**SUBJECT: ZONE CHANGE CASE NO. 04-027-(5)
TENTATIVE TRACT MAP NO. 53618
CONDITIONAL USE PERMIT CASE NO. 04-027-(5)**

Tentative Tract Map No. 53618 and Zone Change and Conditional Use Permit Case Nos. 04-027-(5) are scheduled for Public Hearing before the Regional Planning Commission of Los Angeles County on February 1, 2006.

Please have the materials listed below available to the public through February 2, 2006.

If you have any questions regarding this matter, please call the Land Divisions Section of the Department of Regional Planning at (213) 974-6433.

Thank you.

ENVIRONMENTAL STATUS
 Negative Declaration

DESCRIPTION OF SITE PLAN
 The tentative map and Exhibit "A," dated July 21, 2005, depict a residential subdivision of 24 detached single-family condominiums on 2.02 gross acres. Internal access is provided by a 26-foot wide private driveway and fire lane with two hammerhead turnarounds located at the rear or southern portion of the property. The project provides common open space throughout the project site as well as 24 guest parking spaces (one guest space per unit). Trash enclosures are also depicted within the center 'island' of development.

KEY ISSUES

- Project site in the County "island" community of Charter Oak with City of Covina to the north, south, east and west; and City of San Dimas to the further south.
- Project exceeds maximum density permitted by General Plan land use category. Infill findings are required to permit the maximum 24 units proposed.

(If more space is required, use opposite side)

Planning

ISSUES AND ANALYSIS

The project exceeds the maximum density permitted by the General Plan land use category of Low Density Residential (one to six dwelling units per acre). However, the General Plan supports concentrated urban development where services are provided and the project is compatible with surrounding density. The applicant has submitted a density analysis of existing densities of all residential properties within 500 feet of the subject property, and staff has reviewed the analysis to determine whether the project qualifies as an infill project as described in the General Plan.

A Zone Change is requested from A-1-10,000 to R-2-DP as the existing zoning allows a maximum of seven units on the property based on required area. The project site is adjacent to property within the City of Covina, which has been developed with a planned unit development and other condominium developments immediately to the east and southeast.

A Conditional Use Permit is requested to ensure compliance with the Development Program zone.

Prepared by: Susan Tae

DRAFT CONDITIONS:

1. Conform to the requirements of Title 21 of the Los Angeles County Code ("County Code") (Subdivision Ordinance) as well as conform to the requirements of Conditional Use Permit Case No. 04-027-(5).
2. Except as otherwise specified in Condition No. 3 and by Conditional Use Permit No. 04-027-(5), conform to the applicable requirements of the R-2-14U-DP zone.
3. In accordance with Conditional Use Permit No. 04-027-(5), this land division is approved within a Development Program zone as a condominium development of 24 detached single-family units.
4. Recordation of the final map is contingent upon effectuation of an ordinance changing the zoning of the subject property from A-1-10,000 to R-2-DP by the Los Angeles County Board of Supervisors.
5. Show Cypress Street as a dedicated street on the final map.
6. Provide at least 50 feet of street frontage on the property line for the lot.
7. Submit a copy of the project Conditions, Covenants and Restrictions ("CC&Rs") to the Los Angeles County Department of Regional Planning ("Regional Planning") for review and approval.
8. Within 15 days of approval, submit evidence that the conditions of the associated Conditional Use Permit Case No. 04-027-(5) have been recorded.
9. Place a note or notes on the final map, to the satisfaction of Regional Planning, that this subdivision is approved as a condominium project for a total of 24 residential units whereby the owners of the units of air space will hold an undivided interest in the common areas, which will in turn provide the necessary access and utility easements for the units.
10. Provide in the CC&Rs a method for the continuous maintenance of the common areas, including the driveway and the lighting system along all walkways, to the satisfaction of Regional Planning.
11. Reserve in the CC&Rs the right for all residents within the condominium project to use the driveways for access and the guest parking spaces throughout the subdivision.

12. Except where the Los Angeles County Fire Department ("Fire Department") determines that gates are not allowed for safety reasons, or as otherwise specified in these conditions, gated entries are permitted at the locations depicted on the tentative tract map and exhibit map subject to the stacking, turnaround, width and design requirements of Fire Department and the Los Angeles County Department of Public Works ("Public Works").
13. Three copies of a landscape plan which may be incorporated into a revised site plan, shall be submitted and approved by the Director of Regional Planning ("Director of Planning") as required by Conditional Use Permit Case No. 04-027-(5) prior to issuance of a grading permit or building permit.
14. Plant at least one tree of a non-invasive species within the front yard of the multi-family lot, and a minimum additional 12 trees within the project site. The location and the species of said trees shall be incorporated into a site plan or landscape plan. Prior to final map approval, the site/landscaping plan shall be approved by the Director of Planning and a bond shall be posted with Public Works or other verification shall be submitted to the satisfaction of Regional Planning to ensure the planting of the required trees.
15. Within five days of the tentative map approval date, remit a \$25.00 processing fee payable to the County of Los Angeles in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the California Public Resources Code and Section 711 of the California Fish and Game Code to defray the costs of fish and wildlife protection and management incurred by the California Department of Fish and Game. No project subject to this requirement is final, vested or operative until the fee is paid.
16. The subdivider shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action or proceeding against the County or its agents, officers, and employees to attack, set aside, void or annul this tract map approval, or related discretionary approvals, whether legislative or quasi-judicial, which action is brought within the applicable time period of Government Code Section 65499.37 or any other applicable limitation period. The County shall promptly notify the subdivider of any claim, action or proceeding and the County shall cooperate fully in the defense. If the County fails to promptly notify the subdivider of any claim, action or proceeding, or the County fails to cooperate fully in the defense, the subdivider shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
17. In the event that any claim, action, or proceeding as described above is filed against the County, the subdivider shall within ten days of the filing pay the Department of Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to subdivider, or subdivider's counsel.

The subdivider shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:

- a. If during the litigation process, actual costs incurred reach 80 percent of the amount on deposit, the subdivider shall deposit additional fund to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.
- b. At the sole discretion of the subdivider, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by subdivider according to Los Angeles County Code Section 2.170.010.

Except as modified herein above, this approval is subject to all those conditions set forth in Conditional Use Permit Case No. 04-027-(5), and the attached reports recommended by the Los Angeles County Subdivision Committee, which also consists of members of the Public Works, Fire Department, Department of Parks and Recreation, and Health Services.

COUNTY OF LOS ANGELES
DEPARTMENT OF PUBLIC WORKS
LAND DEVELOPMENT DIVISION – SUBDIVISION
TRACT NO. 53618 (Rev.)

TENTATIVE MAP DATED 07-21-2005
EXHIBIT MAP DATED 07-21-2005

The following reports consisting of 10 pages are the recommendations of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Details and notes shown on the tentative map are not necessarily approved. Any details or notes which may be inconsistent with requirements of ordinances, general conditions of approval, or Department policies must be specifically approved in other conditions, or ordinance requirements are modified to those shown on the tentative map upon approval by the Advisory agency.
2. Easements are tentatively required, subject to review by the Director of Public Works to determine the final locations and requirements.
3. Easements shall not be granted or recorded within areas proposed to be granted, dedicated, or offered for dedication for public streets, highways, access rights, building restriction rights, or other easements until after the final map is filed with the Registrar-Recorder/County Clerk's Office. If easements are granted after the date of tentative approval, a subordination must be executed by the easement holder prior to the filing of the final map.
4. In lieu of establishing the final specific locations of structures on each lot/parcel at this time, the owner, at the time of issuance of a grading or building permit, agrees to develop the property in conformance with the County Code and other appropriate ordinances such as the Building Code, Plumbing Code, Grading Ordinance, Highway Permit Ordinance, Mechanical Code, Zoning Ordinance, Undergrounding of Utilities Ordinance, Water Ordinance, Sanitary Sewer and Industrial Waste Ordinance, Electrical Code, and Fire Code. Improvements and other requirements may be imposed pursuant to such codes and ordinances.
5. All easements existing at the time of final map approval must be accounted for on the approved tentative map. This includes the location, owner, purpose, and recording reference for all existing easements. If an easement is blanket or indeterminate in nature, a statement to that effect must be shown on the tentative map in lieu of its location. If all easements have not been accounted for, submit a corrected tentative map to the Department of Regional Planning for approval.

