed sewer point of connection.
   b. Show how each proposed building is to be served by proposed laterals to the proposed sewer main lines. Each separate building structure shall have a separate lateral connecting to a sewer main line.
   c. Show and call out location of proposed sanitary sewer easement (10 feet minimum).
   d. Show any off-site improvements required by the approved area study, if any.

Prepared by Imelda Ng  
Phone (626) 458-4921  
Date 03-22-2018
It is recommended that this tentative map not be approved at this time. This recommendation is based upon information or lack of information that is available concerning the subject property. The removal of this recommendation is contingent upon the submission and satisfactory review of the following:

1. Provide a "Will Serve Letter" from the water purveyor indicating that the water system will be operated by the purveyor, and that under normal conditions, the system will meet the domestic flow, minimum fire flow, and fire hydrant requirements for the land division, and that water service will be provided to each lot.

2. An updated tentative/exhibit map is required to show the following additional items:
   a. Show location of existing water main lines to serve the proposed development and call out the proposed points of connection.
   b. Label all existing water main lines with the name of corresponding water purveyor.
   c. Show location of proposed water main lines to serve the proposed development and call out the proposed points of connection.
   d. Show the service lines to the buildings 20 and 21.
   e. List contact information for water purveyor on tentative/exhibit map.

Gate entrance width shall match the required fire lane width.

Clearly identify the proposed fire apparatus access as "Private Driveway and Fire Lane".

Building 8, 9, and 10 lack Fire Department access to all exterior walls from an approved fire lane. Redesign is required.
If this recommendation of disapproval is changed to a recommendation of approval based on additional information, the following reports would be recommended for inclusion in the conditions of tentative approval:

Prepared by Phoenix Khoury Phone (626) 458-3133 Date 03-20-2018

http://planning.lacounty.gov/case/view/project_no_tr068400-5_vesting_tentative_tract_map_no_068400_conditional_u/
The following reports consisting of ___ pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.

2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.

3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk’s Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.

4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.

5. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.
6. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

7. If applicable, quitclaim or relocate easements running through proposed structures.

8. Prior to final approval of the tract map, submit a notarized affidavit to the Director of Public Works, signed by all owners of record at the time of filing of the map with the Registrar-Recorder/County Clerk's Office, stating that any proposed condominium building has not been constructed or that all buildings have not been occupied or rented and that said building will not be occupied or rented until after the filing of the map with the Registrar-Recorder/County Clerk's Office.

9. Place standard condominium notes on the final map to the satisfaction of Public Works.

10. Label driveways and multiple access strips as "Private Driveway and Fire Lane" and delineate on the final map to the satisfaction of Public Works and Fire Department.

11. Reserve reciprocal easements for drainage, ingress/egress, sewer, water, utilities, right to grade, and maintenance purposes, in documents over the common private driveways to the satisfaction of Public Works.

12. Remove existing buildings prior to final map approval. Demolition permits and final sign-off from the building inspector are required from the Building and Safety office.

13. If unit filing occurs, reserve reciprocal easements for drainage, ingress/egress, sewer, water, utilities, right to grade, and maintenance purposes, in documents over the private driveways and delineate on the final map to the satisfaction of Public Works.

14. The boundaries of the unit final maps shall be designed to the satisfaction of the Departments of Regional Planning and Public Works.
COUNTY OF LOS ANGELES
DEPARTMENT OF PUBLIC WORKS
LAND DEVELOPMENT DIVISION – SUBDIVISION
TRACT NO. 068400-1 (Amend.)

AMENDED TENTATIVE MAP DATED 02-28-2018
AMENDED EXHIBIT “A” MAP DATED 02-28-2018

15. The first unit of this subdivision shall be filed as Tract No. 68400-01, the second unit, Tract No. 68400-02, and the last unit, Tract No. 68400.

16. A final tract map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office.

17. Prior to submitting the tract map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.

18. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office.

19. Within 30 days of the approval date of this land use entitlement or at the time of the first plan check submittal, the applicant shall deposit the sum of $5,000 with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances.

Prepared by Phoenix Khoury Phone (626) 458-3133 Date 03-20-2018

HYDROLOGY UNIT CONDITIONS OF APPROVAL

Prior to Improvement Plans Approval:

1. Comply with hydrology study, which was approved on 07/14/2018, or the latest revision, to the satisfaction of the Department of Public Works.

