The facility is proposing to transition from an adolescent/youth facility to an adult SRF, while maintaining the same general residential care use and operational framework. No physical alterations to the existing building, site, or facility are proposed, with the approved number of beds/residents (16) being requested would remain unchanged. The nature of the services would remain similar to those provided under the existing CUP, with the primary modification being the ability to serve adolescent/youth or adult residents. | Steven Mar    | C-3-BE |
