1. Introduction

The Hacienda Heights Community Plan is a reflection of the community's shared vision of the future. It identifies specific goals and policies to achieve that vision. Development of the Plan was driven by the dedicated people who live, learn, work, and play in Hacienda Heights. Their insights and observations helped to identify crucial issues and assets in the community, and their foresight and values culminated in a clear vision of Hacienda Heights in 2030. The community's recommendations formed the basis of the Plan's goals and policies, and their commitment to positive change inspired the implementation actions. Continued community participation, coupled with strong leadership by the Los Angeles County Board of Supervisors and service providers, will ensure that the Plan continues to meet residents' needs today and achieves their vision of the future tomorrow.

The Community

Setting

Nestled in southern Los Angeles County's Puente Hills, Hacienda Heights is an 11.38 square mile area located approximately 20 miles east of downtown Los Angeles. Elevations range from 350 feet to 1150 feet. The community is bounded on the north by the City of Industry, on the south by the cities of Whittier and La Habra Heights, on the west by the unincorporated area of North Whittier, and on the east by the unincorporated community of Rowland Heights.

The formerly agricultural community is known today, as it has been since the 1960s, as a residential community. An attractive and mature community, Hacienda Heights was home to approximately 60,000 residents in

2000. The quiet residential community is both ethnically and economically diverse, and residents value a peaceful way of life, scenic views, lovely parks and excellent schools.

For a map of Hacienda Heights and the immediate vicinity, please see Map 1: Community Boundary.

History

Hacienda Heights has a rich history that traces back through the Gabrielino Indians, Spanish missionaries, European merchants, Mexican ranchers, and California farmers. Known for most of the first half of the 20th Century as an agricultural community, Hacienda Heights earned its reputation by producing an abundance of citrus, walnuts and avocados. The fertile land yielded more than crops; it provided good jobs. Growers, packers, engineers, nursery owners, laborers and others were drawn by the employment opportunities and the beautiful vistas.

Aerial view of Hacienda Heights, 1965

Young families built and occupied a range of homes, all individually designed, from modest farm houses to elaborate structures nestled high in the hills. With farms connected by rail to commerce centers throughout the region, the area enjoyed a successful agricultural era. However, starting with the Great Depression and continuing into the early 1940s, these

trends changed as citrus growing became unprofitable due to pests and diseases. After World War II, the region experienced a building boom that eventually edged out crops in favor of suburban development.

In the early 1950s, subdivisions started around Kwis Avenue, and soon post-war growth in the valley spurred growth in the school system with the construction of new schools. In the 1950s, new school buildings were opened and, in 1957 the City of Industry was incorporated. With little commercial or industrial uses remaining, Hacienda Heights was established as a predominantly residential community. In 1960, the Hacienda Heights Branch of the Los Angeles County Public Library opened and soon after developers started removing orange trees and developing along Hacienda Boulevard.

The 1960s saw a great deal of change: in 1961, the community's name was changed from North Whittier Heights to Hacienda Heights; in 1964, the 60 Freeway was extended past the 605; and *The Highlander* newspaper started reporting local events. At the same time, the fruit packing house barracks for seasonal workers were sold and turned into the first school and first Methodist Church.

Development in Hacienda Heights intensified in the 1970s and the community began experiencing issues that accompany rapid growth, with residents concerned about adequate services, particularly police and parks. Throughout this time, some residents expressed sentiments to incorporate. However, by working closely with the Department of Regional Planning, the Hacienda Heights Improvement Association led the development of a community plan for Hacienda Heights. The plan was adopted by the Los Angeles County Board of Supervisors in 1978.

While Hacienda Heights experienced some difficulties in the 1980s and 1990s, which

included a landslide and a fire, the community remained strong and connected. Hacienda Heights has a consistent history of overcoming adversity and maintaining a small-town feel, rich with picturesque residential areas, beautiful views, excellent schools and parks, and cultural institutions. Neighbors from diverse cultural backgrounds know and respect each other, children are provided for at home and challenged at school, and newcomers can partake in the same benefits residents have long enjoyed, such as open spaces, scenic vistas, and a well-earned sense of community.

Students at Los Altos High School

The Plan

Community Plan Format and Content

The plan is organized into four chapters. Chapter 1 introduces the community, the plan and the community's vision statement. Chapter 2 discusses how the community's vision translates into a development pattern through the concept of land use. Chapter 3 moves the plan from a geographically based land use plan to community-wide goals and policies. Finally, Chapter 4 contains implementation actions and programs.

Purpose

The purpose of the Community Plan is to provide a roadmap for Hacienda Heights to achieve the community's shared vision of the

future. Through the community planning process, residents of Hacienda Heights identified where they envisioned their community to be in the future. Through the Plan's goals and policies they laid out a clear path to attain their vision. The Community Plan is a concise statement of the community's priorities and desires. It informs decision-making at all levels to focus individual actions for rational change. It is a tool for residents, elected officials, planners, service providers and developers.

Each group will use the Plan in different ways, but all are guided by the Plan's vision, goals and policies. Elected officials and planners refer to the Plan when allocating resources to address residents' most important issues and priorities. Residents use the Plan as a benchmark in attaining their aspirations for the development and preservation of their community. Developers look to the Plan's goals and policies in making decisions regarding what to build and the location, character and appearance of new development. Service providers can use the Plan as a guide for deciding which infrastructure and improvement projects should be undertaken and which programs should be established or improved. The Plan is a blueprint for future growth and development in the community that helps to ensure that individual activities are consistent with and supportive of the community vision.

Basketball court at Steinmetz Park

Relationship to the General Plan and Countywide Objectives

A component of the Los Angeles County General Plan, the Hacienda Heights Community Plan refines the countywide goals and policies in the General Plan by addressing specific issues relevant to Hacienda Heights, such as community maintenance and appearance, and provides more specific guidance on elements already found in the General Plan. The General Plan provides guidance on all issues not covered in the Community Plan.

