Appendix II

Chapter 1: Introduction

- Figure I-1: Santa Clarita Valley Planning Area Boundaries

Chapter 2: Land Use

- Figure L-1: Communities and Specific Plans
- Figure L-2: Limited H5 Districts

Chapter 3: Circulation

- Figure C-1: Network of Existing Streets and Highways, 2007
- Figure C-2: Circulation Plan of Streets and Highways
- Figure C-3: Standard Roadway Cross Sections
- Figure C-4: Helipads in the Planning Area
- Figure C-5: Valleywide Bikeway Master Plan

Chapter 4: Conservation and Open Space

- Figure CO-1: Hillsides and Designated Ridgelines in the Santa Clarita Valley
- Figure CO 2: Mineral Resources in the Santa Clarita Valley
- Figure CO-3: Water Resources in the Santa Clarita Valley
- Figure CO-4: Biological Resources in the Santa Clarita Valley
- Figure CO-5: Significant Ecological Areas Designated by Los Angeles County
- Figure CO-7: Scenic Resources in the Santa Clarita Valley
- Figure CO-8: Park, Recreation, and Open Space Resources
- Figure CO-9: Master Plan for Trails in the Santa Clarita Valley

Chapter 5: Safety

- Figure S-1: Earthquake Faults Affecting the Planning Area
- Figure S-2: Earthquake Epicenters
- Figure S-3: Seismic Hazards
- Figure S-4: Floodplains
- Figure S-5: Existing and Planned Public Safety Facilities
- Figure S-6: Fire Hazard Zones

Chapter 6: Noise

- Figure N-6: Existing Roadway Noise Contours
- Figure N-7: Future Projected Noise Contours

