**PROJECT NO. PRJ2025-002135-(5)
COUNTY DISASTER RECOVERY PERMIT NO. CREC2025000690
“PROCEDURE A” MODIFICATION
55 WEST MOUNTAIN VIEW STREET, ALTADENA
APN: 5835-013-011**

Dear Caitlin and Evan:

The Zoning Administrator, by her action of **March 18, 2026**, has approved the “Procedure A” Modification associated with County Disaster Recovery Permit No. CREC2025000690. Enclosed are the Zoning Administrator’s Findings and Conditions of Approval. This approval was issued pursuant to the [Eaton Fire Disaster Recovery Interim Ordinance](#), which was adopted by the Board of Supervisors on September 2, 2025.

The Zoning Administrator’s Findings and Conditions of Approval are attached. Please carefully review each condition. This approval is not effective until the appeal period has ended, and the required Affidavit of Acceptance is submitted to LA County Planning (please see attached Affidavit of Acceptance with instructions).

Appeals: The applicant or any other interested persons may appeal the Zoning Administrator’s decision. The appeal period for this project will end at 5:00 p.m. on **April 2, 2026**. Appeals must be submitted to appeal@planning.lacounty.gov before the end of the appeal period.

The approved plans may be viewed and/or downloaded at <https://bit.ly/PRJ2025-002135>.

For questions or for additional information, please contact Sean Donnelly, AICP of the Disaster Recovery Team at (213) 893-7024, or sdonnelly@planning.lacounty.gov. Our offices are closed on Fridays.

Sincerely,

AMY J. BODEK, AICP
Director of Regional Planning

LOS ANGELES COUNTY
DEPARTMENT OF REGIONAL PLANNING
FINDINGS OF THE ZONING ADMINISTRATOR
AND ORDER
PROJECT NO. PRJ2025-002135-(5)
COUNTY DISASTER RECOVERY PERMIT NO. CREC2025000690
“PROCEDURE A” MODIFICATION

RECITALS

1. **ENTITLEMENT REQUESTED.** The Permittee, Lauren And David Martinez ("Permittee"), requests a “Procedure A” Modification (“Modification”) associated with County Disaster Recovery Permit (“DRP”) No. CREC2025000690 pursuant to [County Code Section 22.258.050.C.2 \(Disaster Recovery Permit – Non-Like for Like Rebuild Project, Discretionary Review – Procedure A\)](#). The DRP is to authorize a non-like-for-like rebuild project consisting of the relocation of an existing 2,146-square-foot, two-story, single-family residence to the Project Site (“Project”) on a property located at 55 West Mountain View Street in the unincorporated community of Altadena ("Project Site") in the R-2 (Two-Family residence) Zone. The Modification is to authorize a 3.5-foot interior side yard setback on the south side of the Project Site instead of the standard five-foot interior yard which is required by [County Code Section 22.18.040 \(Development Standards for Residential Zones\)](#).
2. **LAND USE DESIGNATION.** The Project Site is located within the H18 (Residential – 0-18 Dwelling Units Per Net Acre) land use category of the West San Gabriel Valley Area Plan Land Use Policy Map.
3. **ZONING.** The Project Site is located in the Altadena Zoned District and is currently zoned R-2. Pursuant to County Code Section 22.258.050.C.2 (County Disaster Recovery Permit – Non-Like for Like Rebuild Project, Discretionary Review – Procedure A), a Modification is required to deviate from the development standards in [Section 22.320.090 \(Altadena Community Standards District\)](#).
4. **SURROUNDING LAND USES AND ZONING.**

LOCATION	WEST SAN GABRIEL VALLEY AREA PLAN LAND USE POLICY	ZONING	EXISTING USES
NORTH	H9 (Residential – 0-9 Dwelling Units Per Net Acre), H-18, OS-PR (Parks and Recreation), CG (General Commercial)	R-2, O-S (Open Space), C-3 (General Commercial)	Single-family residences (“SFRs”), Fire-affected SFRs, retail, Charles White Park
EAST	H18, CG, P (Public and Semi-Public)	R-2, C-3	SFRs, Fire-affected SFRs, retail,

