

## REVISED NOTICE OF PREPARATION OF A DRAFT ENVIRONMENTAL IMPACT REPORT AND NOTICE OF PUBLIC SCOPING MEETING

To: State Clearinghouse, Responsible and Trustee Agencies, and Interested Individuals  
Date: June 20, 2013  
Subject: Notice of Preparation of a Draft Environmental Impact Report and Notice of Public Scoping Meeting  
Project: Los Angeles County General Plan Update  
Lead Agency: Los Angeles County

NOTICE IS HEREBY GIVEN that County of Los Angeles, through the Department of Regional Planning (Department), will be the Lead Agency for the preparation of an Environmental Impact Report (EIR) in accordance with the California Environmental Quality Act (CEQA) for the project described below. The County released the Notice of Preparation (NOP) for a public review period of 30 days for this process from August 15, 2011 to September 14, 2011. The project description in the August 15, 2011 NOP included an update to the General Plan (excluding the Housing Element) and an update to the Antelope Valley Area Plan. This notice advises interested parties and responsible agencies that the project description has been revised to exclude the Antelope Valley Area Plan Update. The revisions to the proposed project result in changes to the scope of the upcoming EIR from what was previously identified in the August 15, 2011 NOP. An EIR for the Antelope Valley Area Plan Update will be processed and noticed separately.

**PROJECT INFORMATION:** The project is a comprehensive update of the Los Angeles County General Plan. The project includes goals, policies, implementation programs and ordinances. The project covers the unincorporated areas of Los Angeles County and accommodates new housing and employment opportunities in anticipation of population growth in the County and the region. The General Plan Update focuses growth in the unincorporated areas with access to services and infrastructure and reduces the potential for growth in the County's environmentally sensitive and hazardous areas. The project will replace the adopted General Plan.

For a comprehensive project description and additional information on the General Plan Update, please visit <http://planning.lacounty.gov/generalplan>, or contact the General Plan Development and Housing Section at (213) 974-6417 or [genplan@planning.lacounty.gov](mailto:genplan@planning.lacounty.gov).

**NOTICE OF PREPARATION:** A Revised NOP for the EIR, which describes the project and outlines the potential environmental impacts, has been prepared. The Revised NOP will be available for review from **June 28, 2013** to **July 29, 2013** on the Department's website at <http://planning.lacounty.gov/generalplan/ceqa>. Hardcopies will be available at the Department's main office and field office locations listed at the following link: <http://planning.lacounty.gov/locations>; all County libraries; Calabasas Library located at 200 Civic Center Way, Calabasas, CA 91302; and Altadena Library (Main Library) located at 600 East Mariposa Street, Altadena, CA 91001.

The Department is seeking input from both agencies and members of the public on the scope and content of the environmental information and analysis to be contained in the EIR. Any correspondence related to the General Plan Update received as part of the first NOP does not have to be resubmitted; it has already been incorporated as part of the environmental review process for the project. Due to the time limits mandated by State law, written comments must be sent via mail, e-mail, or fax no later than 5:00 PM on **Monday, July 29, 2013**. Please send your comments at the earliest possible date to:

Connie Chung, AICP  
Supervising Regional Planner  
Los Angeles County  
Department of Regional Planning  
320 W. Temple Street, Room 1356  
Los Angeles, CA 90012  
Email: [genplan@planning.lacounty.gov](mailto:genplan@planning.lacounty.gov)  
Fax: (213) 626-0434

**PUBLIC SCOPING MEETING:** Pursuant to the California Public Resources Code Section 21803.9, Los Angeles County will conduct a public scoping meeting. This meeting will provide a public forum for information dissemination and dialogue regarding the components of the proposed project, the overall process, and the draft EIR. While staff will summarize the issues raised at these meetings, anyone wishing to make formal comments on the NOP must do so in writing. The public scoping meeting will be held at the time and location listed below:

**Date:** July 11, 2013  
**Time:** 5:00 p.m. to 6:00 p.m.  
**Location:** Los Angeles County  
Department of Regional Planning  
320 W. Temple Street, Room 150  
Los Angeles, CA 90012

The scoping meeting will also be streamed live at the following link:  
<http://streaming.planning.lacounty.gov/meeting>. Afterward, the recorded presentation and meeting will also be posted at the following link: <http://planning.lacounty.gov/generalplan/ceqa>.