The Community Plan also helps to further the countywide objective of reducing greenhouse gases in order to meet the goals of, or the California Global Warming Solutions Act of 2006 (Assembly Bill 32) and, the California's Sustainable Communities and Climate Protection Act (Senate Bill 375), which aim to achieve reductions of greenhouse gases. Los Angeles County has undertaken countywide measures to address these mandates, including adoption of the Green Building, Drought Tolerant Landscaping, and Low Impact Development Ordinances in 2008. The Community Plan strengthens these efforts by including goals and policies to support local development practices and initiatives to reduce greenhouse gas emissions.

Past and Current Planning Efforts

The first Community General Plan for Hacienda Heights was adopted by the Los Angeles County Board of Supervisors on October 31, 1978. That Plan was prepared by the Hacienda Heights Planning Advisory Committee, working in conjunction with the staff of the Department of Regional Planning. It contained community-wide goals and specific policies pertaining to land use, circulation, scenic highways, environmental resource management, housing, and noise. This Plan replaces the previous Plan in its entirety.

This updated plan covers most of the issues that were important to the community thirty-plus years ago; for example, managing growth, minimizing disruption of ecological resources, placing development aware from natural hazards, and ensuring a variety of housing types and costs. This Plan also addresses new issues that have emerged in recent years; for example, improving and maintaining the appearance of commercial areas, improving mobility, and serving community members of all ages. Finally, the Plan establishes a framework for Plan implementation over many years.

Planning Values

All aspects of the Community Plan are informed by a set of core values that ground and guide the Plan. The core values of the Hacienda Heights Community Plan are:

Collaboration: The issues and actions identified in the Community Plan are multi-dimensional and complex. As such, it takes a collaborative effort to accomplish the Plan's goals. Working in partnership with individuals from public agencies, private organizations, and throughout the community, participants in planning and implementation of the Plan can come together to achieve the community's vision.

Participation: The dedicated commitment and ongoing participation of community members, service providers and elected officials will ensure that the Plan's implementation over time remains in line with the community vision. Community participation also demonstrates to elected leaders and service providers that constituents support the implementation of the Plan and expect results.

Accountability: By adopting this Plan, elected leaders have expressed their commitment to achieving the community's vision by adhering to the Plan's goals and policies and by using the

implementation actions to guide their work. Accountability means that all stakeholders take responsibility for their respective components of the Plan.

Community Oversight: This Plan was guided by and created for community members and stakeholders. Their oversight is critical to ensuring that the Plan remains true to their collective vision. Oversight is built into the Plan to achieve this through continued partnerships and open communication between residents, stakeholders, and service providers.

Stewardship: In order for the Community Plan to be effective in achieving the community's goals, people who live, learn, work, and play in Hacienda Heights will have to take an active role in ensuring the Plan's timely and thorough implementation. Community members and service providers can and should provide feedback on and insights into the Plan's effectiveness.

Community Priorities and Vision

Community Participation

The Plan is the result of a highly inclusive and extensive community participation program launched in the summer of 2007. Residents and other stakeholders worked alongside planners to develop a shared vision of the future, identify community issues, draft proposals for the future, and prioritize their recommendations.

Community members reach consensus on a shared vision

Through a series of community meetings and activities, including some for students, planners shared their knowledge of planning with residents and stakeholders, and those residents and stakeholders shared their knowledge of the community with the planners, and together they formed the foundation of the Plan.

Building on the foundation laid by the community, planners partnered with other County departments to explore the recommendations, refine the proposed goals and policies, plan for program implementation, and gather support to ensure success. Plan development is an iterative process, and in this case, the community was included in even the earliest steps of development and subsequent rounds of review. The Plan began with and will be realized by the dedicated residents and stakeholders who have committed, and will continue to commit, their time, energy and interests to Hacienda Heights.

Community Issues and Priorities

Throughout the participation process, community representatives organized their activities around the following self-selected priority issues: Land Use and Development, Transportation, Community Services, Health

and Safety, Housing, Maintenance and Appearance, Open Space and Recreation, and Youth Planning. In the process, residents identified key issues within each category and developed and prioritized goals. Distinctions were made between short-term and long-term goals and those which could be addressed by the community versus those that required assistance from the County and service providers. These draft goals and policies served as the basis for the final goals, policies, and implementation actions of the community plan.

Vision Statement

At the heart of the County's approach to community planning is the idea that the Plan is an adopted version of the community's aspirations for the future. Collectively, those aspirations amount to a community vision, based on shared values and common goals. The community reached consensus on the following vision statement:

In the year 2015 and beyond, Hacienda Heights is a safe, clean residential community where residents from diverse cultural and religious backgrounds co-exist and cooperate. We are proud of our homes and value our natural surroundings, especially the view of our hills and our wildlife areas. Our well-designed and maintained commercial areas, streets, and public spaces provide residents of all ages with a diversity of activities, products, and services. The community is well-planned and well-connected, and the efficient transportation network makes getting around easy. Our great schools, new healthcare facilities, state-of-the-art multipurpose center and many parks make our community ideal for families.

2. Land Use

The Land Use Section of the Community Plan identifies various land use designations for the community, provides detailed descriptions of what is allowed in each designated category, and discusses zones that are compatible with each land use designation. Land use designations provide parameters regarding allowable uses and densities for a particular piece of land on a lot-by-lot basis. Each land use designation has a specific purpose that takes into account the land's physical features, technical data, and contextual characteristics.

Land use guides community development over time

Meeting the Challenges of Community Growth

Like much of the County, the San Gabriel Valley region is expected to increase in population in coming years. To be consistent with the Los Angeles County General Plan, community plans are required to address projected increases to ensure that adequate resources will be available to serve and house those additional people. Given the scarcity of remaining undeveloped land, managing resources and directing development to the most suitable areas is particularly important.

By identifying the most appropriate areas for increased density, the Land Use Chapter of the Hacienda Heights Community Plan allows for

proactively accommodating this projected growth while preserving community character and other assets the community values. Areas conducive to increased density include those that are located along existing transit lines, in close proximity to commercial areas and public facilities, and in areas free of natural hazards.

While Hacienda Heights is a predominantly residential community, the land use map also preserves existing commercial and industrial uses, expands open space, and allows mixed use development in commercial areas to maintain the relatively few but important jobs in the community.