6. Adjust, relocate, and/or eliminate lot lines, lots, streets, easements, grading, geotechnical protective devices, and/or physical improvements to comply with ordinances, policies, and standards in effect at the date the County determined the application to be complete all to the satisfaction of Public Works.
7. Prior to final approval of the tract map submit a notarized affidavit to the Director of Public Works, signed by all owners of record at the time of filing of the map with the Registrar-Recorder/County Clerk's Office, stating that any proposed condominium building has not been constructed or that all buildings have not been occupied or rented and that said building will not be occupied or rented until after the filing of the map with the Registrar-Recorder/County Clerk's Office.
8. Place standard condominium notes on the final map to the satisfaction of Public Works.
9. Quitclaim or relocate easements running through proposed structures.
10. Remove existing structures prior to final map approval. Demolition permits are required from the Building and Safety office.
11. Label driveways and multiple access strips as "Private Driveway and Fire Lane" and delineate on the final map to the satisfaction of Public Works.
12. Reserve reciprocal easements for drainage, ingress/egress, sewer, water, utilities, and maintenance purposes, etc., in documents over the common private driveways to the satisfaction of Public Works.
13. A final tract map must be processed through the Director of Public Works prior to being filed with the Registrar-Recorder/County Clerk's Office.
14. Prior to submitting the tract map to the Director of Public Works for examination pursuant to Section 66442 of the Government Code, obtain clearances from all affected Departments and Divisions, including a clearance from the Subdivision Mapping Section of the Land Development Division of Public Works for the following mapping items; mathematical accuracy; survey analysis; and correctness of certificates, signatures, etc.
15. A final guarantee will be required at the time of filing of the final map with the Registrar-Recorder/County Clerk's Office.

16. Within 30 days of the approval date of this land use entitlement or at the time of first plan check submittal, the applicant shall deposit the sum of \$2,000 (Minor Land Divisions) or \$5,000 (Major Land Divisions) with Public Works to defray the cost of verifying conditions of approval for the purpose of issuing final map clearances. This deposit will cover the actual cost of reviewing conditions of approval for Conditional Use Permits, Tentative Tract and Parcel Maps, Vesting Tentative Tract and Parcel Maps, Oak Tree Permits, Specific Plans, General Plan Amendments, Zone Changes, CEQA Mitigation Monitoring Programs and Regulatory Permits from State and Federal Agencies (Fish and Game, USF&W, Army Corps, RWQCB, etc.) as they relate to the various plan check activities and improvement plan designs. In addition, this deposit will be used to conduct site field reviews and attend meetings requested by the applicant and/or his agents for the purpose of resolving technical issues on condition compliance as they relate to improvement plan design, engineering studies, highway alignment studies and tract/parcel map boundary, title and easement issues. When 80% of the deposit is expended, the applicant will be required to provide additional funds to restore the initial deposit. Remaining balances in the deposit account will be refunded upon final map recordation.

DRAINAGE CONDITIONS

1. Approval of this map pertaining to drainage is recommended.
- =====

GRADING CONDITIONS:

1. A grading plan and soil and geology report must be submitted and approved prior to approval of the final map. The grading plans must show and call out the construction of at least all the drainage devices and details, the paved driveways, the elevation and drainage of all pads, and the SUSMP devices. The applicant is required to show and call out all existing easements on the grading plans and obtain the easement holder approvals prior to the grading plans approval.
2. Comply with the requirements of the drainage concept / Standard Urban Stormwater Mitigation Plan (SUSMP) plan which was conceptually approved on 01/06/05 to the satisfaction of Public Works.

TENTATIVE MAP FEASIBILITY IS RECOMMENDED FOR APPROVAL. PRIOR TO FILING THE FINAL LAND DIVISION MAP, THE FOLLOWING CONDITIONS MUST BE FULFILLED:

- The final map must be approved by the Geology and Soils Sections to assure that all geotechnical (geology and soils) factors have been properly evaluated.
- A grading plan must be geotechnically approved by the Geology and Soils Sections. This grading plan must be based on a detailed engineering geology report and/or soils engineering report and show all recommendations submitted by them. It must also agree with the tentative map and conditions as approved by the Planning Commission. If the subdivision is to be recorded prior to the completion and acceptance of grading, corrective geologic bonds will be required.
- All geologic hazards associated with this proposed development must be eliminated,
or
delineate restricted use areas, approved by the consultant geologist and/or soils engineer, to the satisfaction of the Geology and Soils Sections, and dedicate to the County the right to prohibit the erection of buildings or other structures within the restricted use areas.
- A statement entitled: "Geotechnical Note(s), Potential Building Site: For grading and corrective work requirements for access and building areas for Lot(s) No(s) _____ refer to the Soils Report(s) by _____, dated _____."

TENTATIVE MAP IS APPROVED FOR FEASIBILITY. THE FOLLOWING INFORMATION IS APPLICABLE TO THIS DIVISION OF LAND:

- This project may not qualify for a waiver of final map under section 21.48.140 of the Los Angeles County Title 21 Subdivision Code.
- The subdivider is advised that approval of this division of land is contingent upon the installation and use of a sewer system.
- A soils engineering report may be required prior to approval of building or grading plans.
- The Soils Engineering review dated 8-9-05 is attached.
- Geotechnical Recordation Map verification deposit estimate 6 hours.
- Groundwater is less than 10 feet from the ground surface on lots _____

ACTION:

Tentative Map feasibility is recommended for approval, subject to conditions below:

REMARKS:

1. A soils report may be required for review of a grading or building plan. The report must comply with the provisions of **"Manual for Preparation of Geotechnical Reports"** prepared by County of Los Angeles, Department of Public Works. The manual is available on the Internet at the following address: <http://dpw.co.la.ca.us/med/manual.pdf>.
2. At the grading plan review stage, submit two sets of grading plans to the Soils Section for verification of compliance with County codes and policies.

Gan Lem

NOTICE: Public safety, relative to geotechnical subsurface exploration, shall be provided in accordance with current codes for excavations, inclusive of the Los Angeles County Code, Chapter 11.48, and the State of California, Title 8, Construction Safety Orders.

Gan:tract-53618

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. Dedicate the right to restrict vehicular access on Cypress Street.
2. Close any unused driveway with standard curb, gutter, and sidewalk along the property frontage on Cypress Street.
3. Repair any displaced, broken, or damaged curb, gutter, sidewalk, driveway apron, and pavement along the property frontage on Cypress Street.
4. Where full-width sidewalk is not already in place along the property frontage on Cypress Street, re-construct full-width sidewalk to the satisfaction of Public Works.
5. Plant street trees along the property frontage on Cypress Street.
6. Underground all existing service lines and distribution lines that are less than 50 KV and new utility lines to the satisfaction of Public Works and Southern California Edison. Please contact Construction Division at (626) 458-3129 for new location of any above ground utility structure in the parkway.
7. Comply with the following street lighting requirements:
 - a. Provide street lights on concrete poles with underground wiring on Cypress Street to the satisfaction of Public Works. Submit street lighting plans as soon as possible for review and approval to the Street Lighting Section of the Traffic and Lighting Division. For additional information, please contact the Street Lighting Section at (626) 300-4726.
 - b. The proposed development, or portions thereof, are not within an existing Lighting District. Annexation and assessment balloting are required. Upon tentative map approval, the applicant shall comply with conditions listed below in order for the Lighting District to pay for the future operation and maintenance of the street lights. The Board of Supervisors must approve the annexation and levy of assessment (should assessment balloting favor levy of assessment) prior to filing of the final subdivision maps for each area with the Registrar-Recorder/County Clerk.
 - (1) Request the Street Lighting Section to commence annexation and levy of assessment proceedings.

