Re: Item 6, Dec. 10,2014: General Plan Update (Plan Amendment No. 02-305)

Dear Chair and Members of the Commission,

I appreciate the opportunity to provide written testimony on this item.

In the General Plan Draft 2014 Comments and Comment Matrix, parts of my former testimony were incomplete and recorded out of context. Also, despite my active engagement, I have not been sufficiently informed on the impacts the certification of the General Plan Update (also in concert with the LCP, LUP, and LIP) would have on me, my property and quality of life.

It is reasonably foreseeable that adoption and implementation of the proposed Los Angeles County General Plan Update (also in concert with the LCP, LUP, LIP) and the Mitigation Monitoring and Reporting Program for the Project as it is modified, would result in significant adverse environmental and biological impacts/effects, which in turn would adversely impact/effect social, economic, legal, cultural, traditional, spiritual and "other considerations" for myself and many, if not most Native Americans and all.

Respectfully submitted,

Ms. Babe Kirkpatrick (Garside)