# REVISED NOTICE OF PREPARATION (NOP)

## County of Los Angeles, Department of Regional Planning

**Project Title:** Los Angeles County General Plan Update

**Introduction:** The County of Los Angeles will be the Lead Agency and will prepare an environmental impact report for the comprehensive update of the Los Angeles County General Plan. The project includes goals, policies, implementation programs and ordinances. The project covers the unincorporated areas of Los Angeles County and accommodates new housing and employment opportunities in anticipation of population growth in the County and the region. The project will replace the adopted General Plan.

The County released the NOP for a public review period of 30 days for this process from August 15, 2011 to September 14, 2011. The project description in the August 15, 2011 NOP included an update to the General Plan (excluding the Housing Element) and an update to the Antelope Valley Area Plan. This notice advises interested parties and responsible agencies that the project description has been revised to exclude the Antelope Valley Area Plan Update. The revisions to the proposed project result in changes to the scope of the upcoming EIR from what was previously identified in the August 15, 2011 NOP. An EIR for the Antelope Valley Area Plan Update will be processed and noticed separately.

### 1. ENVIRONMENTAL SETTING

#### 1.1 Project Location

Los Angeles County is geographically one of the largest counties in the country with approximately 4,083 square miles. The County stretches along 75 miles of the Pacific Coast of Southern California and is bordered to the east by Orange County and San Bernardino County, to the north by Kern County, and to the west by Ventura County. The County also includes two offshore islands, Santa Catalina Island and San Clemente Island, as shown in Figure 1, *Regional Location*. The unincorporated areas account for approximately 65 percent of the total land area of the County.

The unincorporated areas in the northern portion of the County are covered by large amounts of sparsely populated land and include the Angeles National Forest, part of the Los Padres National Forest, and the Mojave Desert. The unincorporated areas in the southern portion of the County consist of 58 noncontiguous land areas, which are often referred to as the County's unincorporated urban islands. The County's governmental structure comprises five Supervisorial Districts with the Los Angeles County Board of Supervisors as the governing body responsible for making all legislative land use decisions for the unincorporated areas. Maps of the Supervisorial Districts and unincorporated areas of the County are available online on the Department of Regional Planning's website: <http://planning.lacounty.gov/generalplan>.

#### 1.2 General Plan and Planning Areas Framework

The Los Angeles County General Plan is the guide for growth and development for the unincorporated areas of Los Angeles County. The General Plan guides the long-term physical development and conservation of the County's land and environment through a framework of goals, policies, and implementation programs. The California Government Code requires that each city and county adopt a general plan "for the physical development of the county or city, and any land outside its boundaries which bears relation to its planning." Long-range planning provides the opportunity to responsibly manage and direct future development, conserve natural areas, support economic development objectives, and improve mobility in the region.

The Los Angeles County General Plan serves as the framework for existing community-based plans, including Area Plans, Community Plans, Neighborhood Plans, and Local Coastal Land Use Plans. Area Plans provide additional details to General Plan goals and policies, focusing on sub regional land use issues and other policy needs that are specific to the Planning Area. Community Plans and Neighborhood Plans cover smaller geographic areas within the Planning Area, and address neighborhood and/or community level land use policy issues. Local Coastal Land Use Plans are components of the Local Coastal Program (LCP), which consist of land use plans, zoning ordinances and maps, and implementing actions to protect coastal resources within the state designated coastal zone. All community-based plans are components of the General Plan and must be consistent with General Plan goals and policies. The following is a list of adopted community-based plans:

#### Area Plans

- Antelope Valley Area Plan (adopted 1986)
- Santa Clarita Valley Area Plan (adopted 1984; updated 2012)
- Santa Monica Mountains North Area Plan (adopted 2000)