- (2) Provide business/property owner's name(s), mailing address(es), site address, Assessor Parcel Number(s), and Parcel Boundaries in either Microstation or Auto CADD format of territory to be developed to the Street Lighting Section.
 - (3) Submit a map of the proposed development including any roadways conditioned for street lights that are outside the proposed project area to Street Lighting Section. Contact the Street Lighting Section for map requirements and with any questions at (626) 300-4726.
 - c. The annexation and assessment balloting process takes approximately ten to twelve months to complete once the above information is received and approved. Therefore, untimely compliance with the above will result in a delay in receiving approval of the street lighting plans or in filing the final subdivision map for recordation. Information on the annexation and the assessment balloting process can be obtained by contacting Street Lighting Section at (626) 300-4726.
 - d. For acceptance of street light transfer of billing, the area must be annexed into the Lighting District and all street lights in the development, or the current phase of the development, must be constructed according to Public Works approved plans. The contractor shall submit one complete set of "as-built" plans. Provided the above conditions are met, all street lights in the development, or the current phase of the development, have been energized, and the developer has requested a transfer of billing at least by January 1 of the previous year, the Lighting District can assume responsibility for the operation and maintenance of the street lights by July 1 of any given year. The transfer of billing could be delayed one or more years if the above conditions are not met.
8. Prior to final map approval, enter into an agreement with the County franchised cable TV operator (if an area is served) to permit the installation of cable in a common utility trench to the satisfaction of Public Works, or provide documentation that steps to provide cable TV to the proposed subdivision have been initiated to the satisfaction of Public Works.

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. The subdivider shall install and dedicate main line sewers and serve each building with a separate house lateral or have approved and bonded sewer plans on file with Public Works.
2. A sewer area study for the proposed subdivision (PC11742as, dated 07-08-2004) was reviewed and approved. No additional mitigation measures are required. The approved sewer area study shall remain valid for two years after initial approval of the tentative map. After this period of time, an update of the area study shall be submitted by the applicant if determined to be warranted by Public Works.
3. The subdivider shall send a print of the land division map to the County Sanitation District with a request for annexation. The request for annexation must be approved prior to final map approval.
4. Easements are required, subject to review by Public Works to determine the final locations and requirements.
5. Sewer reimbursement charges as determined by the Director of Public Works shall be paid to the County of Los Angeles before the filing of this land division map.

Reviewed by Henry Wong *HW*

Phone (626) 458-7151

Date 09-26-2005

The subdivision shall conform to the design standards and policies of Public Works, in particular, but not limited to the following items:

1. A water system maintained by the water purveyor, with appurtenant facilities to serve all buildings in the land division, must be provided. The system shall include fire hydrants of the type and location (both on-site and off-site) as determined by the Fire Department. The water mains shall be sized to accommodate the total domestic and fire flows.
2. There shall be filed with Public Works a statement from the water purveyor indicating that the water system will be operated by the purveyor, and that under normal conditions, the system will meet the requirements for the land division, and that water service will be provided to each building.
3. Easements shall be granted to the County, appropriate agency or entity for the purpose of ingress, egress, construction and maintenance of all infrastructure constructed for this land division to the satisfaction of Public Works.
4. Submit landscape and irrigation plans for each lot in the land division, with landscape area greater than 2,500 square feet, in accordance with the Water Efficient Landscape Ordinance.

WATER SYSTEM REQUIREMENTS - UNINCORPORATED

Subdivision No. TR 53618 Tentative Map Date 21-JULY-05

Revised Report YES

- The County Forester and Fire Warden is prohibited from setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted. However, water requirements may be necessary at the time of building permit issuance.
- The required fire flow for public fire hydrants at this location is 1500 gallons per minute at 20 psi for a duration of 2 hours, over and above maximum daily domestic demand. 1 Hydrant(s) flowing simultaneously may be used to achieve the required fire flow.
- The required fire flow for private on-site hydrants is gallons per minute at 20 psi. Each private on-site hydrant must be capable of flowing gallons per minute at 20 psi with two hydrants flowing simultaneously, one of which must be the furthest from the public water source.
- Fire hydrant requirements are as follows:
Install 1 public fire hydrant(s). Upgrade / Verify existing 1 public fire hydrant(s).
Install private on-site fire hydrant(s).
- All hydrants shall measure 6"x 4"x 2-1/2" brass or bronze, conforming to current AWWA standard C503 or approved equal. All on-site hydrants shall be installed a minimum of 25' feet from a structure or protected by a two (2) hour rated firewall.
 - Location: As per map on file with the office.
 - Other location: Verify Hydrant 92' E/O PL. Install public Fire Hydrant on West PL.
- All required fire hydrants shall be installed, tested and accepted or bonded for prior to Final Map approval. Vehicular access shall be provided and maintained serviceable throughout construction.
- The County of Los Angeles Fire Department is not setting requirements for water mains, fire hydrants and fire flows as a condition of approval for this division of land as presently zoned and/or submitted.
- Additional water system requirements will be required when this land is further subdivided and/or during the building permit process.
- Hydrants and fire flows are adequate to meet current Fire Department requirements.
- Upgrade not necessary, if existing hydrant(s) meet(s) fire flow requirements. Submit original water availability form to our office.

Comments: Submit ORIGINAL Fire Department Fire Flow Availability Form 195 to our office for review/approval, prior to tentative map clearance.

All hydrants shall be installed in conformance with Title 20, County of Los Angeles Government Code and County of Los Angeles Fire Code, or appropriate city regulations. This shall include minimum six-inch diameter mains. Arrangements to meet these requirements must be made with the water purveyor serving the area.

- FIRE DEPARTMENT HOLD on the tentative map shall remain until verification from the Los Angeles County Fire Dept. Planning Section is received, stating adequacy of service. Contact (323) 881-2404.
Access shall comply with Title 21 (County of Los Angeles Subdivision Code) and Section 902 of the Fire Code, which requires all weather access. All weather access may require paving.
Fire Department access shall be extended to within 150 feet distance of any exterior portion of all structures.
Where driveways extend further than 300 feet and are of single access design, turnarounds suitable for fire protection equipment use shall be provided and shown on the final map. Turnarounds shall be designed, constructed and maintained to insure their integrity for Fire Department use. Where topography dictates, turnarounds shall be provided for driveways that extend over 150 feet in length.
The private driveways shall be indicated on the final map as "Private Driveway and Firelane" with the widths clearly depicted. Driveways shall be maintained in accordance with the Fire Code.
Vehicular access must be provided and maintained serviceable throughout construction to all required fire hydrants. All required fire hydrants shall be installed, tested and accepted prior to construction.
This property is located within the area described by the Fire Department as "Very High Fire Hazard Severity Zone" (formerly Fire Zone 4). A "Fuel Modification Plan" shall be submitted and approved prior to final map clearance. (Contact: Fuel Modification Unit, Fire Station #32, 605 North Angeleno Avenue, Azusa, CA 91702-2904, Phone (626) 969-5205 for details).
Provide Fire Department or City approved street signs and building access numbers prior to occupancy.
Additional fire protection systems shall be installed in lieu of suitable access and/or fire protection water.
The final concept map, which has been submitted to this department for review, has fulfilled the conditions of approval recommended by this department for access only.
These conditions must be secured by a C.U.P. and/or Covenant and Agreement approved by the County of Los Angeles Fire Department prior to final map clearance.
The Fire Department has no additional requirements for this division of land.

