

CASTAIC AREA LOCALLY INDIGENOUS PLANTS
(Compiled by DRP's Impact Analysis Section)

This list represents a selection of plant species native to the Castaic Lake area which commonly appear in landscaping plans. Growth forms are AH: annual herb, PH: perennial herb, S: shrub, T: tree, and V: vine. AH and PH plants are wildflowers and grasses, many of which may be appropriate for hydroseed mixtures. Species names are those used in *The Jepson Manual, 2nd Edition* (2012); those in brackets are those used in *The Jepson Manual* (1993) where they differ from currently accepted nomenclature.