#### Community Plans

- Altadena Community Plan (adopted 1986)
- East Los Angeles Community Plan (adopted 1988)
- Hacienda Heights Community Plan (adopted 1978; updated 2011)
- Rowland Heights Community Plan (adopted 1981)
- Twin Lakes Community Plan (adopted 1991)
- Walnut Park Neighborhood Plan (adopted 1987)
- West Athens-Westmont Community Plan (adopted 1990)

#### Local Coastal Land Use Plans

- Marina del Rey Local Coastal Land Use Plan (adopted; certified Local Coastal Program 1996; updated 2012)
- Malibu Local Coastal Land Use Plan (adopted 1986)
- Santa Catalina Island Local Coastal Land Use Plan (adopted; certified Local Coastal Program 1983)

### **1.3 Adopted General Plan**

The County's efforts to prepare a General Plan for the unincorporated areas began in the 1970's with the creation of the Environmental Development Guide. In 1973, the County adopted its first General Plan, followed by a comprehensive update in 1980. The County's adopted General Plan and community-based plans can be found online at <http://planning.lacounty.gov/plans/adopted>.

## **2. PROJECT DESCRIPTION**

The proposed project is a comprehensive update of the Los Angeles County General Plan. The project includes goals, policies, implementing programs, and ordinances. The project covers the unincorporated areas of Los Angeles County and accommodates new housing and employment opportunities in anticipation of population growth in the County and the region. The General Plan Update focuses growth in the unincorporated areas with access to services and infrastructure and reduces the potential for growth in the County's environmentally sensitive and hazardous areas.

### **2.1 Draft General Plan**

The proposed project is the preparation of a comprehensive update of the County's 1980 General Plan that meets California Code requirements for a general plan. The Draft General Plan accommodates new housing and jobs within the unincorporated area in anticipation of population growth in the County and the region through the year 2035. The theme of the Draft General Plan is sustainability. Sustainability requires that planning practices meet the County's needs without compromising the ability of future generations to realize their economic, social, and environmental goals. The Draft General Plan has been designed to utilize, promote, and implement policies that promote healthy, livable, and sustainable communities. Five guiding principles—Smart Growth; Sufficient

Community Services and Infrastructure; Strong and Diversified Economy; Environmental Resource Management; and Healthy, Livable and Equitable Communities—are supported by community-identified goals and stakeholder input, and further the overall goal of sustainability throughout the Draft General Plan.

The Draft General Plan consists of the following elements (the update to the Housing Element, which is a component of the General Plan, is underway through a separate effort):

- Land Use Element
- Mobility Element
- Air Quality Element
- Conservation and Open Space Element
- Parks and Recreation Element
- Noise Element
- Safety Element
- Public Services and Facilities Element
- Economic Development Element

To clarify the framework of the General Plan and to facilitate the planning of the unincorporated areas, the Draft General Plan establishes 11 Planning Areas, as shown online at <http://planning.lacounty.gov/generalplan>.

- Antelope Valley Planning Area
- Coastal Islands Planning Area
- East San Gabriel Valley Planning Area
- Gateway Planning Area
- Metro Planning Area
- San Fernando Planning Area
- Santa Clarita Valley Planning Area
- Santa Monica Mountains Planning Area
- South Bay Planning Area
- West San Gabriel Valley Planning Area
- Westside Planning Area

The Draft General Plan provides a framework of goals and policies to achieve countywide planning objectives within the 11 Planning Areas, and serves as the foundation for all existing and future community-based plans. Furthermore, the Draft General Plan involves a revision to the current General Plan land use policy map, and revisions to elements required by the State of California and optional elements. Table 1, *Proposed General Plan*, provides a description of the land uses designations proposed in the Land Use Plan. The following describe the major land use policies in the Draft General Plan, which are supported by goals, policies, programs and strategic changes to the land use policy maps:

**Transit Oriented Districts:** Transit Oriented Districts (TOD) are areas within a 1/2 mile radius from a major transit stop. TOD areas are located in proximity to major transit stops, provide the best opportunities for infill development, and are well-suited for higher density housing, mixed uses, and civic activities. The TODs guide the increase of residential densities and the allowance of mixed uses along major corridors in the draft land use policy maps. All TODs are envisioned in the future to have a TOD specific plan with standards, regulations, and capital improvement plans that tailor to the unique characteristics and needs of each community.