Comments: Access adequate as shown on Tentative Tract Map dated 1-25-05 on file in our office. No gates shall be allowed for this development.

PARK OBLIGATION REPORT

Tentative Map #	53618	DRP Map Date: 07/21/2005	SCM Date: / /	Report Date: 09/22/2005
Park Planning Area #	15	CHARETER OAK ISLANDS / GLENDORA HEIGHTS		Map Type: REV. (REV RECD)

Total Units = Proposed Units + Exempt Units

Sections 21.24.340, 21.24.350, 21.28.120, 21.28.130, and 21.28.140, the County of Los Angeles Code, Title 21, Subdivision Ordinance provide that the County will determine whether the development's park obligation is to be met by:

- 1) the dedication of land for public or private park purpose or,
- 2) the payment of in-lieu fees or,
- 3) the provision of amenities or any combination of the above.

The specific determination of how the park obligation will be satisfied will be based on the conditions of approval by the advisory agency as recommended by the Department of Parks and Recreation.

Park land obligation in acres or in-lieu fees:

ACRES:	0.24
IN-LIEU FEES:	\$52,038

Conditions of the map approval:

The park obligation for this development will be met by:

The payment of \$52,038 in-lieu fees.

Trails:

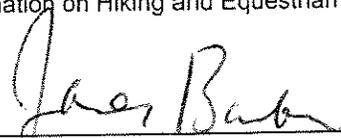

No trails.

Comments:

24 detached residential condominium units with credit for 3 existing houses to be removed, net density increase of 21 units.

Contact Patrocenia T. Sobrepeña, Departmental Facilities Planner I, Department of Parks and Recreation, 510 South Vermont Avenue, Los Angeles, California, 90020 at (213) 351-5120 for further information or an appointment to make an in-lieu fee payment.

For information on Hiking and Equestrian Trail requirements contact Trail Coordinator at (213) 351-5135.

PARK OBLIGATION WORKSHEET

Tentative Map #	53618	DRP Map Date:	07/21/2005	SMC Date:	/ /	Report Date:	09/22/2005
Park Planning Area #	15	CHARETER OAK ISLANDS / GLENDORA HEIGHTS				Map Type:	REV. (REV RECD)

The formula for calculating the acreage obligation and or In-lieu fee is as follows:

(P)eople x (0.003) Goal x (U)nits = (X) acres obligation

(X) acres obligation x RLV/Acre = In-Lieu Base Fee

- Where:
- P = Estimate of number of People per dwelling unit according to the type of dwelling unit as determined by the 2000 U.S. Census*. Assume * people for detached single-family residences; Assume * people for attached single-family (townhouse) residences, two-family residences, and apartment houses containing fewer than five dwelling units; Assume * people for apartment houses containing five or more dwelling units; Assume * people for mobile homes.
 - Goal = The subdivision ordinance allows for the goal of 3.0 acres of park land for each 1,000 people generated by the development. This goal is calculated as "0.0030" in the formula.
 - U = Total approved number of Dwelling Units.
 - X = Local park space obligation expressed in terms of acres.
 - RLV/Acre = Representative Land Value per Acre by Park Planning Area.

Total Units = Proposed Units + Exempt Units

	People*	Goal 3.0 Acres / 1000 People	Number of Units	Acre Obligation
Detached S.F. Units	3.77	0.0030	21	0.24
M.F. < 5 Units	3.23	0.0030	0	0.00
M.F. >= 5 Units	2.57	0.0030	0	0.00
Mobile Units	2.87	0.0030	0	0.00
Exempt Units			3	
Total Acre Obligation =				0.24

Park Planning Area = 15 **CHARETER OAK ISLANDS / GLENDORA HEIGHTS**

Tract Map No. 53618

Vicinity: Covina

Tentative Tract Map Date: July 21, 2005 (2nd Revision)

The Los Angeles County Department of Health Services' conditions of approval for **Tentative Tract Map 53618** are unchanged by the submission of the revised map. The following conditions still apply and are in force:

1. Potable water will be supplied by the **Southern California Water Company**, a public water system, which guarantees water connection and service to all lots. **Prior to Tentative Map Approval**, a "Will Serve" letter from the indicated water company shall be provided to this Department.
2. Sewage disposal will be provided through the public sewer and wastewater treatment facilities of the **Los Angeles County Sanitation District** as proposed.

If you have any questions or need additional information, please contact me at (626) 430-5380.

Respectfully,

Becky Valenti, E.H.S. IV
Mountain and Rural/Water, Sewage, and Subdivision Program

**DEPARTMENT OF REGIONAL PLANNING
CONDITIONAL USE PERMIT CASE NO. 04-027-(5)**

Exhibit "A" Date: 7-21-2005

DRAFT CONDITIONS:

1. This grant authorizes the use of the 1.83-acre subject property for a development program of a maximum total of 24 detached single-family dwelling units on one multi-family lot, as depicted on the approved Exhibit "A," subject to all of the following conditions of approval.
2. Unless otherwise apparent from the context, the term "permittee" shall include the applicant and any other person, corporation, or entity making use of this grant.
3. This grant shall not be effective for any purpose until:
 - a. The permittee, and the owner of the subject property if other than the permittee, have filed at the office of the Los Angeles County Department of Regional Planning ("Regional Planning") their affidavit stating that they are aware of, and agree to accept, all the conditions of this grant and that the conditions have been recorded as required by Condition No. 6, and until all required monies have been paid pursuant to Condition Nos. 7 and 9; and
 - b. An ordinance changing the zoning of the property from A-1-10,000 to R-2-DP, as recommended in Zone Change Case No. 04-027-(5), has been adopted by the Los Angeles County Board of Supervisors and has become effective.
4. If any provision of this grant is held or declared to be invalid, the permit shall be void and the privileges granted hereunder shall lapse.
5. Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission or Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if it finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public health or safety or so as to be a nuisance.
6. Prior to the use of this grant, the terms and conditions of the grant shall be recorded in the office of the Los Angeles County Recorder. In addition, upon any transfer or lease of the subject property during the term of this grant, the permittee shall promptly provide a copy of the grant and its terms and conditions to the transferee or lessee, as applicable, of the subject property.
7. The subject property shall be developed and maintained in full compliance with the conditions of this grant and any law, statute, ordinance or other regulation applicable to any development or activity on the subject property. Failure of the permittee to cease any development or activity not in full compliance shall be a

violation of these conditions. Prior to the use of this grant, the permittee shall deposit with the County of Los Angeles ("County") the sum of **\$750.00**. These monies shall be placed in a performance fund, which shall be used exclusively to compensate Regional Planning for all expenses incurred while inspecting the premises to determine the permittee's compliance with the conditions of approval. The fund provides for **five (5) biennial inspections**. The inspections shall be unannounced.

8. If additional inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the property is being used in violation of any condition of this grant, the permittee shall be financially responsible and shall reimburse Regional Planning for all additional inspections and for any enforcement efforts necessary to bring the subject property into compliance. Inspections shall be made to ensure compliance with the conditions of this grant as well as adherence to development in accordance with the approved site plan on file. The amount charged for additional inspections shall be the amount equal to the recovery cost at the time of payment (currently \$150.00 per inspection).
9. Within 15 days of the approval date of this grant, the permittee shall remit processing fees payable to the County in connection with the filing and posting of a Notice of Determination in compliance with Section 21152 of the Public Resources Code for Project No. 04-027-(5), which includes Zone Change Case No. 04-027-(5), Tentative Tract Map No. 53618 and Conditional Use Permit Case No. 04-027-(5). The project is *de minimus* in its effect on fish and wildlife and in order to defray the cost of wildlife protection and management, the permittee is responsible for the payment of fees associated with the Certificate of Fee Exemption established by the California Department of Fish and Game pursuant to Section 711.4 of the Fish and Game Code. The current fee amount is **\$25.00**. No land use project subject to this requirement is final, vested or operative until the fee is paid.
10. The permittee shall defend, indemnify and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void or annul this permit approval, which action is brought within the applicable time period of Government Code Section 65009 or any other applicable limitation period. The County shall notify the permittee of any claim, action or proceeding and the County shall reasonably cooperate in the defense.
11. In the event that any claim, action, or proceeding as described above is filed against the County, the permittee shall within 10 days of the filing pay Regional Planning an initial deposit of \$5,000.00 from which actual costs shall be billed and deducted for the purpose of defraying the expense involved in the department's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance to the permittee or permittee's counsel. The permittee shall also pay the following supplemental deposits, from which actual costs shall be billed and deducted:

- a. If during the litigation process, actual costs incurred reach 80 percent of the amount of deposit, the permittee shall deposit additional funds sufficient to bring the balance up to the amount of the initial deposit. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation; and
- b. At the sole discretion of the permittee, the amount of an initial or supplemental deposit may exceed the minimum amounts defined herein.