Prior to recordation of a Final Map or Parcel map Waiver:

1. Submit plans of drainage facilities as required by hydrology study for design of drainage facilities to the satisfaction of Department of Public Works.

TENTATIVE MAP FEASIBILITY IS RECOMMENDED FOR APPROVAL FROM A GEOTECHNICAL STANDPOINT

THE FOLLOWING INFORMATION IS APPLICABLE TO THIS DIVISION OF LAND:

- The Final Map does not need to be reviewed by the Geotechnical and Materials Engineering Division.
- Geotechnical report(s) may be required prior to approval of grading or building plans. Report(s) must comply with the provisions of the County of Los Angeles Department of Public Works Manual for Preparation of Geotechnical Reports. The Manual is available at: http://dpw.lacounty.gov/gmed/permits/docs/manual.pdf.

COUNTY OF LOS ANGELES
DEPARTMENT OF PUBLIC WORKS
LAND DEVELOPMENT DIVISION - ROAD
TRACT MAP NO. 68400 (Amend.)

AMENDED TENTATIVE MAP DATED 02-28-2018
AMENDED EXHIBIT MAP DATED 02-28-2018

The subdivision shall conform to the design standards and policies of Public Works. The following revised conditions are recommended for inclusion in the tentative map approval:

Comply with the previously approved road conditions to the satisfaction of Public Work except for the following revisions (Refer to the attached previously approved road conditions).

1. Condition Nos. 5, 7 and 8 in the previous approved road condition shall be replaced with the following: Construct the entry gate on Mayflower Avenue on “A” Driveway shown on the tentative map to the satisfaction of Public Works.

Prepared by Joseph Nguyen Phone (626) 458-4921 Date 03-27-2018
The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Dedicate the right to restrict vehicular access on Live Oak Avenue and Mayflower Avenue.

2. Dedicate vehicular access rights on Lovejoy Street and the alley. If the Department of Regional Planning requires the construction of a wall, complete access rights shall be dedicated.

3. Align the proposed “A” Driveway at Mayflower Avenue with Ashmont Avenue.

4. Label all interior streets as private driveway and fire lane.

5. Locate the entry gate (or the key pad if one is provided) a minimum of 60 feet beyond the right of way of Mayflower Avenue on “A” Driveway, and construct a minimum 32-foot radius turnaround preceding the gated entrance to the satisfaction of Public Works. The minimum gate setback shall be increased, if necessary, to accommodate adequate stacking distance as determined in each case by the traffic engineering consultant at final engineering to the satisfaction of Public Works.

6. All egress traffic from “A” Driveway shall be restricted to right turn only.

7. The proposed entry driveway details on “A” Driveway are not approved. Redesign the raised median and approach area (including curb returns) along “A” Driveway to allow the best channelization of egress traffic on to the south bound of Mayflower Avenue to the satisfaction of Public Works.

8. Terminate the raised median nose along “A” Driveway at the right of way line without encroaching to the public right of way on Mayflower Avenue to the satisfaction of Public Works.

9. The entry gate on “D” Driveway at the frontage of Live Oak Avenue is restricted for egress only and it shall be located a minimum of 20 feet beyond the right of way of Live Oak Avenue.

10. The entry gate on “U” Driveway at the frontage of Live Oak Avenue is restricted for emergency use only and it shall be located a minimum of 20 feet beyond the right of way of Live Oak Avenue.

11. Close any unused driveway with standard curb, gutter, and sidewalk along the property frontage on Live Oak Avenue and Mayflower Avenue.
12. Repair any displaced, broken, or damaged curb, gutter, driveway apron, and pavement along the property frontage on Live Oak Avenue and Mayflower Avenue to the satisfaction of Public Works.

13. Construct 5 foot minimum (conventional section) sidewalk along the property frontage on Mayflower Avenue to the satisfaction of Public Works. Execute a maintenance covenant for the landscaping or include in the CC&R provision for the maintenance of landscaping along the street frontage to the satisfaction of Public Works.