			Mountain View Cemetary
SOUTH	H9, H-18, CG	R-1-7500, C-3, C-2 (Neighborhood Business)	SFRs, Fire-affected SFRs, retail
WEST	OS-PR, H9	OS, R-1-7500	SFRs, Fire-affected SFRs, Charles White Park

5. PROJECT AND SITE PLAN DESCRIPTION.

A. Existing Site Conditions

The Project Site is 0.2531 gross acres in size and consists of one lot. The Project Site is rectangular in shape with flat topography and is currently vacant because the previous single-family residence was destroyed by the Eaton Fire.

B. Site Access

The Project Site is accessible via West Mountain View Street to the south. Access to the Project Site will be via an entrance/exit from West Mountain View Street.

C. Site Plan

The site plan depicts the Project Site with a replacement 2,146-square-foot, two-story, single-family residence. Vehicular ingress and egress is provided via a driveway on the northern portion of the Project Site leading to a tandem carport located behind the SFR.

Five oak trees are depicted on the site plan as being located on the Project Site. Previously existing pathways and a wall are proposed within the oak tree protected zones of three of the trees. However, all work proposed within the protected zones of the oak trees is limited solely to the like-for-like replacement of previously existing development, with no new development permitted within the protected zones resulting in equal or fewer impacts to the protected zones. As such, per [Section 22.258.030-G \(Disaster Recovery Permit- Development Standards\)](#), the proposed Project is exempt from [Chapter 22.174 \(Oak Tree Permits\)](#) requirements.

D. Parking

The Project will include two tandem covered parking spaces to serve the residents of the new single-family residence.

6. CEQA DETERMINATION. Los Angeles County Department of Regional Planning (“LA County Planning”) staff determined that the Project qualifies for Class 1 (Existing Facilities), 3 (New Construction or Conversion of Small Structures), 4 (Minor Alterations to Land), and 5 (Minor Alterations in Land Use Limitations) categorical exemptions from the California Environmental Quality Act (Public Resources Code section 21000, et seq.) (“CEQA”), the State CEQA Guidelines, and the Environmental Document Reporting Procedures and Guidelines for the County. The Project is exempt because it involves the installation of a new SFR, is in a zone which permits single-family residential uses, and is on a lot that was previously developed with an SFR destroyed by the Eaton Fire. The Modification is for a reduction of the required side yard

setback. The Project Site is not located within or near an environmentally sensitive area, a historical resource, a hazardous waste site, or a scenic highway. No significant impact due to unusual circumstances nor cumulative effects are anticipated.

7. **COMMUNITY OUTREACH.** The Permittee did not perform any public outreach related to the Project.
8. **PUBLIC COMMENTS.** No correspondence was received from the public regarding the Project.
9. **AGENCY RECOMMENDATIONS.** Reviews by the County Department of Public Works, the County Fire Department and the County Department of Public Health were not required because the Project is a single-family residence.
10. **LEGAL NOTIFICATION.** Pursuant to County Code [Section 22.258.050.C.2 \(Disaster Recovery Permit – Non-Like for Like Rebuild Project, Discretionary Review – Procedure A\)](#), the community was properly notified of the modification application by mail. Additionally, the Project was noticed and case materials were available on LA County Planning's website. On January 30, 2026, a total of seven Notices of Application were mailed to all adjacent property owners, and a total of 125 notices were electronically mailed to those on the courtesy mailing list for the Altadena Zoned District and any additional interested parties.

GENERAL PLAN CONSISTENCY FINDINGS

11. **LAND USE POLICY.** The Zoning Administrator finds that the Project is consistent with the goals and policies of the General Plan because the H18 land use category is intended for single-family residences, such as the Project.
12. **GOALS AND POLICIES.** The Zoning Administrator finds that the Project promotes the following goals and policies of the Land Use Element:

Policy LU 4.1: Encourage infill development in urban and suburban areas on vacant, underutilized, and/or brownfield sites.