The cost for collection and duplication of records and other related documents will be paid by the permittee in accordance with Section 2.170.010 of the Los Angeles County Code ("County Code").

12. This grant shall expire unless used within two years after the recordation of the final map, or parent map if multiple final maps are filed, for Tentative Tract Map No. 53618. In the event that Tentative Tract Map No. 53618 should expire without the recordation of a final map, this grant shall terminate upon the expiration of the tentative map. Entitlement to the use of the property thereafter shall be subject to the regulations then in effect.
13. No grading permit shall be issued prior to final map recordation, unless otherwise permitted by Regional Planning.
14. The subject property shall be graded, developed and maintained in substantial compliance with the approved tentative tract map. An amended or revised tentative tract map approved for Tentative Tract Map No. 53618 may, at the discretion of the Director of Regional Planning, constitute a revised Exhibit "A." All revised plans require the written authorization of the property owner.
15. All development shall comply with the requirements of Title 22 of the County Code (Zoning Ordinance) and of the specific zoning of the subject property unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of Regional Planning.
16. Submit a copy of the project Covenants, Conditions and Restrictions ("CC&Rs") and maintenance agreements and covenants to Regional Planning for review and approval.
17. The development of the subject property shall comply with all requirements and conditions approved for Tentative Tract Map No. 53618.
18. No structure shall exceed 35 feet in height, except for chimneys and rooftop antennas. Prior to any issuance of a building permit, a site plan including exterior elevations and major architectural features shall be submitted to and approved by the Director of Regional Planning, as a revised Exhibit "A," to ensure compliance.

19. A minimum of 72 automobile parking spaces, as depicted on the approved Exhibit "A" (dated July 21, 2005) or on an approved revised Exhibit "A", shall be provided and continuously maintained on the subject property, developed to the specifications listed in Section 22.52.1060 of the County Code. There shall be at least two covered parking spaces designated for each dwelling unit. There shall be at least 24 guest parking spaces distributed throughout the project site as depicted on the approved Exhibit "A" (dated July 21, 2005) or an approved revised Exhibit "A". The required parking spaces shall be continuously available for vehicular parking only and shall not be used for storage, automobile repair, or any other unauthorized use. Continual availability and maintenance of required parking spaces shall be provided for in the CC&Rs.
20. All utilities shall be placed underground. Prior to the issuance of any building permit, the permittee shall provide evidence that contractual arrangements have been made with the local utilities to install underground all new facilities necessary to furnish services in the proposed development.
21. All structures shall comply with the requirements of the Division of Building and Safety of the Los Angeles County Department of Public Works ("Public Works").
22. Detonation of explosives or any other blasting device or material is prohibited unless required permits have been obtained and adjacent property owners have been notified.
23. All grading and construction on the subject property and appurtenant activities, including engine warm-up, shall be restricted to the hours between 7:00 a.m. and 6:00 p.m. No Saturday, Sunday or holiday operations are permitted. All stationary construction noise sources shall be sheltered or enclosed to minimize adverse effect on nearby residences and neighborhoods. Generator and pneumatic compressors shall be noise protected in a manner that will minimize noise inconvenience to adjacent residences.
24. The permittee shall implement a dust control program during grading and construction to the satisfaction of the Director of Regional Planning and the Director of Public Works.
25. All material graded shall be sufficiently watered to prevent excessive amounts of dust during the construction phase. Watering shall occur at least twice daily with complete coverage, preferably in the late morning and after construction or grading activities is done for the day. All clearing, grading, earth moving or excavation activities shall cease during periods of high wind (i.e. greater than 20 mph average over one hour) to prevent excessive amounts of dust.
26. The permittee shall, upon commencement of any grading activity allowed by this grant, diligently pursue all grading to completion.

27. No construction equipment or vehicles shall be parked or stored on any existing public or private streets.
28. The permittee shall obtain all necessary permits from Public Works and shall maintain all such permits in full force and effect as required throughout the life of this permit.
29. All construction and development within the subject property shall comply with the applicable provisions of the Uniform Building Code and the various related mechanical, electrical, plumbing, fire, grading and excavation codes as currently adopted by the County.
30. All structures, walls and fences open to public view shall remain free of extraneous markings, drawings, or signage. These shall include any of the above that do not directly relate to the use of the property, or that do not provide pertinent information about the premises. The only exceptions shall be seasonal decorations or signage provided under the auspices of a civic or non-profit organization.
31. In the event any such extraneous markings occur, the permittee shall remove or cover said markings, drawings, or signage within 24 hours of such occurrence, weather permitting. Paint utilized in covering such markings shall be of a color that matches, as closely as possible the color of the adjacent surfaces.
32. The permittee shall utilize water-saving devices and technology in the construction of this project consistent with the County Building and Plumbing Codes.
33. The property shall be developed and maintained in compliance with all applicable requirements of the Los Angeles County Department of Health Services ("Health Services"). Adequate water and sewage disposal facilities shall be provided to the satisfaction of said department.
34. If during construction of the project, soil contamination is suspected, construction in the area shall stop, and appropriate health and safety procedures shall be implemented to the satisfaction of Health Services. If it is determined that contaminated soils exist, remediation shall be conducted to the satisfaction of Health Services and the California Regional Water Quality Control Board ("RWQCB").
35. Prior to the issuance of any building permit, the permittee shall demonstrate compliance with State Seismic Hazard Safety laws to the satisfaction of Public Works.
36. Prior to the issuance of any grading permit, the project design shall provide for the filtering of flows to capture contaminants originating from the project site to the satisfaction of and approval by Public Works.

37. The permittee shall comply with the Standard Urban Stormwater Mitigation Plan requirements to the satisfaction of Public Works.
38. During construction, all large-size truck trips shall be limited to off-peak commute periods.
39. During construction, the permittee shall obtain a Caltrans transportation permit as necessary for any transportation of heavy construction equipment and/or materials which requires the use of oversized-transport vehicles on state highways.
40. To divert solid waste, including construction and demolition waste and excavated material, from landfills, all construction contracts entered into by the permittee shall contain a provision for a mandatory 50 percent recycling of construction wastes, and be submitted to Public Works Environmental Programs for review.
41. The proposed project shall implement noise attenuation measures such as double-paned windows for those units along Cypress Street to reduce noise impact from Glen Oak Elementary School.
42. The permittee shall retain the service of a specialist to inspect the project site for the presence of asbestos during demolition of any on-site structures.
43. The permittee shall comply with all pertinent National Pollutant Discharge Elimination System ("NPDES") requirements of RWQCB and Public Works.
44. Prior to the issuance of any grading or building permit, a site plan shall be submitted to and approved by the Director of Regional Planning indicating that the proposed construction and associated grading complies with the conditions of this grant and the standards of the zone.
45. All graded slopes (cut and fill) shall be revegetated. Prior to the issuance of any grading or building permit, three copies of a landscape plan, which may be incorporated into a revised Exhibit "A," shall be submitted to and approved by the Director of Regional Planning. The landscape plan shall show size, type, and location of all plants, trees, and sprinkler facilities, including all landscaping and irrigation. Watering facilities shall consist of a permanent water-efficient irrigation system, such as "bubblers" or drip irrigation.