**Special Management Areas:** The County's Special Management Areas require additional development regulations that are necessary to prevent the loss of life and property, and to protect the natural environment and important resources. Special Management Areas include but are not limited to Agricultural Resource Areas, Airport Influence Areas, Seismic Hazard Zones, Flood Hazard Zones, Significant Ecological Areas, Hillside Management Areas, and Very High Fire Hazard Severity Zones. The Draft General Plan minimizes

risks to hazards and limits development in Special Management Areas through goals, policies and programs. The Draft General Plan also includes the Hazard, Environmental, and Resource Constraints Model, which is a visual representation of the Special Management Areas and serves 1) as a tool to inform land use policies for future community-based planning initiatives; 2) to inform applicants and planners of potential site constraints and regulations; and 3) to direct land use policies and the development of planning regulations and procedures to address hazard, environmental, and resource constraints.

**Preservation of Industrial Land:** Planning for future growth and the appropriate land use mix has major impacts on the local and regional economy. The Draft General Plan includes land uses and policies that protect the remaining industrial land in the unincorporated areas. The Draft General Plan identifies Employment Protection Districts, which are economically viable industrial land and employment-rich lands, with policies to prevent the conversion of industrial land to non-industrial uses.

Notes:

- Historically, jurisdiction-wide buildout levels do not achieve the maximum allowable density/intensity on every parcel and are, on average, lower than allowed by the General Plan. Accordingly, the buildout projections in this General Plan do not assume buildout at the maximum density or intensity and instead are adjusted downward to account for variations in buildout intensity.
- The County has adopted a total of 13 community-based plans. The adoption date of these community-based plans vary and the boundaries of the community plans may or may not be coterminous with a specific plan.
- Acres are given as adjusted gross acreages, which do not include the right-of-way for roadways, flood control facilities, or railroads.
- The density/intensity figure shown reflects the projected density/intensity for buildout purposes, which is generally 80% of the maximum density/intensity permitted for that land use category. (D) denotes residential density and (F) denotes Floor Area Ratio.
- Projections of population by residential designation are based on a persons-per-household factor that varies by housing type. Additionally, the projections of jobs by designation are based on an employment generation factor that varies by employment category, or actual number of jobs.
- The figures for the unincorporated Santa Clarita Valley reference the figures in the Environmental Impact Report for the Santa Clarita Valley Area Plan Update. The methodology used to derive the figures for the unincorporated Santa Clarita Valley differs from the methodology used to generate the figures for other unincorporated areas and, therefore, they cannot be broken down by Land Use Category.
- The Antelope Valley Area Plan represents the adopted plan, with the exception of the portion that overlaps with the Proposed General Plan community of 'Kagel / Lopez Canyons'. Therefore, the total acreage of the Antelope Valley represented here is less than the actual area of the adopted plan boundary.

The project will replace the adopted General Plan, including all of the elements (excluding the Housing Element), land use distribution maps, and circulation maps. Other components of the comprehensive General Plan Update include, but are not limited to:

- Update the Special Management Areas including but not limited to Agricultural Resource Areas, Seismic Hazard Zones, Flood Hazard Zones, Significant Ecological Areas, Hillside Management Areas, and Very High Fire Hazard Severity Zones.
- Update Significant Ecological Areas boundaries.
- Update of the Highway Plan.
- Amendments to the existing County ordinances and/or adoption of new County ordinances as necessary to implement the updated General Plan, including but not limited to the SEA CUP Ordinance, Hillside Management Ordinance, and the addition of new zones to implement portions of the land use legend.
- Rezoning as necessary to implement and/or maintain consistency with the updated General Plan.
- Rescinding or updating outdated policies, ordinances, manuals, codes and other guidance documents and enacting new implementing policies, ordinances, manuals, and other guidance documents as needed to reflect current law and the updated General Plan
- Digitizing, parcelizing, and refining land use policy maps for existing community-based plans, as needed.