The Project involves the non-like-for-like rebuild of a single-family residence destroyed by the Eaton Fire on a lot within the suburban community of Altadena. The Project will be serviced by existing water lines and sewer lines. It will reactivate the Project Site and facilitate recovery for the property owners and the broader Altadena community, contributing to neighborhood cohesiveness by reintroducing much-needed single-family housing near retail and amenities.

Policy LU 10.3: Consider the built environment of the surrounding area and location in the design and scale of new or remodeled buildings, architectural styles, and reflect appropriate features such as massing, materials, color, detailing or ornament.

The Project has been designed to reflect the architectural style, size, and scale of the remaining and previously existing single-family residences in the vicinity of the Project

Site, which is within the Eaton Fire affected area. The Project's architectural style, size, and scale are also similar to those of the previously existing single-family residence. The Project complies with all Zone-Specific Development Standards for the R-1 Zone within County Code [Section 22.320.090 \(Altadena Community Standards District\)](#), including but not limited to minimum setbacks, maximum height, lot coverage, and gross structural area, with the exception of the modification requested. Additionally, the Project complies with all development standards for single unit developments in County Code [Section 22.140.520 \(Residential Design Standards\)](#), including but not limited to building and site access, front yards and building orientation, ground floor treatments, building articulation, building façade details, and landscaping and walls.

ZONING CODE CONSISTENCY FINDINGS

13. **PERMITTED USE IN ZONE.** The Zoning Administrator finds that the Project is consistent with the R-2 zoning classification, as a non-like-for-like rebuild of a single-family residence is permitted in such zone with a DRP pursuant to County Code [Section 22.258.050 \(Disaster Recovery Permit\)](#).
14. **REQUIRED YARDS.** The Zoning Administrator finds that the Project is consistent with the yard standards identified in [Section 22.18.040 \(Development Standards for Residential Zones\)](#), with the exception of the modification requested. The Project provides a four-foot interior side yard setback instead of the standard five-foot interior side yard. Additionally, the Zoning Administrator finds that the Project is consistent with the standard identified in the Altadena CSD, which requires front yard setbacks of 20 feet and rear yard setbacks of 25 feet. The Project provides a front setback of approximately 40 feet and a rear yard setback of approximately 80 feet.
15. **HEIGHT.** The Zoning Administrator finds that the Project is consistent with the standard identified in [Section 22.18.040 \(Development Standards for Residential Zones\)](#), which requires a maximum height of 35 feet. The Project's height is approximately 23 feet.
16. **PARKING.** The Zoning Administrator finds that the Project is consistent with the standard identified in [Section 22.112.070 \(Required Parking Spaces\)](#). Two covered parking spaces are required for a single-family residence. Pursuant to County Code [Section 22.258.030 \(Development Standards\)](#), required parking for disaster rebuild projects within the Eaton Fire affected area can be covered or uncovered. The Project includes two covered parking spaces.
17. **RESIDENTIAL DESIGN STANDARDS.** The Zoning Administrator finds that the Project is consistent with the standards identified in County Code [Section 22.140.520 \(Residential Design Standards\)](#). The building and primary entryway are oriented towards the front property line. The primary entryway is lit with one lighting fixture providing a minimum of two foot-candles of light on the ground within a minimum of five feet from the entryway door. The single-family residence utilizes two entryway articulation strategies: a window located on the door, and the entryway includes weather protection over the door.

The building also utilizes multiple articulation and architectural detailing strategies. Building facades are treated as a whole, with materials continuing around the external corners. All habitable rooms are provided with natural light and natural ventilation. The building is solar ready.

A total of approximately 7,000 square feet of landscaping is provided, exceeding the minimum required 20 percent of the lot area not used for buildings and structures. At least 80 percent of the required on-site landscaping coverage area will consist of trees and plants native to Southern California or non-invasive and drought-tolerant plants.

