

GENERAL PLAN TUNE-UP 001: Project Summary

The General Plan Tune-Up 001 Project (Project) is a targeted update to the adopted General Plan (GP), focused exclusively on correcting inconsistencies and errors, and aligning policies with current County practices and State requirements. This limited-scope update maintains the fundamental framework, development intensity, and timing established in the General Plan (GP), while ensuring the document remains accurate, legally compliant, and responsive to current planning standards. Edits to the GP fall within two distinct categories:

Administrative and Technical Corrections: These edits correct typographical, grammatical, citation, pagination, cross-reference, labeling, and data transcription errors; improve clarity of formatting and references (headings, numbering, cross-references, figure legends, and table captions); and update maps, figures, and datasets to reflect current information and correct inconsistencies without altering policy direction. Examples of these corrections are included in the table below:

Table 1. Administrative and Technical Correction Type

Correction Types	Action	Example
Administrative/Formatting	<ul style="list-style-type: none"> ■ Correct grammar and spelling. ■ Fix pagination and layout. ■ Update the table of contents, headings, numbering, cross-references, and figure legends. ■ Remove formatting artifacts. <p>These edits must not change the meaning or effect of any provision.</p>	<ul style="list-style-type: none"> ■ Standardize capitalization of General Plan. ■ Resolve orphan headings and insert proper page breaks; clean up margins and spacing. ■ Refresh the Table of Contents and Lists of Figures/Tables after renumbering. ■ Renumber headings, figures, and tables to maintain sequence and consistency. ■ Standardize figure legends and captions; add missing source lines. ■ Remove leftover tracked-change artifacts, double spaces, hidden comments, and inconsistent quotation marks.
Clarification	<ul style="list-style-type: none"> ■ Reword for clarity. ■ Add or refine definitions. ■ Spell out acronyms. ■ Update citations, URLs, and plan or ordinance titles. ■ Update references to County departments, divisions, program names, and implementing responsibilities to reflect organizational changes since GP adoption. 	<ul style="list-style-type: none"> ■ Rephrase passive or ambiguous text to clear, active requirements (e.g., “Applicants shall prepare...”). ■ Add or refine glossary definitions (e.g., “Community Benefits Agreement,” “Renewable energy generation facility”). ■ Spell out acronyms on first use (e.g., “Specific Plan (SP),” “State Implementation Plan (SIP)”). ■ Replace outdated citations and broken URLs with current code sections and County webpages; correct ordinance titles and years. ■ Update references to departments to match current structure, such as adding the Department of Economic Opportunity, which now oversees County economic programs. ■ Reassign implementing responsibility where oversight has shifted without changing scope (e.g.,

Correction Types	Action	Example
Map/Data Corrections	Update maps, figures, tables, labels, and datasets to reflect adopted boundaries, current program names, or corrected attributes. These edits must reflect adopted decisions and factual corrections only. They must not change designations, overlays, standards, or development potential.	<p data-bbox="846 317 1360 373">“Lead: Department of Economic Opportunity; Support: Regional Planning and Public Works”).</p> <ul data-bbox="816 380 1349 436" style="list-style-type: none"> <li data-bbox="816 380 1349 436">■ Update program names to current County terminology while keeping policy scope intact. <ul data-bbox="816 657 1382 1083" style="list-style-type: none"> <li data-bbox="816 657 1382 714">■ Replace a community boundary figure to reflect Board-adopted annexations since GP adoption. <li data-bbox="816 720 1382 747">■ Correct a mislabeled roadway on a mobility map. <li data-bbox="816 753 1382 810">■ Update total acreage in a land use table to match current GIS rounding. <li data-bbox="816 816 1382 873">■ Change a legend status from “Proposed” to “Adopted” where a Board action has occurred. <li data-bbox="816 879 1382 968">■ Swap in the latest County-maintained dataset for the same layer (e.g., updated floodplain or bikeway inventory) without altering designations. <li data-bbox="816 974 1382 1031">■ Fix figure labels and units (miles vs. kilometers); standardize symbology and scale bars. <li data-bbox="816 1037 1382 1083">■ Correct table footnotes to cite the correct adoption date or resolution number.

Policy Alignment: The Policy Alignment category includes, but is not limited to, text and policy edits to align GP language with adopted State laws, regulations, and County guidance that have been enacted or updated since the GP adoption. The changes reflect the implementation of existing County policies, compliance with State mandates such as Senate Bill 743's transition to Vehicle Miles Traveled (VMT) analysis, and incorporation of previously adopted plans and assessments, such as the Parks Needs Assessment (PNA) and PNA+.
