## HISTORIC RESOURCES SURVEY

# FLORENCE- FIRESTONE

### Overview

The Los Angeles County Planning Department (LA County Planning) has prepared a Historic Resources Survey Report for the Florence-Firestone Community. The Survey Report documents the community's land development history and identifies important themes, property types, architectural trends, patterns of development, community groups, significant events, and people that are associated with that history. The Survey Report will be used to inform future historic preservation planning efforts within the community that promote the preservation of the community's important cultural and historic resources.

### Public Participation

The public is invited to review the final draft of the Florence-Firestone Survey Report prior to the virtual update meeting for the project on August 17, 2022 at 5 pm.