### 3. PROBABLE ENVIRONMENTAL EFFECTS

#### Environmental Issues:

The County has determined that a Program EIR will be prepared for the proposed comprehensive General Plan Update. Section 15168 of the CEQA Guidelines states that a Program EIR may be prepared on a series of actions that can be characterized as one large project and are related either: 1) geographically; 2) as logical parts in the chain of contemplated actions; 3) in connection with issuance of rules, regulations, plans, or other general criteria to govern the conduct of a continuing program; or 4) as individual activities carried out under the same authorizing statutory or regulatory authority and having generally similar environmental effects that can be mitigated in similar ways. The Program EIR will be prepared in accordance with the requirements of CEQA Statutes and Guidelines, as amended. Pursuant to Section 15146 of the CEQA Guidelines the degree of specificity in the Program EIR will correspond to the degree of specificity involved in the comprehensive General Plan Update. The EIR will focus on the primary effects that can be expected to follow from adoption of the comprehensive General Plan Update and will not be as detailed as an EIR on the specific development or construction projects that may follow. Based on the County's preliminary analysis of the project, the following environmental issues will be examined in the Program EIR:

- |  |   |  |
|--|---|--|
| <input checked="" type="checkbox"/> Aesthetics               | <input checked="" type="checkbox"/> Agricultural and Forest Resources | <input checked="" type="checkbox"/> Air Quality                        |

| <input checked="" type="checkbox"/> Transportation / Traffic | <input checked="" type="checkbox"/> Utilities / Service Systems       | <input checked="" type="checkbox"/> Mandatory Findings of Significance |

The Draft EIR will address the short- and long-term effects of the Los Angeles County General Plan Update on the environment. Mitigation measures will be proposed for those impacts that are determined to be significant. A mitigation monitoring program will also be developed as required by Section 15150 of the CEQA Guidelines.

**REVIEW PERIOD:** This Revised NOP will be available for review from **June 28, 2013** to **July 29, 2013** on the Department of Regional Planning (Department) website at <http://planning.lacounty.gov/generalplan/ceqa>. Hardcopies will be available at the Department's main office and field office locations listed at the following link: <http://planning.lacounty.gov/locations>; all County libraries; Calabasas Library located at 200 Civic Center Way, Calabasas, CA 91302; and Altadena Library (Main Library) located at 600 East Mariposa Street, Altadena, CA 91001.

The Department is seeking input from both agencies and members of the public on the scope and content of the environmental information and analysis to be contained in the EIR. Any correspondence related to the General Plan Update received as part of the first NOP does not have to be resubmitted; it has already been incorporated as part of the environmental review process for the project. Due to the time limits mandated by State law, written comments must be sent via mail, e-mail, or fax no later than 5:00 PM on **Monday, July 29, 2013**. Please send your comments at the earliest possible date to:

Fax: (213) 626-043

**PUBLIC SCOPING MEETING:** Pursuant to the California Public Resources Code Section 21803.9, Los Angeles County will conduct a public scoping meeting. This meeting will provide a public forum for information dissemination and dialogue regarding the components of the proposed project, the overall process, and the draft EIR. While staff will summarize the issues raised at these meetings, anyone wishing to make formal comments on the NOP must do so in writing. The public scoping meeting will be held at the time and location listed below:

**Date:** July 11, 2013  
**Time:** 5:00 p.m. to 6:00 p.m.  
**Location:** Los Angeles County  
Department of Regional Planning  
320 W. Temple Street, Room 150  
Los Angeles, CA 90012

The scoping meeting will also be streamed live at the following link:  
<http://streaming.planning.lacounty.gov/meeting>. Afterward, the recorded presentation and meeting will also be posted at the following link: <http://planning.lacounty.gov/generalplan/ceqa>.