14. Plant street trees along the property frontage on Live Oak Avenue and Mayflower Avenue to the satisfaction of Public Works. Existing trees on Mayflower Avenue in the dedicated right of way shall be removed and replaced if not acceptable as street trees.

15. Underground all existing service lines and distribution lines that are less than 50 KV and new utility lines to the satisfaction of Public Works and Southern California Edison. Please contact Construction Division at (626) 458-3129 for new location of any above ground utility structure in the parkway.

16. Prior to final map approval, enter into an agreement with the County franchised cable TV operator (if an area is served) to permit the installation of cable in a common utility trench to the satisfaction of Public Works, or provide documentation that steps to provide cable TV to the proposed subdivision have been initiated to the satisfaction of Public Works.

17. Comply with any additional requirements, if any, as a means of mitigating any traffic impacts as identified in the traffic study approved by Public Works.

18. Provide a left-turn lane on Mayflower Avenue at "A" Driveway to the satisfaction of Public Works.

19. Comply with the following street lighting requirements:

   a. Provide street lights on concrete poles with underground wiring along the property frontage on Live Oak Avenue and Mayflower Avenue to the satisfaction of Public Works. Submit street lighting plans as soon as possible for review and approval to the Street Lighting Section of the Traffic and Lighting Division. For additional information, please contact the Street Lighting Section at (626) 300-4728.
have been energized, and the developer has requested a transfer of billing at least by January 1 of the previous year, the Lighting District can assume responsibility for the operation and maintenance of the street lights by July 1 of any given year. The transfer of billing could be delayed one or more years if the above conditions are not met.

20. Submit a detailed 1" = 40' scaled signing and striping plan for Mayflower Avenue and Live Oak Avenue to the satisfaction of Public Works.

21. Comply with the mitigation measures identified in the attached February 9, 2009 and September 13, 2007, letters from our Traffic and Lighting Division to the satisfaction of Public Works.

Mr. Bruce Chow  
Linscott, Law & Greenspan, Engineers  
238 East Colorado Boulevard, Suite 200  
Pasadena, CA 91108

Dear Mr. Chow:

SANTA ANITA VILLAGE PROJECT  
NEIGHBORHOOD TRAFFIC MANAGEMENT MEASURE  
RESIDUAL TRAFFIC IMPACT ANALYSIS (DECEMBER 3, 2008)  
TENTATIVE TRACT NO. 68400  
ARCADIA AREA

As requested, we have reviewed the above-mentioned analysis for the proposed Santa Anita Village project located at 4241 East Live Oak Avenue in the unincorporated County of Los Angeles area of Arcadia.

The analysis addresses residents' concerns that the proposed driveway located on Mayflower Avenue may generate cut-through traffic on Ashmont Avenue. To minimize project-related traffic from exiting the project site directly onto Ashmont Avenue, the project proposes to construct a channelized island on the project driveway, which will restrict eastbound left-turn and through movements. The analysis concludes this proposed neighborhood traffic management measure will not result in any significant traffic impacts at the study intersections previously evaluated in the February 13, 2007, traffic study.

We generally agree with the analysis that the redistribution of project traffic, as well as, the cumulative traffic generated by the project and other related projects will not have a significant impact to County roadways or intersections in the area.
If you have any further questions regarding the review of this document, please contact Mr. Isaac Wong of our Traffic Studies Section at (626) 300-4796.

Very truly yours,

GAIL FARBER
Director of Public Works

WILLIAM J. WINTER
Assistant Deputy Director

September 13, 2007

Mr. David S. Shender
Linscott, Law & Greenspan, Engineers
234 East Colorado Boulevard, Suite 400
Pasadena, CA 91101

Dear Mr. Shender:

SANTA ANITA VILLAGE PROJECT
TRAFFIC IMPACT ANALYSIS REVIEW (FEBRUARY 13, 2007)
TENTATIVE TRACT NO. 88400
ARCADIA AREA

As requested, we have reviewed the above-mentioned document for the Santa Anita Village development located on the west side of Mayflower Avenue generally between Larkfield and Live Oak Avenues in the unincorporated County of Los Angeles area of Arcadia.

The proposed project includes the construction of 334 attached townhouses. The project is estimated to generate approximately 2,422 net new vehicle trips daily, with 158 and 214 net new vehicle trips during the a.m. and p.m. peak hours, respectively.