Land Use Map

The Community Plan land use map identifies land use designations for all parcels within Hacienda Heights. The map is based on a comprehensive land use analysis that explored: existing conditions such as density and environmental constraints; projected population and housing needs; transit availability; the community's vision for growth and sustainability; and, other long-term plans from regional and neighboring jurisdictions.

The key findings of these analyses were: future growth must be directed where existing infrastructure and context permit; the amount of commercial areas is appropriate (although the appearance and mix of commercial uses may be improved); and, the remaining undeveloped hillside and environmentally sensitive areas are sparse and should be preserved. In addition, the map is designed to be consistent with the designations and principles of the Los Angeles County General Plan.

For a map of the proposed land use designations, please see Map 2: Proposed Land Use.

Land Use Designations

To assist residents, planners, service providers, and local decision-makers in interpreting and understanding the Plan's land use designations, this section provides a detailed description of each land use designation in the Plan's land use map, including the purpose, appropriate uses, locations of areas within the community and corresponding designations.

Rural

Purpose:

To provide lands suitable for agricultural production; preserve areas of significant natural and scenic resources; and, limit intensive development, especially in areas subject to natural hazards or lacking in essential services and infrastructure.

Intended Uses:

Include single family residential development, rural, equestrian, agricultural and other related activities, and local serving, ancillary commercial uses.

Location:

Found in the sloping, hilly southwest, south, and southeastern portions of the community.

Designation(s):

Rural Lands 2 (RL2)
Rural Lands 10 (RL10)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Residential

Purpose:

To provide lands suitable for a range of housing types to meet the needs and income levels of economically and socially diverse residents,

protect the residential character of these areas, and meet the needs of future populations.

Intended Uses:

Include single-family attached, detached and multi-family residential developments.

Location:

Found throughout; residential areas are the predominant type of land use in the community.

Designation(s):

Residential 2 (H2)
Residential 5 (H5)
Residential 9 (H9)
Residential 18 (H18)
Residential 30 (H30)
Residential 50 (H50)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Open Space

Purpose:

To provide for the preservation of lands for environmental, natural, historical and cultural resource conservation; and, to continue to provide recreational opportunities and preserve natural and wildlife areas for generations.

Intended Uses:

Includes land designated for conservation and recreational uses.

Location:

Throughout the community in the form of parks and preserved natural areas.

Designation(s):

Open Space Conservation (OS-C)
Open Space Parks and Recreation (OS-PR)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Public and Semi-Public

Purpose:

To provide lands suitable for range of public, quasi-public, and sometimes private facilities and infrastructure.

Intended Uses:

Includes community-serving uses such as schools, major facilities such as landfills, and utilities such as drainage channels.

Location:

Throughout the community.

Designation(s):

Community Serving (P-C)
Utilities (P-U)
Transportation Corridor (P-T)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Commercial

Purpose:

To provide lands suitable for a variety of retail, offices, restaurants, businesses, and service establishments that meet the needs of residential neighborhoods.

Intended Uses:

Includes local serving commercial, office and professional businesses, retail and service establishments.

Location:

In areas along Hacienda Boulevard, Gale Avenue, Azusa Avenue, and Colima Road.

Designation(s):

General Commercial (CG)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Industrial

Purpose:

To provide lands suitable for job sites and economic generators.

Intended Uses:

Includes industrial and industrial-park activities.

Location:

Found north of the 60 Freeway adjacent to similar uses in the City of Industry.

Designation(s):

Light Industrial (IL)

Permitted densities and further information on intended uses for each designation can be found in Table 1.

Land Use Overlays

Land use overlays, where applied, further guide land use decisions and define County land use planning policies. In Hacienda Heights, two overlays serve to identify important resources and protect against hazards in the community. Referred to collectively as Special Management Areas (SMA), these overlays are described below.

Significant Ecological Area Overlay

The Significant Ecological Area (SEA) Overlay identifies lands containing important biological resources in an effort to conserve the County's diverse ecological heritage. Decisions regarding the type and intensity of uses permitted within

SEAs shall be governed by both the land use designation and the SEA ordinance. A full description of the SEA Program is contained in the Biological Resources section of the Conservation and Open Space Element and the Technical Appendix to the Los Angeles County General Plan.

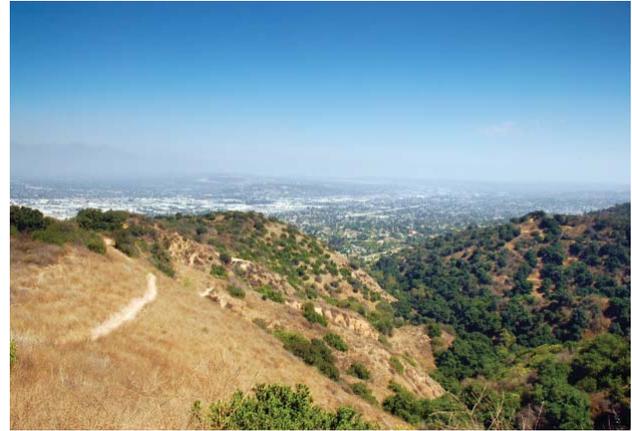

One newly formed SEA is designated in Hacienda Heights. The Puente Hills Significant Ecological Area (SEA) is located in the Puente Hills in southeastern Los Angeles County. The SEA includes portions of the Whittier Narrows Dam Recreation Area and Flood Control Basin and most of the undeveloped land in the Puente Hills in Los Angeles County. The Puente Hills SEA encompasses the remaining relatively undisturbed habitat areas in the Los Angeles County portion of the Puente Hills. In Hacienda Heights, these include portions of Turnbull Canyon in the southwest portion of the community and Powder Canyon in the southeast portion of the community.

Hillside Management Overlay

The Hillside Management Overlay provides direction for development located on parcels with slopes greater than 25 percent. The intent of the overlay is to protect the public from natural hazards associated with very steep hillsides and to mitigate the effects of development and grading on the County's scenic resources through hillside preservation. Hillside Management is discussed in the Scenic Resources section of the Conservation and Open Space Element of the Los Angeles County General Plan and the regulatory provisions of hillside management can be found in Title 22, the County's Zoning Code. In Hacienda Heights, areas above 25 percent slope exist in the southern portions of the community and in the western slopes around the Puente Hills Landfill. Decisions regarding the type and intensity of uses permitted in these Hillside Management areas shall be governed by both the land use

designation and the Hillside Management Area Ordinance.