In addition to the review and approval by the Director of Regional Planning, the landscaping plans will be reviewed by the staff biologist of Regional Planning and the Los Angeles County Forester and Fire Warden ("Forester and Fire Warden"). Their review will include an evaluation of the balance of structural diversity (e.g. trees, shrubs and groundcover) that could be expected 18 months after planting in compliance with fire safety requirements. No invasive species are permitted.

Timing of Planting. Prior to the issuance of grading or building permits for any development, the permittee shall submit a landscaping phasing plan for the

Draft Conditions

landscaping associated with the construction to be approved by the Director of Regional Planning. This phasing plan shall establish the timing and sequencing of the required landscaping, including required plantings within six months and expected growth during the subsequent 18 months

46. The following development program conditions shall apply:

- a. No building or structure of any kind except a temporary structure used only in the developing of the property according to the development program shall be built, erected, or moved onto any part of the property.
- b. No existing building or structure which under the program is to be demolished shall be used.
- c. No existing building or structure which, under the program, is to be altered shall be used until such building or structure has been so altered.
- d. All improvements shall be completed prior to the occupancy of any structures within each phase of development to the satisfaction of the Director of Planning.
- e. Where one or more buildings in the projected development are designated as primary buildings, building permits for structures other than those so designated shall not be issued until the foundations have been constructed for such primary building or buildings.

NEGATIVE DECLARATION

PROJECT NUMBER No. CUP & ZC 04-027/TR 53618

1. DESCRIPTION:

An application for a Tentative Tract Map to remove three existing single-family residences, a detached garage, and a farm house for the purpose of constructing 24 detached, two-story condominium units on four adjoining existing lots. Each unit will have an attached two-car garage, and the entire development will have 24 on-site guest parking spaces. The project proposes two 26' wide driveways and fire lanes, two trash enclosures, 35 drainage catch basins, and areas of common open space. The proposed project will also retain two walls on its eastern and southern ends, erect a 5' high decor active block wall along its western end, and remove all 82 trees on-site. A Zone Change from A-1-10000 to R-2-14U-DP is requested.

2. LOCATION:

21034 E. Cypress Street, Charter Oak, CA 91723

3. PROPONENT:

Jan C. Chien & Hong Jie Pan
215 N. Valencia St.
Alhambra, CA 91801

4. FINDINGS OF NO SIGNIFICANT EFFECT:

BASED ON THE INITIAL STUDY, IT HAS BEEN DETERMINED THAT THE PROJECT WILL NOT HAVE A SIGNIFICANT EFFECT ON THE ENVIRONMENT.

5. LOCATION AND CUSTODIAN OF RECORD OF PROCEEDINGS:

THE LOCATION AND CUSTODIAN OF THE RECORD OF PROCEEDINGS ON WHICH ADOPTION OF THIS NEGATIVE DECLARATION IS BASED IS: DEPARTMENT OF REGIONAL PLANNING, 320 WEST TEMPLE STREET, LOS ANGELES, CA 90012

GENERAL INFORMATION

I.A. Map Date: 1/12/04 Staff Member: Rick Kuo

Thomas Guide: 599-G4 USGS Quad: San Dimas

Location: 21034 E. Cypress Street, Charter Oak, CA 91724

Description of Project: An application for a Tentative Tract Map to remove three existing single-family residences, a detached garage, and a farm house for the purpose of constructing 24 detached, two-story condominium units on four adjoining existing lots. Each unit will have an attached two-car garage, and the entire development will have 24 on-site guest parking spaces. The project proposes two 26' wide driveways and fire lanes, two trash enclosures, 35 drainage catch basins, and areas of common open space. The proposed project will also retain two walls on its eastern and southern ends, erect a 5' high decor active block wall along its western end, and remove all 82 trees on-site. A Zone Change from A-1-10000 to R-2-14U-DP is requested.

Gross Area: 88,200 sq. ft.

Environmental Setting: The proposed project site is located in the unincorporated community of Charter Oak and is bordered to the north by Cypress Street. Land uses within 500 feet consist of Glen Oak Elementary School to the north and condominium units to the east and southeast. Single-family residences surround the project site. There are three existing single-family residences, one detached garage, and one farm house on-site. Project site topography is characterized as flat land.

Zoning: A-1-10000 (Light agriculture)

General Plan: Low density residential (1-6 DU/acre)

Community/Area Wide Plan: N/A

DEVELOPMENT MONITORING SYSTEM (DMS) *

As required by the Los Angeles County General Plan, DMS shall be employed in the Initial Study phase of the environmental review procedure as prescribed by state law.

1. Development Policy Map Designation: Conservation/maintenance
2. Yes No Is the project located in the Antelope Valley, East San Gabriel Valley, Malibu/Santa Monica Mountains or Santa Clarita Valley planning area?
3. Yes No Is the project at urban density and located within, or proposes a plan amendment to, an urban expansion designation?

If both of the above questions are answered "yes", the project is subject to a County DMS analysis.

Check if DMS printout generated (attached)

Date of printout: _____

Check if DMS overview worksheet completed (attached)

*EIRs and/or staff reports shall utilize the most current DMS information available.

Environmental Finding:

FINAL DETERMINATION: On the basis of this Initial Study, the Department of Regional Planning finds that this project qualifies for the following environmental document:

NEGATIVE DECLARATION, inasmuch as the proposed project will not have a significant effect on the environment.

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was determined that this project will not exceed the established threshold criteria for any environmental/service factor and, as a result, will not have a significant effect on the physical environment.

MITIGATED NEGATIVE DECLARATION, inasmuch as the changes required for the project will reduce impacts to insignificant levels (see attached discussion and/or conditions).

An Initial Study was prepared on this project in compliance with the State CEQA Guidelines and the environmental reporting procedures of the County of Los Angeles. It was originally determined that the proposed project may exceed established threshold criteria. The applicant has agreed to modification of the project so that it can now be determined that the project will not have a significant effect on the physical environment. The modification to mitigate this impact(s) is identified on the Project Changes/Conditions Form included as part of this Initial Study.

ENVIRONMENTAL IMPACT REPORT*, inasmuch as there is substantial evidence that the project may have a significant impact due to factors listed above as "significant."

At least one factor has been adequately analyzed in an earlier document pursuant to legal standards, and has been addressed by mitigation measures based on the earlier analysis as described on the attached sheets (see attached Form DRP/IA 101). The EIR is required to analyze only the factors not previously addressed.

Reviewed by: *Rick Rino* Date: *March 3, 2005*

Approved by: *Daryl Kortink* Date: *8 MARCH 2005*

This proposed project is exempt from Fish and Game CEQA filing fees. There is no substantial evidence that the proposed project will have potential for an adverse effect on wildlife or the habitat upon which the wildlife depends. (Fish & Game Code 753.5).

Determination appealed--see attached sheet.

*NOTE: Findings for Environmental Impact Reports will be prepared as a separate document following the public hearing on the project.

HAZARDS - 1. Geotechnical

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site located in an active or potentially active fault zone, Seismic Hazards Zone, or Alquist-Priolo Earthquake Fault Zone?
1/4 mile from Walnut Creek Fault (LA County Safety Element- Fault Rupture Hazards and Historic Seismicity Map and State of CA Seismic Hazard Zones Map - San Dimas Quad).
- b. Is the project site located in an area containing a major landslide(s)?
(State of CA Seismic Hazard Zones Map - San Dimas Quad).
- c. Is the project site located in an area having high slope instability?