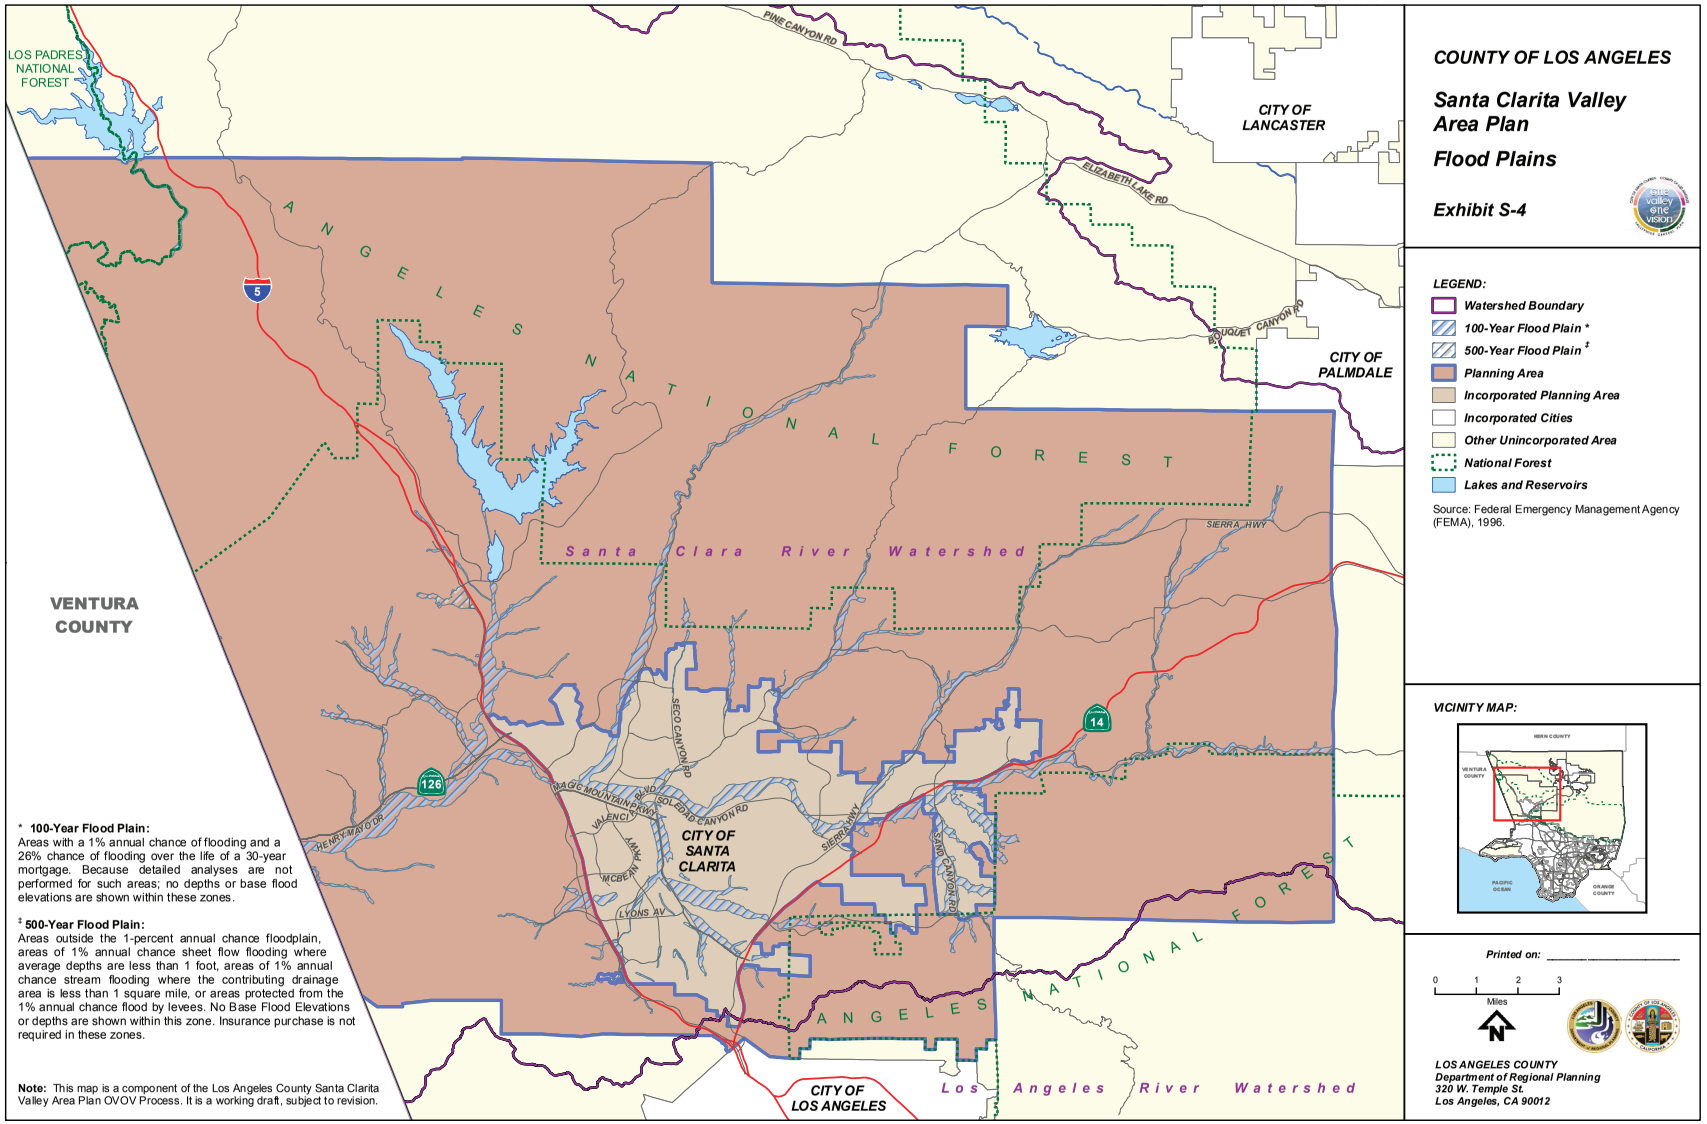
* Liquefaction:
Zones identifying where the stability of foundation soils must be investigated and countermeasures undertaken in the design and construction of buildings for human occupancy. Statutes require that cities and counties use these zones as part of their construction permitting process.
* Earthquake-Induced Landslides:
Zones identifying where the stability of hillslopes must be evaluated, and countermeasures undertaken in the design and construction of buildings for human occupancy. Statutes require that cities and counties use these zones as part of their construction permitting process.
Note: This map is a component of the Los Angeles County Santa Clarita Valley Area Plan OVOV Process. It is a working draft, subject to revision.



*** 100-Year Flood Plain:**
Areas with a 1% annual chance of flooding and a 26% chance of flooding over the life of a 30-year mortgage. Because detailed analyses are not performed for such areas; no depths or base flood elevations are shown within these zones.

‡ 500-Year Flood Plain:
Areas outside the 1-percent annual chance floodplain, areas of 1% annual chance sheet flow flooding where average depths are less than 1 foot, areas of 1% annual chance stream flooding where the contributing drainage area is less than 1 square mile, or areas protected from the 1% annual chance flood by levees. No Base Flood Elevations or depths are shown within this zone. Insurance purchase is not required in these zones.

Note: This map is a component of the Los Angeles County Santa Clarita Valley Area Plan OVOV Process. It is a working draft, subject to revision.