For a map of the land use overlays, please see Map 3: Land Use Overlays.

Hillside areas

Table 1. Hacienda Heights Land Use Categories*

Land Use	Code	Permitted Density or Floor Area Ratio	Intended Uses
RURAL			
Rural Land	RL1	Maximum 1 du/1 ac	Rural land uses include single family residential development, rural, equestrian, agricultural and other related activities, and local serving, ancillary commercial uses.
	RL2	Maximum 1 du/2 ac	
	RL5	Maximum 1 du/5 ac	
	RL10	Maximum 1 du/10 ac	
RESIDENTIAL			
Residential 2	H2	0–2 du/ac	Single -family detached residential development
Residential 5	H5	0–5 du/ac	Single-family detached residential development
Residential 9	H9	0–9 du/ac	Single-family detached residential development
Residential 18	H18	0–18 du/ac	Single-family attached and detached residential development; small lot subdivisions; duplexes, triplexes, fourplexes, rowhouses, townhomes and other multi-family residential development.
Residential 30	H30	18–30 du/ac	Multi-family residential development
Residential 50	H50	30–50 du/ac	Multi-family residential development
COMMERCIAL			
General Commercial	CG	FAR: 1.0 18-30 du/ac	Local serving commercial, office and professional businesses, retail and service establishments.
INDUSTRIAL			
Light Industrial	IL	FAR: 1.0	Light industrial and industrial park activities
PUBLIC AND SEMI-PUBLIC			
Community Serving	P-C	N/A	Public and semi-public community-serving uses, including: public buildings, public and private educational institutions, hospitals, cemeteries, government buildings, and fairgrounds.
Transportation Facilities	P –T	N/A	Airports and other major transportation facilities.
Facilities and Utilities	P –U	N/A	Major facilities, including landfills, solid and liquid waste disposal sites, multiple use stormwater treatment facilities, and utilities.

OPEN SPACE			
Conservation	OS-C	N/A	Open space areas and scenic resources preserved in perpetuity. Applies only to land that is legally constrained from future development activities.
Parks and Recreation	OS-PR	N/A	Recreational uses, such as regional and local parks, trails, athletic fields, community gardens, golf courses, and other open spaces.
OVERLAYS			
Special Management Areas	SMA	N/A	Environmental, hazard and safety areas subject to additional regulations in the General Plan.

*From the Draft Los Angeles County General Plan Update Land Use Designations, February 2010. Subject to change.

Land Use and Zoning

The land use designations define and provide guidance on the types of uses and densities allowed on each parcel in the community. The Los Angeles County Zoning Code (Title 22) implements the land use plan by providing more specific standards that regulate uses, building size, bulk, density, parking requirements, and setbacks. In California, zoning is required to be consistent with the land use policy laid out in land use maps. The Land Use-Zoning Matrix in Table 2 lists the primary consistent zoning designations for each land use category.

Table 2. Land Use and Zoning Matrix

	Land Use Designation*		Primary Consistent Zoning Designation	
RURAL	RL2	Rural Land	R-A	Residential Agriculture

4. Goals and Policies

While the land use map guides the location of various uses and densities, the Plan's goals and policies define how those uses should function to best meet the needs of the community. The goals articulate the specific end states that the community envisions. The policies associated with each goal describe the actions that must be taken to realize the goals. The goals and policies are organized according to the issue-specific elements utilized in the Los Angeles County General Plan with additional elements added for community priorities that are not addressed in the General Plan. The elements include: Land Use, Appearance, Mobility, Housing, Conservation, Open Space and Recreation, Health and Safety, and Public Services and Facilities. Elements not covered in the Community Plan are addressed in the General Plan.

Land Use (LU)

Goal LU-1:

Well designed, walkable residential neighborhoods that provide various housing types and densities.

Policy LU 1.1:

Protect the character of existing single-family neighborhoods by avoiding mansionization.

Policy LU 1.2:

Concentrate new higher density (H9 and above) residential development along existing commercial corridors, near transit routes and close to other community serving facilities.

Policy LU 1.3:

Encourage mixed-use in commercial areas.

Policy LU 1.4:

Distribute low- and moderate-income units equitably throughout the community and

encourage provision of such units in all new developments.

Goal LU-2

Appropriate distribution of commercial and industrial uses throughout the community.

Policy LU2.1:

Allow vertical expansion of commercial and mixed-use development on existing commercial sites

Policy LU2.2:

Prohibit expansion of industrial areas

Policy LU2.3:

Maintain and improve existing commercial areas (as shown on Land Use Map)

Goal LU-3

Open space that expands to meet evolving community needs.

Policy LU 3.1:

Promote the creation of pocket parks, parks with a mix of environments (such as ponds, paths, playgrounds and green roofs), multi-use paths, community gardens and open space nodes (small pieces of open space that serve as public destinations, connections and community-defining spaces).

Policy LU 3.2:

Encourage the dedication of new and existing open space areas, including trails, ridges, and hillsides, to a public or private land preservation agency, such as the Puente Hills Landfill Native Habitat Preservation Authority, to be held in perpetuity.

Policy LU 3.3:

Promote the creation of new parks in neighborhoods that currently have no parks, particularly those neighborhoods north of the 60 Freeway.

Policy LU 3.4:

Preserve open space for recreation or land preservation, particularly for areas north of the 60 Freeway.

Goal LU-4:

Protected hillsides and ridgelines.

Policy LU 4.1:

Minimize alteration of the hillside caused by development.

Policy LU 4.2:

Promote contour grading in hillside areas (areas above 25% slope) to mimic the appearance of a natural hillside, unless it has a negative impact on slope stability or drainage.

Policy LU 4.3:

Locate new structures off the top of a ridgeline (as shown on Ridgelines Map), when determined by the reviewing agency to be possible, to preserve undeveloped ridges.