We generally agree with the study that the traffic generated by the project alone, as well as the cumulative traffic generated by the project and other related projects, will not have a significant impact to County roadways or intersections in the area. We also generally agree that the project will not have a significant impact on the Congestion Management Program-monitored intersections, arterials, or freeways in the area.

The project shall submit a 40-foot-scale revised site plan of the project showing access locations in relationship to adjacent intersections and driveways shall be submitted Mr. Matthew Dubiel of our Land Development Review Section for review and approval prior to the issuance of building permits.
We recommend the applicant consult with Caltrans as well as the Cities of Irwindale and Monrovia to obtain their concurrence with any potential California Environmental Quality Act Impacts within their respective jurisdictions.

If you have any further questions regarding the review of this document, please contact Mr. Todd Liming of our Traffic Studies Section at (626) 300-4826.

Very truly yours,

DONALD L. WOLFE
Director of Public Works

WILLIAM J. WINTER
Assistant Deputy Director
Traffic and Lighting Division

THE FIRE DEPARTMENT RECOMMENDS THAT THIS PROJECT NOT TO BE APPROVED AT THIS TIME AND NOT TO PROCEED WITH THE PUBLIC HEARING PROCESS. THIS RECOMMENDATION MAYBE CHANGED WHEN THE HOLDS BELOW HAVE BEEN ADDRESSED.

HOLDS
TENTATIVE/EXHIBIT MAP

1. Cleary depict and label the fire apparatus access as “Private Driveway and Fire Lane” on the Tentative and Exhibit Maps. Indicate compliance prior to Tentative Map clearance.

2. The following changes shall be made to the required fire lane on the east side of Building 20:
   a. provide a minimum unobstructed width of 26 feet.
   b. provide a cross section for this fire lane
   c. revise the Gate Detail to provide a 26 feet unobstructed path of travel.
   d. provide a turnaround due to the length exceeding 150 feet.
Indicate compliance on the Tentative and Exhibit Maps prior to Tentative Map clearance.

3. The proposed Section C shall be relabeled to “Private Driveway and Fire Lane”. Ensure the fire lane width is clearly delineated measured from curb face to curb face or flow line to flow line. Indicate compliance on the Exhibit Map prior to Tentative Map clearance.

4. The proposed Access Gate as shown on the Private Driveway and Fire Lane on the west side of Building 20 shall be revised since it does not overlay the proposed fire lane. Indicate compliance on the Exhibit Map prior to Tentative Map clearance.

5. All portions of the exterior walls of the proposed building shall be located within 150 feet from an approved Fire Department vehicular access. Buildings 5, 6, 7, 8, 9, 10 and 21 as shown on the Exhibit Map do not comply with this requirement. Revised the Exhibit Map indicating access compliance prior to Tentative Map clearance.

Reviewed by: Juan Padilla                   Date: March 29, 2018
6. Clarify the elevations on all buildings on the architectural plans. Provide the dimension from the eaves or top of parapets from the ground level or Fire Department apparatus access. Indicate compliance prior to Tentative Map clearance.

7. The fire apparatus access road, a minimum width of 28 feet, shall be extended to at least one side of Building 10 (Building B2 on the architectural plans) for ladder truck access due to the building height. Indicate compliance prior to Tentative Map clearance.

8. Provide the building layout and elevations to Building 11 (Building B3 on the architectural plans) since they were missing from the architectural plans. Indicate compliance prior to Tentative Map clearance.

9. The previously required public fire hydrants location along Live Oak Avenue and Mayflower Avenue will not change. The Fire Department location new on-site public fire hydrant locations due to the project design changes. The new locations will not be determined until the access requirements have been addressed but will be identified on the Exhibit Map prior to Tentative Map clearance.

10. Submit a fire flow availability form, FORM 196, to our office for the existing public fire hydrants located on Live Oak Avenue and on Mayflower Avenue within lot frontage. Compliance required prior to Tentative Map clearance.

11. The required fire flow for this development is **4000** gallons per minute at 20 psi for a duration of 2 hours. The required fire flow was calculated using the building dimensions provided on the architectural drawings.

