Subject: RE: Baldwin Hills CSD 2014 Documentation Request

Hi Timothy:

Responses to your inquiries follow:

- E.8.b: The CSD does not require any submittal or certification of archeological training. Our records are available for inspection per CSD provision I.2.
- E.21.a: The equipment removal plan was updated through December 2013 and submitted to DRP on 3/3/14. No changes needed to the plan in 2014 since nothing needed to be removed or was removed.
- F.3: The CSD does not require any submittal or certification of SIMQAP training. Our records are available for inspection per CSD provision I.2.
- F.4: The date of the Emergency Response Drill was October 30, 2014 and was attended by the agency representatives from LA County Fire Department, Culver City Fire Department, and Department of Fish & Wildlife, Oil Spill Prevention and Response. The CSD does not require any submittal or certification of this drill. Our records are available for inspection per CSD provision I.2.
- L.2.a: This provision is fully complied with as the Odor Minimization Plan was approved. Per CSD provision E.2.c, the odor minimization plan was reviewed by FM O&G in 2014 and it was determined that no modifications to the Plan are required. We notified you of this via email on 12/19/14.
- L.2.e: This provision is fully complied with as the Fugitive Dust Control Plan was approved. The plan is due for its five year review by FM O&G per provision E.2.p of the CSD this year. We have reviewed the Plan and have determined that no changes are necessary. As such, this email serves as our compliance submittal for this provision.
- L.14: The compliance requirements for this provision were fulfilled in 2009. Provision E.21.a and Term 12 of the Settlement Agreement provide ongoing compliance provisions related to this plan. Reference our response to E.21.a above.

Thank you,
Laura