Policy LU 4.4:

Encourage architectural styles and design that are compatible with the natural landscape in hillside areas.

Goal LU-5:

New development with minimal risk from natural hazards.

Policy LU 5.1:

Locate new uses with hazardous emissions away from existing sensitive receptors, including but not limited to housing and schools.

Policy LU 5.2:

Restrict the intensity of development in areas with hazards, including landslide, high fire hazard, seismic, flood, and liquefaction areas.

Appearance (A)

Goal A-1:

A shared sense of place and street identity.

Policy A 1.1:

Promote a welcoming experience by creating a community gateway through identifying signage, or other visual cues at the primary entryways into the community.

Policy A 1.2:

Require street furniture and community signs to be consistent with established street furniture and right-of-way standards, as established and implemented by Department of Public Works.

Policy A 1.3:

Enhance local walkways with landscaping, pavement treatments, and other beautification measures.

Goal A-2:

Clean and well-maintained public spaces.

Policy A 2.1:

Promptly remove outdated or illegal signs and notices on public rights-of-way.

Policy A 2.2:

Encourage community members to report on activity that is detrimental to the sense of safety or appearance of public spaces, such as through 211 and the Graffiti Hotline.

Policy A 2.3:

Provide garbage and recycling receptacles in public places throughout the community.

Policy A 2.4:

Develop and ensure continuous funding of public street and sidewalk maintenance, including repairs re-paving, and lighting.

Goal A-3:

Attractive and well-maintained residential areas.

Policy A 3.1:

Require that trash receptacle storage areas of all multi-family residences be effectively screened from view from the street by landscaping, berms, compatible structures, or a combination of these.

Policy A 3.2:

Educate residents on zoning requirements, property tax incentives and other public support for the maintenance and rehabilitation of dwellings.

Policy A 3.3:

Promote residential development that includes transitional design features between different housing types and densities through the use of setback variation, massing, or other design features.

Goal A-4:

Attractive and well-maintained corridors.

Policy A 4.1:

Promote visual continuity on private walls that face public rights-of-way through the use of uniform paint, design, or other devices or decorative materials and landscaping.

Policy A 4.2:

Promote the installation of shade trees, non-invasive landscaping or other natural-elements, including, but not limited to decorative rock, along public rights-of-way and medians.

Policy A 4.3:

Replace dead landscaping and remove weeds, trash and debris promptly and regularly.

Goal A-5:

Attractive and well-maintained commercial areas.

Policy A 5.1:

Encourage clear and attractive commercial signage.

Policy A 5.2:

Maintain buildings, parking areas, and landscaping in a clean and orderly manner.

Policy A 5.3:

Discourage encroachments of structures into the right-of-way or sidewalk.

Policy A 5.4:

Encourage the planting of shade trees or the installation of other natural elements as part of the design of commercial parking lots with over 20 spaces.

Policy A 5.5:

Require signage within commercial area parking lots that clearly delineates traffic direction, entrances, and exits.

Mobility (M)

Goal M-1:

A variety of options for mobility into and out of the community.

Policy M 1.1:

Promote “complete streets” that safely accommodate pedestrians, cyclists, and motorists.

Policy M 1.2:

Promote the integration of multi-use regional trails, walkways, bicycle paths, transit stops, parks and local destinations.

Policy M 1.3:

Ensure that bus stops are easily and safely accessible by foot, bicycle, or automobile.

Policy M 1.4:

Create a community shuttle service and designate shuttle routes to link residential neighborhoods to commercial areas and community facilities.

Policy M 1.5:

Promote and expand the Park and Ride bus system, including providing bike parking facilities at Park and Ride locations.

Policy M 1.6:

Promote Dial-a-Ride or other senior paratransit service.

Goal M-2:

Safe and well-maintained bike routes and facilities.

Policy M 2.1:

Upgrade existing Class III bike lane designations to Class II and make all new bike lanes Class II or better, where infrastructure permits.

Policy M 2.2:

Install safe bike accommodations in appropriate places along Hacienda Boulevard, Colima Road and other well-traveled roads.

Policy M 2.3:

Add and maintain new bike racks and lockers at major bus stops in commercial areas, and at all community facilities.

Policy M 2.4:

Educate riders and motorists on how to safely share the road, for example through Share the Road signage and educational campaigns.

Goal M-3:

Safe and well-maintained pedestrian pathways.

Policy M 3.1:

Maintain all sidewalks, crosswalks, paths, and overpasses in a clean and safe manner, including re-cementing, removing weeds, and

repairing utility boxes, and use sustainable paving materials, when possible.

Policy M 3.2:

In residential areas where sidewalks do not exist, require visual indicators, such as safety striping and signs, to delineate driving areas from non-vehicular areas.

Policy M 3.3:

Along major corridors, provide highly visible and safe crosswalks with well-marked indicators that are visible to both pedestrians and drivers, and install crosswalk countdown signals that provide adequate time for people of all ages and abilities to cross.

Policy M 3.4:

Provide adequate and, when possible, downward facing street lighting along arterials and collector streets.

Goal M-4:

Community circulation that supports regional and state transportation goals.

Policy M 4.1: Consider contributing to improvements on state highway systems, including SR 60 and its on/off ramps, as well as bus and rail transit facilities, for example, through traffic impact fees.

Policy M 4.2: Include vehicle demand reducing strategies, such as incentives for commuters to use transit, park and ride lots, etc. as mitigation alternatives for potentially environmentally significant projects.

Housing (H)

Goal H-1:

A diverse housing supply that accommodates all income levels, ages and needs.

Policy H 1.1:
Promote development of affordable and senior housing that is safe and accessible to local amenities and community resources.

Policy H 1.2:
Encourage the allocation of housing subsidies to Hacienda Heights residents that qualify.

Open Space and Recreation (OS)

Goal OS-1:
A trail system that is well maintained and provides access to all.

Policy OS 1.1:
Maintain trails and trailheads in a clean and safe manner.

Policy OS 1.2:
Create new trailheads and access points onto the local trail system and improve connections to local parks.