- d. Is the project site subject to high subsidence, high groundwater level, liquefaction, or hydrocompaction?
(State of CA Seismic Hazard Zones Map - San Dimas Quad).
- e. Is the proposed project considered a sensitive use (school, hospital, public assembly site) located in close proximity to a significant geotechnical hazard?

- f. Will the project entail substantial grading and/or alteration of topography including slopes of more than 25%?
Grading involves 250 cubic yards.
- g. Would the project be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?

- h. Other factors? _____

STANDARD CODE REQUIREMENTS

Building Ordinance No. 2225 C Sections 308B, 309, 310 and 311 and Chapters 29 and 70.

MITIGATION MEASURES / OTHER CONSIDERATIONS

Lot Size

Project Design

Approval of Geotechnical Report by DPW

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **geotechnical** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 2. Flood

SETTING/IMPACTS

- Yes No Maybe
- a. Is a major drainage course, as identified on USGS quad sheets by a dashed line, located on the project site?
(USGS San Dimas Quad). _____
- b. Is the project site located within or does it contain a floodway, floodplain, or designated flood hazard zone?
Adjacent to San Dimas Dam flood boundary (LA County Safety Element - Flood and Inundation Hazards Map). _____
- c. Is the project site located in or subject to high mudflow conditions?

- d. Could the project contribute or be subject to high erosion and debris deposition from runoff?

- e. Would the project substantially alter the existing drainage pattern of the site or area?

- f. Other factors (e.g., dam failure)? _____

STANDARD CODE REQUIREMENTS

- Building Ordinance No. 2225 C Section 308A Ordinance No. 12,114 (Floodways)
 Approval of Drainage Concept by DPW

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design
- _____

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **flood (hydrological)** factors?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 3. Fire

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site located in a Very High Fire Hazard Severity Zone (Fire Zone 4)? 1/4 mile from Fire Zone 4 (LA County Safety Element - Wildland and Urban Fire Hazards Map).
 - b. Is the project site in a high fire hazard area and served by inadequate access due to lengths, widths, surface materials, turnarounds or grade?

 - c. Does the project site have more than 75 dwelling units on a single access in a high fire hazard area? _____
 - d. Is the project site located in an area having inadequate water and pressure to meet fire flow standards? _____
 - e. Is the project site located in close proximity to potential dangerous fire hazard conditions/uses (such as refineries, flammables, explosives manufacturing)?

 - f. Does the proposed use constitute a potentially dangerous fire hazard?

 - g. Other factors? _____

STANDARD CODE REQUIREMENTS

Water Ordinance No. 7834 Fire Ordinance No. 2947 Fire Regulation No. 8

Fuel Modification/Landscape Plan

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

Project Design

Compatible Use

Applicant shall comply with Subdivision Committee's recommendations from the Fire Department.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by **fire hazard** factors?

Potentially significant Less than significant with project mitigation Less than significant/No impact

HAZARDS - 4. Noise

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site located near a high noise source (airports, railroads, freeways, industry)?

- b. Is the proposed use considered sensitive (school, hospital, senior citizen facility) or are there other sensitive uses in close proximity?
Glen Oak Elementary School is across the street from project site, however, its entrance is on Sunflower Avenue.

- c. Could the project substantially increase ambient noise levels including those associated with special equipment (such as amplified sound systems) or parking areas associated with the project?

- d. Would the project result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels without the project?
Temporary construction noise.

- e. Other factors? _____

STANDARD CODE REQUIREMENTS

- Noise Ordinance No. 11,778 Building Ordinance No. 2225--Chapter 35

MITIGATION MEASURES / OTHER CONSIDERATIONS

- Lot Size Project Design Compatible Use

Comment letter dated 6/24/04 from DHS-Environmental Hygiene Division on file.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be adversely impacted by **noise**?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 1. Water Quality

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site located in an area having known water quality problems and proposing the use of individual water wells?
Project served by Southern California Water Company.
- b. Will the proposed project require the use of a private sewage disposal system?
Project served by the County of Los Angeles Sanitation Districts.
- If the answer is yes, is the project site located in an area having known septic tank limitations due to high groundwater or other geotechnical limitations or is the project proposing on-site systems located in close proximity to a drainage course?
- c. Could the project's associated construction activities significantly impact the quality of groundwater and/or storm water runoff to the storm water conveyance system and/or receiving water bodies?
Home subdivisions of 10 or more units are subject to NPDES compliance.
- d. Could the project's post-development activities potentially degrade the quality of storm water runoff and/or could post-development non-storm water discharges contribute potential pollutants to the storm water conveyance system and/or receiving bodies?
Home subdivisions of 10 or more units are subject to NPDES compliance.
- e. Other factors? _____

STANDARD CODE REQUIREMENTS

- Industrial Waste Permit Health Code Ordinance No. 7583, Chapter 5
- Plumbing Code Ordinance No. 2269 NPDES Permit Compliance (DPW)

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **water quality** problems?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 2. Air Quality

SETTING/IMPACTS

- Yes No Maybe
- a. Will the project increase local emissions to a significant extent due to increased traffic congestion or use of a parking structure, or exceed AQMD thresholds of potential significance?

- b. Is the proposal considered a sensitive use (schools, hospitals, parks) and located near a freeway or heavy industrial use?

- c. Will the project generate or is the site in close proximity to sources which create obnoxious odors, dust, and/or hazardous emissions?

- d. Would the project conflict with or obstruct implementation of the applicable air quality plan?

- e. Would the project violate any air quality standard or contribute substantially to an existing or projected air quality violation?

- f. Would the project result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?

- g. Other factors: _____

STANDARD CODE REQUIREMENTS

- Health and Safety Code Section 40506
- MITIGATION MEASURES** / **OTHER CONSIDERATIONS**
- Project Design Air Quality Report

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on, or be impacted by, **air quality**?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 3. Biota

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site located within a Significant Ecological Area (SEA), SEA Buffer, or coastal Sensitive Environmental Resource (ESHA, etc.), or is the site relatively undisturbed and natural?
(County of Los Angeles SEA Map).
- b. Will grading, fire clearance, or flood related improvements remove substantial natural habitat areas?
- c. Is a major drainage course, as identified on USGS quad sheets by a blue, dashed line, located on the project site?
(USGS San Dimas Quad).
- d. Does the project site contain a major riparian or other sensitive habitat (e.g., coastal sage scrub, oak woodland, sycamore riparian woodland, wetland, etc.)?
- e. Does the project site contain oak or other unique native trees (specify kinds of trees)?
One non-ordinance sized oak tree.
- f. Is the project site habitat for any known sensitive species (federal or state listed endangered, etc.)?
- g. Other factors (e.g., wildlife corridor, adjacent open space linkage)?

MITIGATION MEASURES / OTHER CONSIDERATIONS

- Lot Size Project Design Oak Tree Permit ERB/SEATAC Review

Project site has 81 non-oak trees and one non-ordinance sized oak tree. All are proposed to be removed.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on **biotic resources**?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 4. Archaeological / Historical / Paleontological

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site in or near an area containing known archaeological resources or containing features (drainage course, spring, knoll, rock outcroppings, or oak trees) which indicate potential archaeological sensitivity?
One oak tree.
- b. Does the project site contain rock formations indicating potential paleontological resources?
- c. Does the project site contain known historic structures or sites?
- d. Would the project cause a substantial adverse change in the significance of a historical or archaeological resource as defined in 15064.5?
- e. Would the project directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
- f. Other factors?

MITIGATION MEASURES / OTHER CONSIDERATIONS

- Lot Size Project Design Phase I Archaeology Report

Oak tree is non-ordinance size.

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **archaeological, historical, or paleontological** resources?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 5. Mineral Resources

SETTING/IMPACTS

- Yes No Maybe
- a. Would the project result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?

- b. Would the project result in the loss of availability of a locally important mineral resource discovery site delineated on a local general plan, specific plan or other land use plan?

