Subject: Plz support LA County Altadena Foothills & Arroyos Ecological Area

Dear Ms Howard,

I want you to support the proposed Los Angeles County Altadena Foothills and Arroyos Significant Ecological Area.

People have been working since 2000 to establish the Ecological Area. It is vital to all of us.

Not only is the area a rich bio diverse one, but it is a critical east to west wildlife corridor adjacent to the Angeles National Forest. By making our area a SEA, the designation acknowledges special resources and may provide better protection for natural areas, trails and wildlife corridors later on.

Thank you for your consideration.