Policy OS 1.3:
Incorporate educational and historical signage along trails.

Policy OS 1.4:
Disseminate information about trails with signs and pamphlets at the trailheads and at community centers.

Policy OS 1.5:
Promote the creation of multi-use trails throughout the community, particularly in those areas that currently have no parks, including walking loops along streets that utilize environmentally sustainable surfaces.

Goal OS-2:
A wide range of recreational facilities to meet community needs.

Policy OS 2.1:
Ensure equitable access to recreation facilities for all users, including residents and organizations.

Policy OS 2.2:
Promote the use of recreational facilities by individuals and local groups, such as sports leagues.

Policy OS 2.3:
Offer free or minimal-cost educational and cultural opportunities to all segments of the community to enhance public interest in arts, music, culture, and public health.

Policy OS 2.4:
Establish and maintain a coordinated reservation system for County parks and facilities.

Goal OS-3:
Physical activity opportunities for residents of all ages and needs.

Policy OS 3.1:
Install and maintain permanent, moderate exercise equipment and facilities in parks, including those especially designed for physical rehabilitation and therapy.

Policy OS 3.2:
Offer free and low-fee continuing enrichment opportunities in physical fitness, exercise and other healthy habits.

Policy OS 3.3:
Offer opportunities for traditional and alternative physical activities.

Policy OS 3.4:
Ensure that passive recreational opportunities are included in the reuse of the Puente Hills Landfill.

Goal OS-4:
Healthy and safe places to recreate.

Policy OS 4.1:
Ensure environmentally sound closure and post closure activities and maintenance of the Puente Hills Landfill site and conversion to open space.

Policy OS 4.2:
Ensure new park sites that were previously used for non-park uses are environmentally sound prior to the introduction of new park uses.

Policy OS 4.3:
Ensure that all public parks and facilities are smoke-free.

Conservation (C)

Goal C-1:
Open space conservation areas that are protected and accessible.

Policy C 1.1:
Maintain and ensure continued public access to conservation areas.

Policy C 1.2:
Promote planting of locally-indigenous vegetation consistent with the Los Angeles County Drought Tolerant Landscaping Ordinance in areas adjoining conservation areas.

Policy C 1.3:
Whenever possible, mitigate any impacts of development that would impede access to or reduce net acreage of conservation areas.

Policy C 1.4:
Site structures to minimize the extent of fuel modification zones and degradation of locally-indigenous vegetation.

Goal C-2:
Wildlife that is respected and protected.

Policy C 2.1:
Ensure continuity of wildlife corridors and wildlife access to corridors.

Policy C 2.2:
Protect streams and riparian habitat by requiring a 20-foot buffer for all new development.

Policy C 2.3:
Screen Significant Ecological Areas from direct and spillover lighting and noise from adjoining uses.

Policy C 2.4:
Require fence materials and design that allow wildlife movement and limit other potential blockages adjacent to habitat areas.

Goal C-3:
Protected unique cultural, archeological, and historic resources.

Policy C 3.1:
Conserve significant archaeological artifacts and paleontological resources when identifies.

Goal C-4:
A community that conserves its natural resources.

Policy C 4.1:
Encourage energy efficiency through the use of alternative energy sources, drought-tolerant landscaping, low-impact development and ecological construction materials.

Policy C 4.2:
Encourage sustainable, environmentally-friendly construction and business operating practices.

Policy C 4.3:
Encourage community members to reduce waste and conserve energy and water at home.

Policy C 4.4:
Encourage efforts to reduce greenhouse gas emissions and promote air resource management best practices.

Policy C 4.5:
Promote and encourage the use of sustainable, environmentally-friendly paving materials on exercise walking paths.

Public Health and Safety (PH)

Goal PH-1:
A community free of nuisance-causing noise.

Policy PH 1.1:
Encourage the use of walls, earth berms, landscaping, setbacks, or a combination of these strategies, to mitigate noise-related disturbances.

Policy PH 1.2:
Locate sensitive receptors including schools, hospitals, and convalescent homes in areas sufficiently removed from high noise generators.

Goal PH-2:
A community with adequate health care facilities and services.

Policy PH 2.1:
Encourage the Department of Health Services, and other public and private healthcare providers, to continue to provide and expand local access to medical professionals and services such as clinics and urgent care centers within the community.

Policy PH 2.2:
Offer preventive services, including immunizations, smoking cessation, and recommended health screenings, at local clinics and community facilities.

Goal PH-3:
A community that has local access to healthy food.

Policy PH 3.1:
Encourage community gardens and farmers' markets.

Goal PH-4:
A community prepared for emergencies and protected from hazards.

Policy PH 4.1:
Promote emergency preparedness, such as but not limited to CERT (Community Emergency Response Team) training.

Policy PH 4.2:
Protect against hazardous materials from industrial uses and commercial uses.

Policy PH 4.3:
Minimize risk of fire through fuel modification and other measures.

Public Services and Facilities (PS)

Goal PS-1:
Library services that meet community needs.

Policy PS 1.1:
Expand Library access, collections and facilities to meet County service level guidelines (.5 gross square feet and 2.75 items per capita, and 1 public access computer per 1,000 people served).

Policy PS 1.2:

Offer educational and developmental programs for residents of all ages.

Goal PS-2:

Information on community matters that is accurate and timely.

Policy PS 2.1:

Provide information on local jobs, education and self-improvement classes, environmental conservation, services, announcements, events, and resources via a community website.

Policy PS 2.2:

Expand wireless Internet (WiFi) access at County facilities and educate the public on its use as well as other available technologies.

Policy PS 2.3:

Promote the Graffiti Hotline, 211, and other phone-based information management systems.

Goal PS-3:

Childcare services that meet the community's needs.

Policy PS 3.1:

Encourage the development of a range of childcare facilities, including public and private childcare centers, infant care, and after-school care.

Goal PS-4:

A community that offers physical and educational enrichment opportunities for youth, adults, and seniors.

Policy PS 4.1:

Offer jobs and activities for people of all ages at local County facilities and parks.

Policy PS 4.2:

Promote volunteer/internship opportunities with County departments.