18. **TREE PLANTING.** The Zoning Administrator finds that the Project is consistent with the standard identified in County Code [Section 22.126.030 \(Tree Planting Requirements – Tree Requirements\)](#). The Project includes five existing oak trees to be preserved on-site, meeting the requirement for two trees for residential projects with three or fewer units per lot.
19. **INCLUSIONARY UNITS.** The Zoning Administrator finds that the Project is exempt from the Inclusionary Zoning Ordinance because the Project includes only one dwelling unit.

“PROCEDURE A” MODIFICATION FINDINGS

20. **The Zoning Administrator finds that the proposed use will be consistent with the adopted General Plan for the area.** The Project Site is located within the H9 land use category of the West San Gabriel Valley Area Plan Land Use Policy Map. The H18 category is intended for the use of SFRs. As the Project proposes the rebuilding of a previously existing SFR, this is consistent with the intended use of the category.
21. **The Zoning Administrator finds that the proposed use at the site will not adversely affect the health, peace, comfort, or welfare of persons residing or working in the surrounding area; will not be materially detrimental to the use, enjoyment, or valuation of property of other persons located in the vicinity of the site; and will not jeopardize, endanger, or otherwise constitute a menace to the public health, safety, or general welfare.** The Project is the non-like-for-like installation of a one-story SFR. The rebuild project is compatible with the surrounding land uses and development patterns that existed before the Eaton Fire. The development will contribute to the recovery of the Altadena community by reintroducing single-family housing near retail and amenities. The Conditions of Approval will ensure that SFR, the driveway, and the landscaping are properly and continuously maintained.
22. **The Zoning Administrator finds that the proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.** The Project Site is of an adequate size and shape to accommodate the one-story SFR. The Project complies with development standards for setbacks, height, lot coverage and gross structural area, parking, tree planting, and landscaping, with the

exception of the modification requested. The Project has been designed to comply with all development standards for single unit developments in County Code [Section 22.140.520 \(Residential Design Standards\)](#). As a result, the Project is compatible and well-integrated with surrounding residential uses.

23. **The Zoning Administrator finds that the proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.** The Project Site is adequately served by West Pine Street, which is approximately 36 feet wide. The Project will have minimal impacts on current traffic patterns and parking, as the Project Site is located on a public residential street with minimal traffic. The Project will accommodate one family or individual, with two uncovered, off-street parking spaces provided. The Project will be serviced by existing water and sewer lines.

SUPPLEMENTAL “PROCEDURE A” MODIFICATION FINDINGS – RESIDENTIAL DESIGN STANDARDS

24. **The Zoning Administrator finds that the requested modification promotes high quality design of the subject building and contributes to and is cohesive with the surrounding built and natural environment.** The Project design mimics the design and configuration of the previous single-family residence. The proposed driveway aligns with the previously existing driveway, minimizing grading. As documented above, the Project complies with all other development standards for single unit developments in County Code [Section 22.140.520 \(Residential Design Standards\)](#), as well as with all Zone-Specific Development Standards for Zone R-2 within the Altadena CSD. Therefore, the Project is cohesive with the surrounding built and natural environment.
25. **The Zoning Administrator finds that the requested modification results in a design that considers all sides of the building.** All building elevations are well-articulated, and all materials continue around the exterior corners of the building. Windows are proportional to the façade. The covered parking is located behind the residence away from the public-right-of-way.
26. **The Zoning Administrator finds that the requested modification results in a design that encourages pedestrian and other forms of non-vehicular mobility/activity for users of all ages and abilities.** The Project is designed to contribute to a pedestrian-friendly environment. The building is oriented to the street, and a direct pedestrian pathway is provided from the primary entryway to the public right-of-way, facilitating safe pedestrian travel. Pedestrian-scale lighting is provided adjacent to the primary entryway. Landscaping within the front yard setback, including three oak trees, will provide shade, cooling, and carbon sequestration, to the benefit of pedestrians and cyclists.

