

Emma Howard  
Significant Ecological Area Program

County of Los Angeles  
Department of Regional Planning  
320 West Temple Street, Room 1356  
Los Angeles, CA 90012

I support the expanded SEA map. It is one of the best programs Los Angeles County has for the preservation of the natural beauty of the Antelope Valley area. However, it still has further to go and should include even more land for conservation and protection against development and urban sprawl.

Sincerely,

*Judith Fuentes*
