

Lap Siding

Stucco

Board & Batten

Three Façade Options

3-Bedroom Single-Family House (891 sqft)

Small, stylish, and customizable, this three-bedroom, two-bathroom single-family home offers 891 square feet of thoughtfully designed living space. Every feature has been carefully planned to maximize comfort and functionality, creating a home that feels efficient without sacrificing livability.

Perfect as a primary residence or a compact family home, the layout includes an open living area, a practical kitchen, and three well-proportioned bedrooms for everyday living. The design provides a warm, modern feel within a smaller footprint, making it a great fit for a wide range of lifestyle needs.

To complement your property's aesthetic, you can choose from three timeless exterior finish options: Lap Siding, Board & Batten, or Stucco. Each finish is crafted to blend seamlessly with different architectural styles, ensuring your new home feels cohesive, welcoming, and built to last.

San Gabriel Valley Habitat for Humanity is a nonprofit organization that builds, renovates, and preserves affordable housing in the San Gabriel Valley.