ENVIRONMENTAL FINDINGS

27. The Zoning Administrator finds that the Project is exempt from the California Environmental Quality Act pursuant to State CEQA Guidelines sections 15301 (Class 1 Categorical Exemption, Existing Facilities), 15303 (Class 3 Categorical Exemption, New Construction or Conversion of Small Structures), 15304 (Class 4 Categorical Exemption, Minor Alterations to Land), and 15305 (Class 5 Categorical Exemption, Minor Alterations in Land Use Limitations). The Project is exempt because it involves the installation of a replacement SFR on a lot that was previously developed with an SFR destroyed by the Eaton Fire. The Modification is for a minor variance of the required side yard and will not result in the creation of a new parcel. The Project Site is not located within or near an environmentally sensitive area, a historical resource, a hazardous waste site, or a scenic highway. No significant impact due to unusual circumstances nor cumulative effects are anticipated.

ADMINISTRATIVE FINDINGS

28. **LOCATION OF DOCUMENTS.** The location of the documents and other materials constituting the record of proceedings upon which the Zoning Administrator's decision is based in this matter is at LA County Planning, 13th Floor, Hall of Records, 320 West Temple Street, Los Angeles, California 90012. The custodian of such documents and materials shall be the Acting Section Head of the Disaster Recovery Team, LA County Planning.

BASED ON THE FOREGOING, THE ZONING ADMINISTRATOR CONCLUDES THAT:

- A. The proposed use with the attached conditions will be consistent with the adopted General Plan.
- B. The proposed use at the site will not adversely affect the health, peace, comfort or welfare of persons residing or working in the surrounding area, will not be materially detrimental to the use, enjoyment or valuation of property of other persons located in the vicinity of the site, and will not jeopardize, endanger or otherwise constitute a menace to the public health, safety or general welfare.
- C. The proposed site is adequate in size and shape to accommodate the yards, walls, fences, parking and loading facilities, landscaping and other development features prescribed in Title 22, or as is otherwise required in order to integrate said use with the uses in the surrounding area.
- D. The proposed site is adequately served by highways or streets of sufficient width and improved as necessary to carry the kind and quantity of traffic such use would generate, and by other public or private service facilities as are required.
- E. The requested modification promotes high quality design of the subject building and contributes to and is cohesive with the surrounding built and natural environment.
- F. The requested modification results in a design that considers all sides of the building.

- G. The requested modification results in a design that encourages pedestrian and other forms of non-vehicular mobility/activity for users of all ages and abilities.

THEREFORE, THE ZONING ADMINISTRATOR:

1. Finds that the Project is exempt from the California Environmental Quality Act pursuant to State CEQA Guidelines sections 15301 (Class 1 Categorical Exemption, Existing Facilities), 15303 (Class 3 Categorical Exemption, New Construction or Conversion of Small Structures), 15304 (Class 4 Categorical Exemption, Minor Alterations to Land), and 15305 (Class 5 Categorical Exemption, Minor Alterations in Land Use Limitations); and
2. Approves the **“PROCEDURE A” MODIFICATION ASSOCIATED WITH COUNTY DISASTER RECOVERY PERMIT NO. CREC2025000690**, subject to the attached conditions.

ACTION DATE: January 9, 2026

CS:SD

March 18, 2026

c: Zoning Enforcement, Building and Safety

LOS ANGELES COUNTY
DEPARTMENT OF REGIONAL PLANNING

CONDITIONS OF APPROVAL
PROJECT NO. PRJ2025-002135-(5)
DISASTER RECOVERY PERMIT NO. CREC2025000690
“PROCEDURE A” MODIFICATION

PROJECT DESCRIPTION

The project is a non-like-for-like installation of a single-family residence, with a “Procedure A” Modification to authorize a reduction in the side yard setback, as required by 22.320.090.D.1.a (Altadena Community Standards District), subject to the following conditions of approval:

