

THE FIGUEROA II

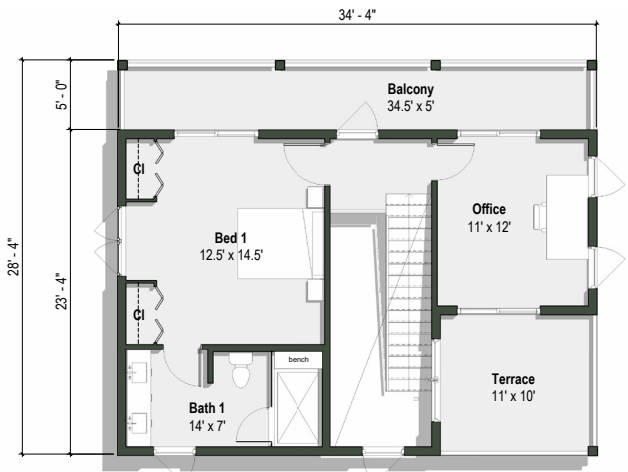

concept design by Lauren Sommerville

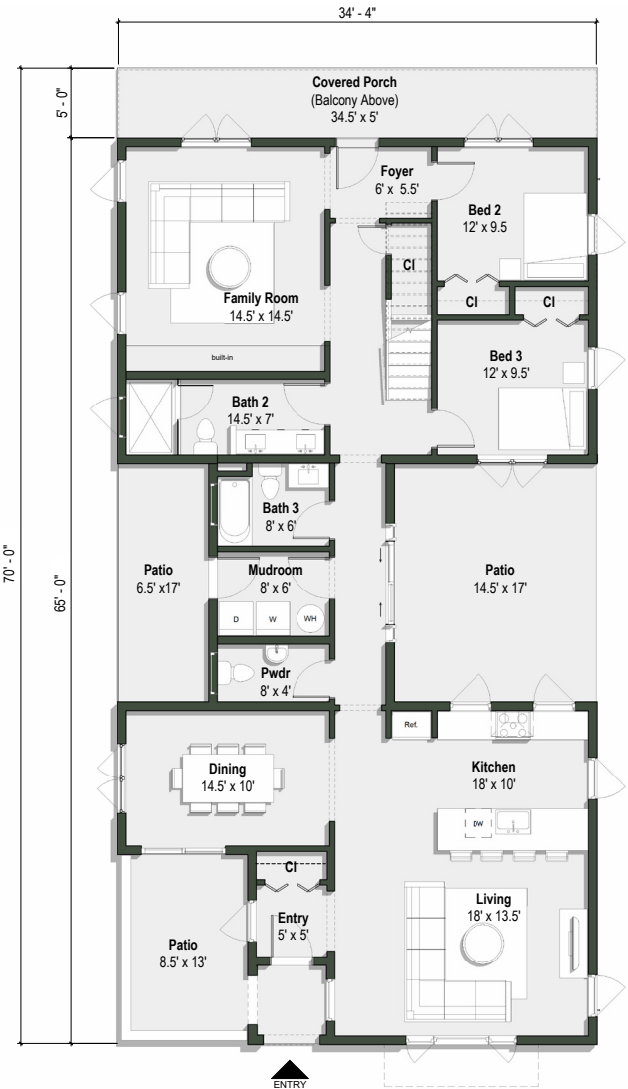

The Figueroa II captures the distinctive curb appeal of the Spanish style with a terracotta tile roof, white stucco walls, and a gently arched opening to the front entry. The kitchen, living room, and dining room are on a separate wing of the house from the bedrooms, creating privacy for the more intimate spaces in the home. The primary suite is located on the second floor with a balcony that spans the entire rear of the house. The Figueroa II features two side courtyards that allow for indoor/outdoor living.
