Historic Context Statement

What is a Historic Context Statement (HCS)?

- Is a planning document that outlines the historical background and significance of a specific community
- Is *not* a definitive or comprehensive community history, but does identify important themes relevant to the history and development of the built environment
- Provides an analytical framework for evaluating historic resources
- Establishes periods of significance for these themes and their associated property types

Example: Theme: Chicano Civil Rights Movement (1960-1979)

Property Types: public art pieces, residences, routes

HCS Purpose

- Ultimately, to honor and preserve the history of the East SGV
- Provides the background information (the first step) **for future historic resources surveys**, which **identify specific resources for protection**
- Provides the foundation for future research
- Develop a study list of potential historic resources

Vision Statement IV – Shared Community Identity and Character

4.1 Placemaking and Beautification Strategy

In consultation with stakeholders and residents, design and implement a Placemaking and Beautification Plan that adds or improves infrastructure...

...Specific actions in the Placemaking and Beautification Plan may include:

- Collaborate with local historical groups to create an inventory of historic sites and structures in ESGV. Identify and secure funding to repair and restore these sites, if desired. Install multilingual markers and educational signage in identified historic sites and in public spaces in ESGV to showcase the history and character of the community.

**What counts as a
*historic landmark?***

County Landmark Eligibility

A **structure, site, object, tree, landscape, or natural land feature** may be designated as a County landmark if it is **50** years of age or older and satisfies one or more of the following criteria:

- Association with historic events or activities
- Association with important persons
- Distinctive design or physical characteristics
- Potential to provide important information about prehistory or history
- Determined eligible or is listed in the National or CA Register
- If it is a tree, it is one of the largest or oldest tree species in the County
- If it is a landscape or natural land feature, it is associated with historic events, activities, or people

County Historic District Eligibility

A **geographic area** may be designated as a County historic district if it is **50 years of age or older** and

- Exhibits a concentration of historic or scenic sites containing common character-defining features, which contribute to each other and are unified aesthetically by plan, physical development, or architectural quality; or
- Exhibits significant geographical patterns, associated with different eras of settlement and growth, particular transportation modes, or distinctive examples of parks or community planning.

More than 50 percent of the property owners must consent to designation.