GENERAL CONDITIONS

1. **Permittee.** Unless otherwise apparent from the context, the term “Permittee” shall include the applicant, owner of the property, and any other person, corporation, or other entity making use of this grant.
2. **Affidavit of Acceptance.** This grant shall not be effective for any purpose until the Permittee, and the owner of the subject property if other than the Permittee, have filed at the office of the Los Angeles County ("County") Department of Regional Planning (“LA County Planning”) their affidavit stating that they are aware of and agree to accept all of the conditions of this grant. Notwithstanding the foregoing, this Condition No. 2 and Condition Nos. 4, 5, and 8 shall be effective pursuant to County Code Section 22.222.230 (Effective Date of Decision and Appeals).
3. **Date of Final Approval.** Unless otherwise apparent from the context, the term “date of final approval” shall mean the date the County’s action becomes effective pursuant to County Code Section 22.222.230 (Effective Date of Decision and Appeals).
4. **Indemnification.** The Permittee shall defend, indemnify, and hold harmless the County, its agents, officers, and employees from any claim, action, or proceeding against the County or its agents, officers, or employees to attack, set aside, void, or annul this permit approval, which action is brought within the applicable time period of Government Code section 65009 or any other applicable limitations period. The County shall promptly notify the Permittee of any claim, action, or proceeding and the County shall reasonably cooperate in the defense. If the County fails to promptly notify the Permittee of any claim, action, or proceeding, or if the County fails to cooperate reasonably in the defense, the Permittee shall not thereafter be responsible to defend, indemnify, or hold harmless the County.
5. **Litigation Deposit.** In the event that any claim, action, or proceeding as described above is filed against the County, the Permittee shall within ten days of the filing make an initial deposit with LA County Planning in the amount of up to \$5,000.00, from which actual costs and expenses shall be billed and deducted for the purpose of defraying the costs or expenses involved in LA County Planning's cooperation in the defense, including but not limited to, depositions, testimony, and other assistance provided to Permittee or Permittee's counsel.

If during the litigation process, actual costs or expenses incurred reach 80 percent of the amount on deposit, the Permittee shall deposit additional funds sufficient to bring the balance up to the amount of \$5,000.00. There is no limit to the number of supplemental deposits that may be required prior to completion of the litigation.

At the sole discretion of the Permittee, the amount of an initial or any supplemental deposit may exceed the minimum amounts defined herein. Additionally, the cost for collection and duplication of records and other related documents shall be paid by the Permittee according to County Code Section 2.170.010 (Fees for Providing County Records).

6. **Invalidation.** If any material provision of this grant is held or declared to be invalid by a court of competent jurisdiction, the permit shall be void and the privileges granted hereunder shall lapse.
7. **Recordation.** Upon any transfer or lease of the property during the term of this grant, the Permittee, or the owner of the subject property if other than the Permittee, shall promptly provide a copy of the grant and its conditions to the transferee or lessee of the subject property.
8. **Expiration.** This grant shall expire unless used by **January 7, 2030**. A single one-year time extension may be requested in writing and with the payment of the applicable fee prior to such expiration date.
9. **Inspections.** The subject property shall be maintained and operated in full compliance with the conditions of this grant and any law, statute, ordinance, or other regulation applicable to any development or activity on the subject property. Failure of the Permittee to cease any development or activity not in full compliance shall be a violation of these conditions. No provision of any easement of or any other encumbrance on the property shall exempt the Permittee and/or property owner from compliance with these conditions and applicable regulations.

Inspections may be made to ensure compliance with the conditions of this grant as well as to ensure that any development undertaken on the subject property is in accordance with the approved site plan on file. If inspections are required to ensure compliance with the conditions of this grant, or if any inspection discloses that the subject property is being used in violation of any one of the conditions of this grant, the Permittee shall be financially responsible and shall reimburse LA County Planning for all additional enforcement efforts necessary to bring the subject property into compliance. The amount charged for inspections shall be **\$456.00** per inspection, or the current recovery cost established by LA County Planning at the time any additional inspections are required, whichever is greater.

Inspections may be unannounced. Inspections may be conducted utilizing any available technologies, including, but not limited to, unmanned aircraft systems (UAS). Use of a UAS requires the consent of the Permittee pursuant to LA County Planning's UAS policy, which may be updated from time to time, and which shall be provided to the Permittee upon request.