Goal PS-5: A community connected through a multi-use community center where community members of all ages and cultures can convene, recreate, learn and interact.

Policy PS 5.1:

Ensure community participation in the design and planning of the center.

Policy PS 5.2:

Acknowledge and celebrate the community's multiculturalism through facility design.

Policy PS 5.3:

Promote programming that brings together residents of diverse backgrounds.

Goal PS-6:

Growth in line with infrastructure capacity.

Policy PS 6.1:

Ensure adequate water supply and quality.

Policy PS 6.2:

Ensure adequate sewage or septic systems.

Policy PS 6.3:

Ensure adequate energy from both traditional and alternative sources whenever available while promoting more sustainable alternatives.

Policy PS 6.4:

Promote water conservation, including the use of reclaimed water materials and equipment, in future development.

Policy PS 6.5:

Require the undergrounding of all new utilities and the unobtrusive placement of service boxes for all new developments through the creation of underground utility districts per Los Angeles County Highways Code Chapter 16.32.

5. Implementing the Community Plan

Overview

Implementing the Community Plan will require a coordinated effort on a variety of measures. This section organizes a series of implementation actions into a comprehensive timeline based on community priorities. It also identifies the entities that will need to be involved in and share responsibility for implementation and provides relevant contact information.

The implementation actions answer two basic questions “How can we implement the Goals and Policies of the Plan?” and, “What strategies can we develop to accomplish this?” The premise of the Plan is that planning for the future is about making changes today so that the future we envision is the one that is realized. This section outlines attainable strategies for implementing the Community Plan that can be used by decision makers, planners, service providers, local leaders and the community. This reflects the Plan’s intent to move from vision to action.

Implementation Timeline

The implementation timeline in Table 3 below serves as a reference for County service providers and other stakeholders to allocate resources to best realize the Plan’s Vision, Goals, and Policies. This list is not exhaustive but rather directional. The implementation actions included here are intended to move the Plan forward after it is adopted. While additional steps not listed here may be needed, the following timeline delineates the priority implementation actions and indicates when they should ideally begin following Plan adoption—within a short timeframe (within 5

years of Plan adoption), a medium timeframe (5 to 10 years after Plan adoption), a long timeframe (more than 10 years after Plan adoption), or ongoing.

Dance classes for seniors

Staying Connected

Periodic Review and Reporting

The Plan is required to be periodically and regularly reviewed as part of the annual General Plan progress report. Community members who are interested in actively monitoring plan progress can receive periodic updates and progress reports from the Department of Regional Planning. From time to time, an updated needs assessment and re-evaluation of the Plan will be needed to keep the Plan relevant and on track to achieving the community’s vision. Based on the results of these analyses, along with the recommendations of those monitoring the progress of the Plan, the goals, policies, and implementation priorities should be evaluated and reaffirmed every 5 to 10 years. Periodically, comments received from volunteers, local organizations and public agencies will be summarized and uploaded to the DRP website. The Board of Supervisors can use these results

to allocate resources to best implement the Plan. They can also use the reports to determine when the Community Plan should be revisited and updated.

Information

Collaboration and open communication are hallmarks of the planning process. These core values will guide residents, planners, elected officials, and local leaders as the Plan is implemented over many years, and stakeholders will need to stay informed and stay involved. To do so will require quality information and clear lines of communication. Implementing the optimal mix of the following tools and techniques will help keep everyone connected:

- Community website
- Email blasts
- Community newsletters and publications
- Hacienda Heights Improvement Association meetings
- Hacienda-La Puente Unified School District schools and meetings
- Periodic community meetings organized by DRP to provide information on the status of Plan implementation and to receive feedback and recommendations

Hacienda Heights also offers several opportunities for sharing information at community events, such as the annual summer concert series and 4th of July parade. Additionally, new communication tools and techniques should be considered as they become available

Collaboration

By adopting this Plan, Los Angeles County is committing to supporting the community vision by adhering to the Plan's goals and policies in all its operations and using the implementation actions and timeline to allocate resources. The

Community Plan can best be implemented by the County and community organizations identified in this section through a collaborative, task-oriented team approach.

Play equipment at County playground

This framework institutionalizes inter-agency and resident collaboration and ensures that County service providers, community leaders, residents, and other organizations share resources and responsibility in implementing the Plan. Agencies providing services in Hacienda Heights will share information related to permits, subdivision activity, capital improvements, and other large partnerships to ensure that decisions are made based on the best possible information and to encourage collaboration. Collaboration between county agencies, residents, and other key stakeholders will help to keep service providers connected to the constituents they serve and to one another.

5. Conclusion

The Hacienda Heights Community Plan is a forward-looking planning tool that encapsulates the community's shared vision, articulates community-inspired goals and priorities, delineates policies that can transform the community's issues into opportunities, and provides direction on implementation strategies. To be effective, the Plan must be evaluated and adjusted accordingly on an ongoing basis. To stay relevant, the vision must be revisited and reaffirmed. To remain vital, the goals and policies must be updated. To be sustainable, the principles of the Plan must be institutionalized throughout the community and County family.

The Hacienda Heights Library

Table 3. Implementation Strategies, Timing and Contacts

Element	#	Implementation Strategy	Timing	Lead	Contact
Land Use	1	Through the review process for new development applications, require all new development to be consistent with the land use policy map and land use goals and policies.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
Appearance	1	Conduct a comprehensive sign audit to determine conformity of existing signs in commercial areas with applicable development standards, and bring illegal and nonconforming signs into conformance through the zoning enforcement process.	Medium	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	2	Coordinate a street wall beautification demonstration program with the Department of Public Works and the 4th Supervisorial District Board office.	Short	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	3	Where appropriate and feasible, develop community open space nodes.	Short	Parks and Recreation	(213) 738-2951 http://parks.lacounty.gov info@parks.lacounty.gov
	4	Establish Project Pick-Up with Pride, a volunteer community clean-up project.	Short	Improvement Assoc. (HHIA)	http://hhia.wordpress.com/
	5	Maintain the planting, pruning, and maintenance of trees within the public rights-of-way.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/ info@dpw.lacounty.gov

