This is a terrible and totally disruptive idea to those of us making a deliberate choice to live in a rural location. We have chosen to live where we look out our windows and see countryside and all the vegetation and animals inherent to the area. We do not look out our windows and see what the neighbor is doing in his house, which is the case of city living. This is definitely the case of "if it ain't broke, don't fix it. Leave it alone". Please listen to the people who live in the area, have lived in the area, and wish to continue to live in a true rural area.

Thank you, Marilynne Kredo, 7647 Valley Sage Rd, Acton, CA 93510