10. **Revocation.** Notice is hereby given that any person violating a provision of this grant is guilty of a misdemeanor. Notice is further given that the Regional Planning Commission (“Commission”) or a Hearing Officer may, after conducting a public hearing, revoke or modify this grant, if the Commission or Hearing Officer finds that these conditions have been violated or that this grant has been exercised so as to be detrimental to the public’s health or safety or so as to be a nuisance, or as otherwise authorized pursuant to County Code Chapter 22.238 (Modifications and Revocations). Failure of the Permittee to cease any development or activity not in full compliance shall be a violation of these conditions and may result in revocation.
11. **County Fire Code.** All development pursuant to this grant shall comply with the requirements of Title 32 (Fire Code) of the County Code to the satisfaction of the County Fire Department.
12. **County Public Works Requirements.** All development pursuant to this grant shall comply with the requirements of the County Department of Public Works to the satisfaction of said department.
13. **Exhibit “A.”** All development pursuant to this grant shall comply with the requirements of Title 22 (Planning and Zoning) of the County Code and of the specific zoning of the subject property, unless specifically modified by this grant, as set forth in these conditions, including the approved Exhibit "A," or a revised Exhibit "A" approved by the Director of LA County Planning (“Director”).
14. **Revisions to the Exhibit “A.”** The subject property shall be developed and maintained in substantial conformance with the plans marked Exhibit “A.” In the event that revisions to the approved Exhibit “A” are submitted, the Permittee shall submit **an electronic copy** of the proposed plans to the Director for review and approval. All revised plans must substantially conform to the originally approved Exhibit “A.” All revised plans must be accompanied by the written authorization of the property owner(s) and applicable fee for such revision.

PROJECT SITE-SPECIFIC CONDITIONS

15. **Scope of Approval.** This grant shall authorize the construction of a new single-family residence with an attached garage in the R-1-7500 (Single-Family Residence – 7,500-Square-Foot Minimum Lot Size) Zone with modified front and rear setbacks.
16. **Parking.** The Permittee shall provide two vehicle parking spaces for the single-family residence, as required by the County Code. Unless an applicable permit is obtained, the number of parking spaces shall not change.
17. **Landscaping.** Landscaping shall be maintained through regular pruning, weeding, fertilizing, litter removal, and replacement of plants as necessary.
18. **Maintenance.** The sidewalk frontage in front of the property shall be continually well-maintained and free of litter, debris, household furniture, or any other items.

19. **Painting.** The single-family residence shall be repainted as necessary to replace discoloration and faded or peeling paint.
20. **Access.** Waste and recycling receptacles shall not block vehicular access to and from the property.
21. **Vehicles.** Inoperable vehicles may not be stored on the property or in parking spaces.
22. **Oak Tree Fencing.** Chain link fencing not less than four feet in height shall be installed around the protected zone of protected oak trees in order to restrict storage, machinery storage, and access during rebuilding activities. Said fencing shall be in place prior to commencement of any development activity on the lot. Said fencing shall remain in place throughout the entire period of development and shall not be removed until development activities have concluded.
23. **Oak Tree Grading.** All excavation and/or grading within the protected zone of a protected oak tree shall be limited to hand tools or small hand-power equipment.
24. **Oak Tree Replacement.** Any damage, encroachment, or removal of protected oak trees not otherwise authorized by this Permit shall be subject to Chapter 22.174 (Oak Tree Permits), including, but not limited to, requiring a retroactive Oak Tree Permit and requirements to plant replacement indigenous oak trees at a ratio two to one for non-heritage oaks, and ten to one for heritage oaks.

AFFIDAVIT OF ACCEPTANCE INSTRUCTIONS

Please read carefully. Failure to follow these instructions may result in the delay of your approved site plan and building permits.

After the termination of the appeal period (14 days after the action date), proceed with the following instructions if you have not been notified that an appeal has been received.

Sign the “Affidavit of Acceptance” form in the presence of a notary and have the notary attach an acknowledgement. Both the applicant and owner lines must be signed on the form, even if they are the same person.
