0114	1/06/14 2203	[REDACTED]	[REDACTED]	Noise	Ladera Heights	Freeport-McMoRan Oil & Gas' 800 number received a call from a Ladera Heights resident regarding "noise of motors and machinery". The complainant indicated they heard noise coming from the direction of the field northeast of the residence.	Upon investigation there were no usual activities occurring on the field at the time of the complaint and the drilling rig moved off the lease in December 2013.		01/09/14 0935	Public Health: (clandowski) DRP: (tstapleton)	01/09/14 1517 01/09/14 1517	
0214	1/12/14 2203	[REDACTED]	[REDACTED]	Odor	Blair Hills	FM O&G's ombudsperson received an email from a Blair Hills resident complaining of odors. The email commented "in recent weeks, we have noticed unpleasant odors emanating from the oil fields. We used to attribute them to skunks, which we saw long ago in the fields, but the increasing frequency of the odors makes us think they're related to oil operations. The odor was particularly strong driving south on La Cienega Blvd at two different times today." (lp)	Through an investigation of the field, no issues were identified and there were no alarms from the air monitoring equipment at the gas plant. Also, as of Monday, December 2nd the drilling rig had moved off of the field. FM O&G's ombudsperson responded to the complainant via email to report the findings of the investigation.	The complainant thanked FM O&G's Ombudsperson for the prompt response.	01/13/14 1328	DRP: (tstapleton) AQMD: (mhernandez)	01/13/14 1146 01/13/14 1146	Coincidentally yesterday afternoon, FM O&G's ombudsperson observed two skunks on the roadway (apparently hit by vehicles in the southbound lanes) on La Cienega between Kenneth Hahn Park and Stocker Street.
0314	01/14/14 1115	AQMD Inspector	800 288.7664	Odor	Kenneth Hahn Park	FM O&G received a call from AQMD relating to an odor complaint that originated at 3:11 pm Sunday (01/12). The complainant stated that the odor was a burnt rubber smell which occurred	No issues were identified in the Inglewood Oil Field and there were two (2) dead skunks observed along La Cienega Blvd. between Kenneth Hahn Park and Stocker Street. 						between 2:30 am and 6:30 am. The AQMD advised the location of the complaint origination was north of Kenneth Hahn Park approximately ½ mile from the field boundary. (pg)						
0414	01/17/14 1512			Noise	Windsor Hills	Freeport-McMoRan Oil & Gas' 800 number received a call from a Windsor Hills resident regarding a banging noise near the FM O&G Office building. (lp)	A maintenance rig in vicinity of the office that was running in and out of the hole with tubing, which generates some pipe noise. This is a daylight activity and the crews were asked to minimize noise generating activities as much as possible.	The complainant appreciated the return call and the noise minimization effort.	1520	Public Health: (clandowski) DRP: (tstapleton)	01/17/14 1635 01/17/14 1635	
0514	02/04/14 0408	Officer Hernandez	310 253.6208	Noise	9800 Jefferson Blvd. (CC)	FM O&Gs' 800 number received a call from the Culver City Police Department regarding a screeching sound above the ball fields at Culver City Park. (sg)	FM O&G on-call personnel immediately contacted the field operator to begin an investigation of the field in the vicinity of the complaint. Upon investigation operators discovered a pitman arm on a pumping unit broke, causing the screeching sound. The unit was immediately shut down and repairs were today.	The caller didn't require a call back.	0417	Public Health: (emasis) DRP: (tstapleton)	02/06/14 1447 02/06/14 1447	
0614	02/16/14 2053	AQMD Inspector	800 288.7664	Odor	Ballona Creek	AQMD left a message on FM O&G's EH&S representative's phone stating AQMD received an odor complaint from a member of the community on Sunday morning (02/16). The complaint was for the period between 1:10 and 1:40 a.m.. Complainant stated, while walking their dog near Ballona Creek, there was an H2S odor. (pg)	Through an investigation of the field, no issues were identified and there were no alarms from the air monitoring equipment at the gas plant nor the drilling rig. The meteorological station indicated the wind direction during this time was from the SW to the NE (towards or parallel to the field).	A return call was made to AQMD (per their request) this morning (2/18), which was the first business day following the complaint.	02/18 AM	DRP: (tstapleton) AQMD: (mhernandez)	02/18/14 1237 02/18/14 1237
