RPAP2018005599	10/25/2018	The proposed development of the Hsi Lai Monastery Site is to provide a retreat center for meditating, studying and teaching. The monastery will support a wide range of cultural exchange activities for the greater Los Angeles community. The goal of the development is to create a place where the teaching and practicing of meditation, bridging between eastern and western cultures, and enhancement of the well-being of each person is emphasized. The retreat center will be housed in 18 separate buildings containing over 130,000 square feet of space including classrooms, meditation halls, offices, communal dining facilities and dormitory accommodations for overnight guests. The design of the development situates the buildings and access roadways so as to minimize the disruption of the existing topography on the steeply sloping site.
