**Subject:** Significant Ecological Areas (Item 6d, Aug. 6, 2014) – SUPPORT

Dear Chairperson Valdez,

As the former Founder and Chair of The San Diego Foundation's Environment Program established in 2000, I have spent almost 15 years intensively supporting, along with The Foundation, our committee, government agencies and our local land trusts principles for sound land use planning that encompass both future growth and habitat protection for our entire Southern California region.

As such, I personally support expanding your SEA boundaries along with related public policies to accomplish these important goals.

Thank You.

Bill Kuni