12. Submit a digital copy of the architectural plans for this development. The architectural plans will assist to calculate the required fire flow from all required fire hydrants, review the elevations to determine the required Fire Department access adjacent to proposed buildings, and address additional Fire Department concerns during the subdivision process.
FINAL MAP
CONDITIONS OF APPROVAL

1. Access as noted on the Tentative and the Exhibit Maps shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 503 of the Title 32 (County of Los Angeles Fire Code), which requires an all-weather access surface to be clear to sky.

2. A copy of the Final Map shall be submitted to the Fire Department for review and approval prior to recordation.

3. The private access within the development shall be indicated as "Private Driveway" on the Final Map. The required fire apparatus access, the fire lanes and turnarounds, shall be labeled as "Fire Lane" on the Final Map. Any proposed parking area, walkway, or other amenities within the private driveway shall be outside the required fire lane. Clearly delineate on the Final Map and submit to the Fire Department for approval.

4. A construct bond is required for all private driveways within this development. Provide written verification of the posted construction bond to the Fire Department prior to Final Map clearance.

5. A common access agreement is required for the private driveway since multiple units are sharing the same access. Such language shall be included in the Covenant, Conditions and Restrictions (CC&R) document and shall be submitted to the Fire Department for review prior to Final Map clearance.

6. Provide written verification stating the required fire hydrants have been installed or bonded for in lieu of installation prior to Final Map clearance.

7. Submit copies of the Water Plans to the Fire Department for review and approval for the required fire hydrant prior to Final Map clearance.
PROJECT CONDITIONS OF APPROVAL

1. All proposed buildings shall be places such that a fire lane is provided to within 150 feet of all exterior walls of the first story. This measurement shall be by an approved route around the exterior of the building or facility. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance.

2. Maintain a minimum 5 feet wide approved firefighter access walkway leading from the Fire Department access road to all openings in the building exterior walls. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance.

3. The on-site private driveways shall provide a minimum paved unobstructed width of 26 feet, clear to the sky. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance or prior to occupancy.

4. A paved unobstructed fire lane width of 28 feet, clear to the sky, shall be provide for buildings exceeding 30 feet above the lowest level of the Fire Department vehicular access road. Buildings exceeding this height shall provide a setback between 15 feet and 30 feet from the edge of the fire lane to the building wall. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance.

5. Fire lanes exceeding a length of 150 feet that dead end are required to provide an approved Fire Department turnaround. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance.

6. Any change of direction within a private driveway shall provide a 32 feet centerline turning radius. Verification for compliance will be performed during the Fire Department review of the architectural plan prior to building permit issuance.
7. Any Permeable or Decorative Pavement within the required fire lane shall be capable to support a live load of 75,000 pounds. Provide construction detail on the load capacity of the permeable pavement product to be used and a note on the architectural plans so the Fire Department can verification for compliance prior to building permit issuance.

8. Install TBD public fire hydrant as noted on the Tentative Map. The location might change depending on the requirements by the jurisdiction water company.

9. All fire hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, be located to provide a minimum clearance of 3 feet around the fire hydrant, and conform to current AWWA standard C503 or approved equal.

10. The required fire flow from the public fire hydrant for this development with the allowable reduction for an approved fire sprinkler system in the buildings can be up to **4000** gallons per minute at 20 psi for a duration of 4 hours, over and above maximum daily domestic demand. The required fire flow will be calculated by the Fire Department during the architectural plan review process prior to building permit issuance.

11. All required fire hydrants shall be installed, tested, and accepted prior to construction. Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants.

12. Parking shall be restricted adjacent to the required public fire hydrant for a distance of 25 feet on each side, a total of 50 feet. Adequate signage and/or stripping shall be required prior to occupancy.

13. An approved automatic fire sprinkler system is required for proposed building within this development. Submit design plans to the Fire Department Sprinkler Plan Check Unit for review and approval prior to installation.

14. All proposed gates, both vehicular and pedestrian gates, shall comply with the Fire Department’s Regulation 5. Verification for compliance will be performed during final inspection of the gate prior to occupancy.
15. The driveways required for fire apparatus access shall be posted with signs stating "No Parking-Fire Lane" and/or stripped accordingly in compliance with the County of Los Angeles Fire Code prior to occupancy.

