

## Inglewood Oil Field

Dear Neighbor,

It is once again time for Sentinel Peak Resources Annual newsletter. While keeping in compliance with the Baldwin Hills Community Standards District, we here at SPR also feel it is important to provide our neighbors with an overview of our current operations in our Inglewood Oil Field, as well as plans for the upcoming year. We would also like to invite you and your families to join us for our Annual Community Meeting. This meeting provides an opportunity to learn more about our field and to meet and interact with some of our employees and their families.

### Annual Community Meeting

**Saturday, October 15, 2022  
12:00 p.m. – 2:00 p.m.**

**Inglewood Oil Field  
5640 S. Fairfax Ave.  
Los Angeles, CA 90056**

# The Inglewood Oil Field

2022 Annual Newsletter and  
Community Announcement

Baldwin Hills Community  
Standards District

## What is the Inglewood Oil Field?

Our Inglewood Oil Field encompasses 1,060 acres in Baldwin Hills, producing oil and gas to meet California's energy needs and has been in operation since 1924! Currently, 49 men and women are employed full-time by Sentinel Peak Resources (in the field and the office). In addition, approximately 75 contractors support the operation on an average day.

## Current operations

Our Inglewood Oil Field is the largest of Los Angeles Basin's remaining producing urban fields. More than 400 producing wells are active, producing an average of 4,700 barrels of oil and 2.6 million cubic feet of natural gas gross each day. Current operations consist of routine well and facility maintenance, an ongoing well abandonment program and a retired equipment removal plan. This year, twelve wells were scheduled to be plugged and abandoned and as of September 21<sup>st</sup>, eleven of those well abandonments have been completed. No drilling/re-drilling activities were undertaken in 2022 nor are any planned for the remainder of 2022.

### 2022 Annual Meeting

#### Baldwin Hills CSD

Saturday, October 15, 2022

Noon-2:00 p.m.

Join us for this family fun event featuring a picnic lunch, games, and pumpkins grown from SPR's very own pumpkin patch!

## Plans for 2023

There are no plans to drill any new wells in 2023. Of mention, no new wells have been drilled in our field since 2014. Each year, we provide a list of new well (drill) candidates should conditions change/permit.

Similar to prior years, we conduct operations to maintain production, which includes re-working existing wells. Of note, no major work is planned for 2023 for tankage or other supporting facilities. As part of our plan to maintain the efficiency and safety of our field, twelve wells are scheduled to be plugged and abandoned in 2023.

## How can I learn more?

You and your family can attend our Annual Meeting (as noted on the previous page). At the meeting, you will get a chance to meet some of our team and their families and learn more about our operations. We also work closely with Los Angeles County staff in the regular reporting of activities in our oilfield. With that in mind, anyone in our neighborhood is always welcome to attend regular **Community Advisory Panel** meetings. How? Just contact the Los Angeles County Department of Regional Planning @ (213)974-6453 or visit their website @ <http://planning.lacounty.gov/baldwinhills>

Updates, current photos of our oilfield & beautiful landscaping and background documents can be accessed on our website: <http://www.inglewoodoilfield.com/>

An alert system is in place that activates in the unlikely event of an emergency arising in our oilfield. If you would like to be included in the Community Alert Notification (CAN) System and you live within 1,000' of the CSD boundary, you can enroll by visiting <https://public.coderedweb.com/CNE/547421C9D6F0>.