- c. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **mineral** resources?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 6. Agriculture Resources

SETTING/IMPACTS

- Yes No Maybe
- a. Would the project convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

- b. Would the project conflict with existing zoning for agricultural use, or a Williamson Act contract?

- c. Would the project involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?

- d. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

Lot Size Project Design

CONCLUSION

Considering the above information, could the project leave a significant impact (individually or cumulatively) on **agriculture** resources?

Potentially significant Less than significant with project mitigation Less than significant/No impact

RESOURCES - 7. Visual Qualities

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site substantially visible from or will it obstruct views along a scenic highway (as shown on the Scenic Highway Element), or is it located within a scenic corridor or will it otherwise impact the viewshed?

- b. Is the project substantially visible from or will it obstruct views from a regional riding or hiking trail?

- c. Is the project site located in an undeveloped or undisturbed area, which contains unique aesthetic features? _____

- d. Is the proposed use out-of-character in comparison to adjacent uses because of height, bulk, or other features?

- e. Is the project likely to create substantial sun shadow, light or glare problems?

- f. Other factors (e.g., grading or land form alteration): _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Lot Size Project Design Visual Report Compatible Use
- _____
- _____

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on **scenic** qualities?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 1. Traffic/Access

SETTING/IMPACTS

- Yes No Maybe
- a. Does the project contain 25 dwelling units, or more and is it located in an area with known congestion problems (roadway or intersections)?

 - b. Will the project result in any hazardous traffic conditions?

 - c. Will the project result in parking problems with a subsequent impact on traffic conditions?
Forty eight attached and 24 on-site guest parking spaces will be provided.
 - d. Will inadequate access during an emergency (other than fire hazards) result in problems for emergency vehicles or residents/employees in the area?

 - e. Will the congestion management program (CMP) Transportation Impact Analysis thresholds of 50 peak hour vehicles added by project traffic to a CMP highway system intersection or 150 peak hour trips added by project traffic to a mainline freeway link be exceeded?

 - f. Would the project conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?

 - g. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

- Project Design Traffic Report Consultation with Traffic & Lighting Division
- _____
- _____

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **traffic/access** factors?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 2. Sewage Disposal

SETTING/IMPACTS

- Yes No Maybe
- a. If served by a community sewage system, could the project create capacity problems at the treatment plant?

- b. Could the project create capacity problems in the sewer lines serving the project site?

- c. Other factors? _____

STANDARD CODE REQUIREMENTS

- Sanitary Sewers and Industrial Waste Ordinance No. 6130
- Plumbing Code Ordinance No. 2269

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **sewage disposal** facilities?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 3. Education

SETTING/IMPACTS

- Yes No Maybe
- a. Could the project create capacity problems at the district level?
Project served by Charter Oak Unified School District.
- b. Could the project create capacity problems at individual schools which will serve the project site?
- c. Could the project create student transportation problems?
- d. Could the project create substantial library impacts due to increased population and demand?
- e. Other factors?

MITIGATION MEASURES / OTHER CONSIDERATIONS

- Site Dedication Government Code Section 65995 Library Facilities Mitigation Fee

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **educational** facilities/services?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 4. Fire/Sheriff Services

SETTING/IMPACTS

- Yes No Maybe
a. Could the project create staffing or response time problems at the fire station or sheriff's substation serving the project site?

Nearest fire station is 2.3 miles away at 64 S. Walnut Ave., San Dimas, CA.

- b. Are there any special fire or law enforcement problems associated with the project or the general area?

Nearest Sheriff's station is 2.2 miles away at 122 N. San Dimas Ave., San Dimas, CA.

- c. Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

Fire Mitigation Fees

CONCLUSION

Considering the above information, could the project have a significant impact (individually orcumulatively) relative to **fire/sheriff** services?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

SERVICES - 5. Utilities/Other Services

SETTING/IMPACTS

- Yes No Maybe
- a. Is the project site in an area known to have an inadequate public water supply to meet domestic needs or to have an inadequate ground water supply and proposes water wells?
Water supply to be provided by Southern California Water Company.
- b. Is the project site in an area known to have an inadequate water supply and/or pressure to meet fire fighting needs?
- c. Could the project create problems with providing utility services, such as electricity, gas, or propane?
Utility services provided by Southern California Gas Company, Southern California Edison, and AT&T.
- d. Are there any other known service problem areas (e.g., solid waste)?
- e. Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services or facilities (e.g., fire protection, police protection, schools, parks, roads)?
- f. Other factors? _____

STANDARD CODE REQUIREMENTS

- Plumbing Code Ordinance No. 2269 Water Code Ordinance No. 7834
- MITIGATION MEASURES** / **OTHER CONSIDERATIONS**
- Lot Size Project Design

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) relative to **utilities/services**?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 1. General

SETTING/IMPACTS

- Yes No Maybe
- a. Will the project result in an inefficient use of energy resources?

- b. Will the project result in a major change in the patterns, scale, or character of the general area or community?

- c. Will the project result in a significant reduction in the amount of agricultural land?

- d. Other factors? _____

STANDARD CODE REQUIREMENTS

State Administrative Code, Title 24, Part 5, T-20 (Energy Conservation)

MITIGATION MEASURES / OTHER CONSIDERATIONS

Lot size Project Design Compatible Use

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to any of the above factors? _____

Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 2. Environmental Safety

SETTING/IMPACTS

- | | Yes | No | Maybe | |

MITIGATION MEASURES / OTHER CONSIDERATIONS

Toxic Clean up Plan

CONCLUSION

Comment letter from DPW - Environmental Programs Division (6/29/04) and Limited Phase I Environmental Site Assessment (6/2/03) from EGL Inc. on file. There is no evidence showing soil toxicity, however, applicant shall retain the service of a specialist to inspect the project site for the presence of asbestos during demolition of structures on-site.

Considering the above information, could the project have a significant impact relative to **public safety**?

Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 3. Land Use

SETTING/IMPACTS

- Yes No Maybe
- a. Can the project be found to be inconsistent with the plan designation(s) of the subject property?
Twenty four units in low density residential category.
- b. Can the project be found to be inconsistent with the zoning designation of the subject property?
Maximum density allowed for project site is 12 DU.
- c. Can the project be found to be inconsistent with the following applicable land use criteria:
 Hillside Management Criteria?
 SEA Conformance Criteria?
 Other? _____
- d. Would the project physically divide an established community?

- e. Other factors? _____

MITIGATION MEASURES / OTHER CONSIDERATIONS

Zone change and infill findings proposed.

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **land use** factors?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

OTHER FACTORS - 4. Population/Housing/Employment/Recreation

SETTING/IMPACTS

- Yes No Maybe
- a. Could the project cumulatively exceed official regional or local population projections?

- b. Could the project induce substantial direct or indirect growth in an area (e.g., through projects in an undeveloped area or extension of major infrastructure)?

- c. Could the project displace existing housing, especially affordable housing?

- d. Could the project result in a substantial job/housing imbalance or substantial increase in Vehicle Miles Traveled (VMT)?

- e. Could the project require new or expanded recreational facilities for future residents?

- f. Would the project displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?

- g. Other factors? _____

MITIGATION MEASURES / **OTHER CONSIDERATIONS**

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the physical environment due to **population, housing, employment, or recreational** factors?

- Potentially significant Less than significant with project mitigation Less than significant/No impact

MANDATORY FINDINGS OF SIGNIFICANCE

Based on this Initial Study, the following findings are made:

- Yes No Maybe
- a. Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?
-
- b. Does the project have possible environmental effects which are individually limited but cumulatively considerable? "Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.
-
- c. Will the environmental effects of the project cause substantial adverse effects on human beings, either directly or indirectly?
-

CONCLUSION

Considering the above information, could the project have a significant impact (individually or cumulatively) on the environment?

- Potentially significant Less than significant with project mitigation Less than significant/No impact