16. All proposed driveways within this development shall provide approved street names and signs. All proposed buildings shall provide approved address numbers. Compliance required prior to occupancy to the satisfaction of the Department of Public Works and the County of Los Angeles Fire Code.

For any questions regarding the report, please contact Juan Padilla at (323) 890-4243 or Juan.Padilla@fire.lacounty.gov.
Sections 21.24.340, 21.24.350, 21.28.120, 21.28.130, and 21.28.140, the County of Los Angeles Code, Title 21, Subdivision Ordinance provide that the County will determine whether the development's park obligation is to be met by:

1) the dedication of land for public or private park purpose or,
2) the payment of in-lieu fees or,
3) the provision of amenities or any combination of the above.

The specific determination of how the park obligation will be satisfied will be based on the conditions of approval by the advisory agency as recommended by the Department of Parks and Recreation.

The Representative Land Value (RLVs) in Los Angeles County Code (LACC) Section 21.28.140 are used to calculate park fees and are adjusted annually, based on changes in the Consumer Price Index. The new RLVs become effective July 1st of each year and may apply to this subdivision map if first advertised for hearing before either a hearing officer or the Regional Planning Commission on or after July 1st pursuant to LACC Section 21.28.140, subsection 3. Accordingly, the park fee in this report is subject to change depending upon when the subdivision is first advertised for public hearing.

**The park obligation for this development will be met by:**

The payment of $690,927 in lieu fees.

**Trails:**

No Trails

**Comments:**

The map proposes 317 condominium units on six (6) lots.

The In-Lieu fee has been updated to reflect the fee schedule at the time Map 68400 was advertised for public hearing in September 2010.

**For further information or to schedule an appointment to make an in-lieu fee payment:**

Please contact Clement Lau at (626) 588-5301 or Loretta Quach at (626) 588-5305
Department of Parks and Recreation, 1000 S. Fremont Avenue, Unit #40. Building A-9 West, 3rd Floor. Alhambra, California 91803.

- **SCM Date:** 04/05/2018
- **Report Date:** 03/20/2018

## CSD: N/A

## Map Type: Amendment Map - Tract

The formula for calculating the acreage obligation and or in-lieu fee is as follows:

\[
(P)\text{People} \times (0.0030) \text{ Ratio} \times (U)\text{Units} = (X)\text{ acres obligation} \\
(X)\text{ acres obligation} \times \text{RLV/Acre} = \text{In-Lieu Base Fee}
\]

Where:
- **P** = Estimate of number of People per dwelling unit according to the type of dwelling unit as determined by the U.S. Census
- **Ratio** = The subdivision ordinance provides a ratio of 3.0 acres of park land for each 1,000 people generated by the development. This ratio is calculated as "0.0030" in the formula.
- **U** = Total approved number of Dwelling Units.
- **X** = Local park space obligation expressed in terms of acres.
- **RLV/Acre** = Representative Land Value per Acre by Park Planning Area.

March 20, 2018
RPPL2018000831 TR068400-05 4241 LIVE OAK AVE. ARCADIA 91006
Tract Map Advisory Body Review 3/1/18
Vicinity: South Arcadia

The Department of Public Health-Environmental Health Division has reviewed CUP dated 3/1/18. An amendment to the previously approved TR68400 map and exhibit map to create six lots to establish attached multi-family condos including 75 senior residential units located on two towers on Lot no 6. The original Vesting tentative tract map was for 318 new residential condominium units, a club house, pool, playground and village green in a gated access development on 12.1 gross acres. The changes to the original map include a decrease in units from 318 to 317 and changes to the design and access as required by the conditions of approval. There is also a request to decrease parking. A condition modification is also requested.

Potable Water Supply
If the project will be or is already connected to an approved public source of potable water, a “will-serve letter”, contract, agreement of existing water bill from the water purveyor issued within 12 months will be requested by this Department. This location appears to be serviced by Golden State Water Company.

Wastewater Disposal
If the project is connected to the public sewer, the Department of Public Works will provide the requirements for the proposed CUP. The site appears to be in the service area of public Sewerage. Please verify for clearance.

For questions please contact Vincent Gallegos of the Land Use Program at (626) 430-5380 or at vgallegos@ph.lacounty.gov.