Element	#	Implementation Strategy	Timing	Lead	Contact
	6	Ensure bus stop amenities and newspaper racks placed within Public Street rights-of-way are in good condition.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
Mobility	1	Amend the Countywide Highway Plan within Hacienda Heights to reflect up-to-date versions of street designations and improvements.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	2	Ensure that all new public street improvements conform to the adopted County Standards.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	3	Continue to investigate and respond to traffic complaints from the public in a timely manner.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	4	As part of the discretionary review process for proposed development, require traffic studies where appropriate to evaluate impacts to the roadway network and require improvements needed to maintain acceptable service levels, including increasing alternative modes of transportation.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov/zoningldcc@planning.lacounty.gov
	5	Continue to require new development to fund its fair share of transportation improvements which may include construction or payment of impact fees.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov/zoningldcc@planning.lacounty.gov

Element	#	Implementation Strategy	Timing	Lead	Contact
	6	Continue to improve traffic operations through signal upgrades, striping, signalization, improved public transit service, expanded bikeways and lanes, carpooling, pedestrian-friendly enhancements, and other improvements where needed.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	7	Provide directional signage where needed in street right of way to facilitate efficient traffic movement.	Medium	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	8	Continue to require new walkways or trails in areas where none exist and improvements to existing walkways and sidewalks within new development projects as part of the approval process.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov/zoningldcc@planning.lacounty.gov
	9	Conduct traffic studies within the community, as well as connections with surrounding communities, and recommend traffic calming measures for residential areas according to DPW guidelines.	Short	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov
	10	Work with other transit agencies to promote the use of existing Park-and-Ride lots in or near the community.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov/info@dpw.lacounty.gov

Element	#	Implementation Strategy	Timing	Lead	Contact
	11	Update Bikeway Master Plan for Unincorporated County Areas including Hacienda Heights.	Medium	Public Works	(213) 974-6401 http://dpw.lacounty.gov info@dpw.lacounty.gov
	12	Annually update the Capital Improvement Program to implement public street infrastructure improvements and bus stop amenity improvements.	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov info@dpw.lacounty.gov
	13	Annually review the Capital Improvement Program to ensure consistency with Mobility goals and policies.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	14	Include Department of Transportation in the environmental review process of Land Use projects that have the potential to significantly impact traffic conditions on state highways.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	15	During project planning for projects that contribute to significant impacts on emissions, determine whether the applicant mitigates potential impacts to air quality to less than significant. ¹	Ongoing	AQMD	(800) CUT-SMOG (288-7664) http://www.aqmd.gov/

¹ See DRAFT Mitigated Negative Declaration and Initial Study Mitigation Measures and Mitigation Monitoring Program for details.

Element	#	Implementation Strategy	Timing	Lead	Contact
	16	During project planning for projects that that conflict with or obstruct implementation of applicable air quality plans, require the applicant to redesign the project. ²	Ongoing	AQMD	(800) CUT-SMOG (288-7664) http://www.aqmd.gov/
	17	During environmental review, ensure that applicants for projects of 25 units or more that have a potentially significant impact on traffic congestion mitigate impacts to air quality to less than significant. ³	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov info@dpw.lacounty.gov
	18	During project review, ensure that applicants for projects that generate over 500 trips per day prepare a Traffic Impact Analysis report; and, if impacts will be significant, ensure that the applicants identify feasible mitigation measures which would mitigate the project's significant impacts to a level of insignificance. ⁴	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov info@dpw.lacounty.gov

^{2, 3, 4} *ibid*

Element	#	Implementation Strategy	Timing	Lead	Contact
	19	During environmental review, ensure that applicants for all development projects that are required to prepare an Environmental Impact Report (EIR) to Incorporate into the project EIR a CMP Transportation Impact Analysis. ⁵	Ongoing	Public Works	(213) 974-6401 http://dpw.lacounty.gov info@dpw.lacounty.gov
Housing	1	Coordinate with the Community Development Commission and local non-profit organizations to conduct housing information forums for residents to provide information on available County services, grant or loan opportunities, and homeless services provided within the community.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	2	Prepare an affordable housing inventory.	Short	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	3	Promote affordable housing incentives.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	4	Coordinate with the Community Development Commission to conduct home improvement financing workshops.	Short	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov

⁵ *ibid*

Element	#	Implementation Strategy	Timing	Lead	Contact
Open Space and Recreation	1	Actively participate in the Los Angeles County Sanitation District's efforts relating to the post-closure land use and conversion of the landfill to open space/recreational use.	Ongoing	Regional Planning (support from Parks and Rec, Public Works)	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	2	Through the regulatory and development review process, evaluate new development projects and coordinate with appropriate reviewing agencies to ensure that proposed development is pedestrian-friendly and offers other physical recreation opportunities.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	3	Coordinate with the Department of Parks and Recreation to review available Open Space and Recreational opportunities in the Hacienda Heights community.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	4	Establish new trails and connectors.	Ongoing	Parks and Rec	213) 738-2951 http://parks.lacounty.gov info@parks.lacounty.gov
	5	Designate new open space.	Short	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	6	Install exercise equipment in parks.	Short	Parks and Rec	213) 738-2951 http://parks.lacounty.gov info@parks.lacounty.gov
Conservation	1	Ensure that new development proposals are consistent with the guidelines established in the County Green Building ordinance.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov

Element	#	Implementation Strategy	Timing	Lead	Contact
	2	Promote standards that reduce and conserve water usage in public facilities as established in the County Green Building ordinance.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	3	Implement development guidelines of adopted Significant Ecological Areas (SEAs) and update SEA boundaries as needed to reflect biological resource conditions, policies and requirements.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	4	In the development and review process, refer to and comply with the Hillside Design Guidelines and Hillside Management Ordinance for all developments in hillside areas.	Ongoing	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
	5	Conduct an open space inventory and identify areas for protection.	Short	Parks and Rec	(213) 738-2951 http://parks.lacounty.gov info@parks.lacounty.gov
	6	Establish cultural resources education program.	Short	Regional Planning	(213) 974-6401 http://planning.lacounty.gov zoningldcc@planning.lacounty.gov
