The Los Angeles County Department of Regional Planning is working on new regulations to implement the Community Climate Action Plan 2020 (CCAP) in unincorporated areas. These regulations will amend Title 22, the Planning and Zoning Code, in four areas:

- **Title 22 Compatibility for Cool Roofs and Cool Pavement**
- **Idle Reduction for Vehicles in Loading Zones**
- **Electric Vehicle Infrastructure as an Accessory Use**
- **Secondary Uses Under High-Voltage Power Lines**

These regulations are one of the many efforts by the County of Los Angeles to reduce greenhouse gas emissions, as outlined in the CCAP and to meet the requirements of Assembly Bill (AB) 32, the California Global Warming Solutions Act. For more information on the CCAP and to review the draft regulations, please visit our webpage at: [http://planning.lacounty.gov/ccapio2016](http://planning.lacounty.gov/ccapio2016)

If you have questions or comments on the CCAP Implementation Ordinances 2016, please contact the Ordinance Studies Section at:
